By Frances Gibb Legal Affairs Correspondent

The Archbishop of Canter-bury yesterday defended his right as a private citizen to vote in the general election, in spite of sitting in the House of Lords. Dr Robert Runcie, whose decision to vote in the constitu-ency of Vauxhall, south Lon-don, caused a flurry in legal and ecclesiastical circles, said he took legal advice on his right to vote when he was bishop of St Albans in 1979. He had been told he could.

A constitutional lawyer told

him he was not a peer of the realm, barred from voting by a nineteenth-century statute, but a spiritual peer, he said on the BBC programme Weekend World, on Radio 4. There was no difference between bishops and archbishops in that respect

The polling card had arrived in the normal way at Lambeth Palace, for R. A. Runcie, and also for his wife and children. As archbishop, he added, he should be cautious of the danger of being identified with party

"But when it cames to an election, if one is given the right in private to express your view on a particular candidate, you have every right to do so and it does not inhibit your public representative role."

representative role."

Dr Runcie did not disclose that private view yesterday. Publicly, he said, he did not regard himself as putting either a right or left-wing point of

view. Meanwhile, lawyers churchmen delved into authorities for guidance on this previously unaired issue. Acording to Mr Frank Robson, Dr Runcie's legal adviser, the matter was not clear, but Halsbury's Laws of England seemed to indicate that lords spiritual were in a different position from lords temporal.

That states that bishops are not peers of the realm; they are lords spiritual of Parliament. But the Home Office said the authority was Parker's Conduct of Parliamentary Elections, which says that "presumably lords spiritual are subject to the same rules on voting as other

lords, and cannot therefore vote in general elections.

But all agree that the matter vould have to be determined in the courts. For the present however, it is likely to remain a

legal debating point.

Mr Terry Waite, personal adviser to Dr Runcie, said that a challenger would have to show first that the archbishop voted knowing he was dis-barred; and secondly, that this materially affected the outcome of the election. "He would have a hard job with a Labour majority in Vauxhall of nearly \$,000."

hrea

a remote Russian island By the staff of Nature

Cameras on board an American weather satellite have photographed what appears to be a volcanic eruption on a remote island in the Soviet Union in an area where present tectonic theory predicts no volcanic activity.

The cruption-like plume emanating from the northeastern corner of Bennett Island, almost 600km north of the Siberian mainland, was first spotted on February 18 by scientists from the US National Weather Service in Anchorage, Alaska, on infra-red images routinely obtained by the NOAA-6 weather

The pinme was then about 250km long and roughly seven kilometres high, almost penetrating the stratosphere. Subsequent satellite images showed that the activity quickly ceased, but started upagain on April 8.

Close inspection of the images suggests that the plume emanates from two or three separate volcanic vents. One of them appears to be about 15km offshore from the island, in an ice-covered area where the ocean depth is less

Although the appearance of the plume resembles that of a volcanic eruption, the event remains somewhat enigmatic. Seismic records from the Geophysical Institute of Alas-ka, which would be expected to register any volcanic activity or accompanying earthquakes,

show nothing.

Air samples from Barrow,
Alaska, directly downwind of
Bennett Island, failed to detect the higher than usual levels of trace metals which are often released during eruptions.
On the other hand, the power released during the

event is thought to be too large to be explained by a fire, as is the height to which the plume penetrated the atmosphere. If the events seen by the satellite really are volcanic eruptions, it will come as a surprise to geologists. The little that is known of the geology of the Island suggests no previous eruptive activity and the island is far from the margins of tectonic plates, which are the most common sites for volcanoes. The nearest documented eruption is some 1,300km distant on the

#### Tie-break solves regional crossword final

The third regional final of the Dictionaries/Times Crossword Championship, held yesterday in Bristol, was de-cided on a tie-break:

Seven of the 136 finalists achieved the maximum 124 points for the four puzzles. The two leaders, with 64 time bonus points, were Mr Roy Davies, a mathematics professor, and Mr William Pilkington, a local government officer, from Ayles-bury, who solved the tie-break puzzle first.

In third place, also qualifying for the national final, was Mr. Gordon Hobbs, a solicitor, from Wood Green, Essex. He had 60 time bonus points. Mr Thomas Owen, a univer-

sity administrator, from Aberystwyth, was fourth, with 55 time bonus points.

#### After 20 years

Police in Cheshire have charged a man with a munder that has remained unsolved for more than twenty years. He is to appear before Macclesfield magistrates today charged with murder at Wilmslow between October 27, 1960, and Decem-ber 31, 1962.

#### Correction

# Tory 'deal' on rates is threatened by King's Cabinet switch

Local Government Correspondent

The appointment of a new Secretary of State for the Environment has threatened a private and informal deal by Mr Tom King with local Tory leaders over the Government's plan to take direct control over rate levies.

In a sequence of pre-election meetings between Mr King and Tory leaders of the shire counties and the districts an "understanding" was reached in that there would be no embarrassing opposition to the rates plan, provided the Department of the Environment could guarantee that most of the counties and districts would not, on the basis of 1983-84 figures, be adversely affected. For the Association of Dis-

trict Councils its chairman, Mr lan McCallum, promised loy-alty and for the Association of County Councils (ACC) Mr John Loill, the majority leader, said the Government would get away with little more than a few rhetorical outbursts.

Mr King was told there would be no repetition of the

King, who has become Secmay change matters

Part of the concordat with Mr King rested on the local Tories' trust in him because he had always adopted amore emollient line on local government finance when he was Minister of

the Government's proposals Although Mr King was always careful in what he said

there was speculation yesterday in the local camp that a lack of enthusiasm for hammering the councils might have been one reason for his removal.

It remains to be seen how quickly Mr Patrick Jenkin, the new Secretary of State, will move to affirm Mr. King's commitments. The advantages of such a deal are that it splits the local government camp.

Vocal opposition to the rates plan would be likely to come from the Labour-dominated Association of Metropolitan Councils and from authorities such as Sheffield and the Greater London Council, which would be in the front line of those Levying rates above the Government's target. Mr Jenkin cannot take the

loyalty of the counties for granted. The annual elections for the top posts in Association return of State for Transport, of County Councils will be held soon. The Tory advocates of a more critical line towards government plans are unlikely to make much headway.

But people such as Mr Ian Courts, of Norfolk, and Sir John Grugeon, of Kent, who accept ontrol rate rises was abanoned by the Government.

But the replacement of Mr

King was not happy about the Government's plans withKing was not happy about the to fare badly.

#### 'List top art | Heroin can be bought treasures in 'anywhere in Britain' Britain' plea

Heroin can be bought in every part of Britain, it is claimed in a World in Action Granada Television programme to be screened this evening. The programme says that pro-fessional criminals are moving into the drug business because of vast sums of money in-volved. It says that dealing in

drugs is less dangerous for hardened criminals than robbing banks and security vans. The profits are tremendous; a kilogram of heroin which cost £2,000 in Pakistan will sell on Britain's streets for more than £200,000. Profita are likely to increase because criminals are forcing addicts to pay more and

"extremely dangerous" spend-ing power of the Getty The programme called "The Heroin Barons", consults addicts, one of whom says he steals up to £400 a week to pay for his drugs, police, customs officials and specialists on the take action to prevent a flow of treasures to the United States

look bleak."

The report is the result of research which involved 20,000 miles of travel, interviews with 13,000 people and the sending of questionaires to Australia, Liberia and Tasmania.

The extensive detective work was necessary to find the children of families interviewed by Seebohm Rowntree in York in 1950. The result was to show that the new generation had hardly moved up or down the incomes ladder in comparision with their parents.

prescribing because they were being paid to prescribe, rather than to benefit the patient's health, our image would rapidly Rowntree's research in 1950, which followed up his similar work in the city in 1899 and 1936, laid the foundations for poverty studies by economists and sociologists, and concern Council had not been involved.

"I would have though that about the family poverty trap in 1972 prompted Sir Keith prescribing drugs for profit Joseph, then the Secretary of would be an even more serious State for Social Services, to commission further research. Today's report published

Health and Social Security and the Social Science Research Council, is the culmination of a two-year survey, costing £90,000, which took four years to analyze.

Most of the children of Rowntree's subjects were still living in the York area, but intense detective work was required to trace many others to homes all over the country.

One of the book's authors Mr Alan Maynard of York University's Institute of Social and Economic Research, one of the book's authors, said the results showed that the welfare state had failed to narrow the gap between rich and poor.

"People from affluent backgrounds tend to stay at the top of the tree. If you were a high earner in the 1950s there is a good chance your children will be high earners now, and the same goes for low-income familie

"It is widely believed that the welfare state has given everyone equal chances. But over the last question its value in doing so. The welfare state merely pro-vides a floor below which jointly by the Department of people do not generally fall.

#### 'Misuse' of computers in schools

Britain has the highest number of home computers per person of any country in the world, but parents do not understand them, and teachers are little better informed. Mr Raymond Hammond, a com-

puter expert, claims. Many schools are misusing computers and "ignorance and confusion are creating 'code iunkies' out of some teenage programers, whilst withhold ing vital computer assistance from others" he says in a book

published today. Children should be introduced to computers in the nursery and the machine should then be used as a general tool and spur to learning, rather than for specific subjects and projects, Mr Hammond says.

"Our children are learning something which did not exist as a classroom subject until 1980, and teachers and parents are finding themselves in the embarrassing position of lagging behind the children they are supposed to lead.

"Computers threaten the generation gap' that was talked about so much in the 1960s. Before long our society will be divided into the computer literate and the

He says that many teachers are "totally ignorant" about computers, and they do not appear to be responding well to the challenge to learn. Computers and Your Child (Century, £5.95 paperback).

## closing down sale The last of the huge Ministry

Ministry's

of Defence auctions, which began in 1946 with the sale of war surplus stock, will be held in Nottinghamshire this week. It is expected to yield well over £im, (Our Defence Correspondent writes).

For more than 35 years national sales have been held at the ministry's Ruddington depot, which is due to close shortly. This week's will be the 179th, and total proceeds since 1946 are put at well over £100m, worth perhaps £1,000m at today's values.

Although, in the early days sales covered everything from tanks to razor blades, recently the emphasis has narrowed to vehicles and plant, with rarely fewer than 1,000 vehicles in a

Now the system is being changed, with auction firms being appointed to deal with sales in individual regions.

#### Strikes may shut schoools

Schools throughout Cambridgeshire may be shut down this week because of indefinite strikes by cleaners and care-takers in protest over county council plans to bring in private contractors.

Staff have stopped work at one secondary and two primary schools and the public service union, NUPE, gave a warning yesterday that others will be affected over the next few days.

#### Call to set up media ministry

Mrs Mary Whitehouse, President of the National Viewers' and Listeners' Association, has called on the Prime Minister to set up "as a matter of urgency" a new ministry, separate from the Home Office, for broadcast-

ing and the electronic media.

In a letter to Mrs Margaret
Thatcher she says the imminence of cable television and broadcasting by satellite calls for a "fundamental reappraisal" of the position.

#### Blast death

Mr Wilfred King, aged 36, of Chapel Road, Prestwich has died after an explosion damaged a house in which he was carrying out improvement work, in Polefield Road, Manchester. He staggered from the house engulfed in flames.

# to break up Shining Path

Lima (NYI) - Hundreds of people have been taken into custody for questioning as the police hunted for members of a small but growing Maoist movement that has prompted the Government of President Fernando Belaunde Terry to declare a 60-day state of emergency.

The arrests, police said, ccurred in and around Lima and Ayacucho, the centre of operations of the Shining Path guerrillas. More than 500 were arrested, and the round-up was said to be continuing.

The Army reports that 823 people have been killed since the beginning of the year in the fighting between Government forces and guerrillas, compared to about 283 in the previous two and a half years. Officials say about two thirds of the dead were guerrillas, the rest soldiers, policemen and pea-sants - were said to have been

cilled by guerillas. Western diplomats and Peruvian political experts estimate that the Shining Path numbers no more than 2,000 guerrillas, with perhaps an equal number of sympathizers.

Army leaders have predicted that they will wipe out the leftist guerrilla movement by the end of the year, but a heavy blow to their efforts was dealt last week by a guerrilla strike on the capital. The attackers blew up electricity pylons, blacked out much of the city, set off bombs near embassies and Government buildings and largely destroyed the sprawling Bayer industrial works with fire

The psychological impact appeared great Recent polls have shown that despite economic crisis, ravaging floods in the north and a debilitating drought in the south, Peruvians are most worried about the guerrillas. Many demand that the Government take harsher

measures. In a move widely interpreted here as a show of force, President Belaunde declared a state of emergency on May 30 for 60 days.

At a news conference the President said that all Peruvians should unite in this undeclared war against delinquents, mercenaries and dark forces of ideology that Peru fortunately rejects. He meant the Shining

The state of emergency was a particulary delicate step becuse it suspends the democratic principles President Belaunde has long upheld.

# Peru tries |OAU at last lives up to its name | 15 killed as

Addis Ababa, (Renter) – The organization of African Unity yesterday closed its nineteent annual summit able to live up to its name for the first time in 15 fractions months.

Formal closure of the session by Colonel Mengista Haile Mariam, the Ethlopian leader, ended a period on which two atempts to bold the summit broke down because of political showdowns and the existence of the OAU was threatened.

The withdrawal from the ting last week of the Polisario. Front the Western ment, whose OAU admission in February, 1982, set of the crisis, allowed the summit to end by adopting resolutions

giving Africa's views on world Colonel Mengistn said the OAU, founded here 20 years ago to press for the decoloriza-tion of Africa, had survived a

crisis without precedent but could now speak with one voice. He attacked South Africa for what he called its "inhuman policies against its people and terrorism against front-line states" in the region. We have put to shame anti-

African forces who were plotting and conspiring for the. destruction of our organization," he said. He named no country, but

the tenor of his remarks echoed earlier accusations that "imperialist" forces were behind

breakdowns in Libya last year. Reference to the United States, often dubbed imperialist by socialist countries, was absent from a resolution attacking South Africa's "destabilization tactics" in southern Africa.

Conference sources said the next summit would be held in Conskry, the capital of Guinea, in May.

Mr Peter Onn. a Nigerian, was appointed interim Sec-retary-General of the OAU. Mr Onu, an Assistant Secretary-General, was given the post to break a deadlock between the two main candidates from Mali and Gabon.

#### Champagne for freed aid Britons

Four British relief workers who were held for seven weeks by Ethiopian guerrillas flew home at the weekend. They had a champagne flight from Khar-tum into Heathrow.

The chief steward on flight on Saturday said: "After all they have been through I decided to push the boat out. They had Bucks Fizz - champagne mixed with orange juice -and I gave them some extra bottles for a party with their relatives."

The four were suntanned and fit although they said they had lost weight, mainly through having to walk hundreds of miles with the Ethiopian guerrillas, members of the Tigre People's Liberation Front who captured them in northern Ethiopia in April.

They had no complaints about their treatment. Miss Clare Davies, aged 35, a nutritionist, from Turvey, Bedfordshire, said: "We were very well treated and well fed. We had the local food - flattened bread which was like a pancake with meat sauce and chicken. And on occasions they brought us imported food, including

tinned pineapples. "We spent a lot of time talking together, played Scrabble a lot and read. There was no real hardship."

Miss Libby Grimshaw, aged 39, the fund's field director from Henley, said: "I don't believe they intended to capture so many of us in the first place. After a few weeks we were clearly an embarrassment to them. They seemed uncertain as to why we had been taken

Dr Charles Douglas, aged 29, from Cambridge, said; "I didn't have to give anyone medical treatment although we took malaria tablets."

# 4U major companies have discovered a product that can clear two years'software backlog. In one month.

Extract from University of Auckland study.

Today most companies use computers. But there's a snag.

It still takes too long to develop the software that you need. And for many companies, like yours, that could be a major handicap.

Which is why an entirely new concept from Burroughs could revolutionise the way your company uses computers.

It's called LINC, and it may well have as much impact on the computer world as the silicon chip.

#### 2000% more productive

When the University of Auckland studied the subject, they found that with LINC the development time for applications programs is reduced by 2000% when compared to conventional systems.

Astonishingly, this speed can generally be achieved by staff with little or no data processing experience.

Homecoming: Three hundred years after the first German

settled in the New World, Dr Henry Kissinger at a ceremony

in Worms with Dr Bernhard Vogel (left), state president, and Herr Hans-Dietrich Genscher, Foreign Minister.

Death raids denied

students died in attacks by armed men in the Gayaza and Kabanyolo areas, 14 miles

north of Kampala.

Ugandan authorities have High School, said her students

#### Dramatic success stories

In the twelve months since its launch, LINC has already caused a sensation.

A major building society has rewritten its mortgage and investments system in under six months.

In the same time, a leading oil company has developed a complex oil blending system.

And a major corporation has implemented three systems, again in just six months.

There are many more success stories, including a giant confectionery company and one of the largest estate agents in the country, as well as several systems and software houses.

#### LINC seminar programme

Suffice it to say that LINC has already been hailed as a product that will turn traditional programming on its head.

Burroughs will be presenting LINC at a series of seminars where companies who have installed it will be talking about their successful experience with the product.

These are on June 14 and 15 at the CFS Conference Centre, Portman Close, London W1, and June 29 at the National Computing Centre, Oxford Road, Manchester, with further seminars in the UK in the autumn.

If you want to know more about this. major breakthrough, make sure someone from your company comes along.

For more information about Burroughs LINC and information on the nationwide series of seminars, just send the coupon or ring the Burroughs LINC co-ordinator, on 01-930 1114.

And discover LINC for yourself.

# Testing time for Howe in battle to reform **EEC** finances

From Ian Murray, Brussels

over the past three years.

nology.

France, however, will argue that any new policies need to be

funded by new money. This view has wide support, although Britain and West Germany

were sorted out

reject it out of hand.

West Germany.

Sir Geoffrey Howe mas a tough start to his new job as Foreign Secretary in Luxem-Sir Geoffrey Howe has a received more than expected bourg today, leading Britain's battle to reshape the finances of

The complicated negotiations, postponed because of the British elections, are now entering their most critical stage. There is no doubt that Sir Geoffrey's close familiarity with the dossier as Chancellor meant he was the most obvious choice to take over as Foreign Sec-

Today's meeting in Luxembourg is crucial if there is to be an early reform of the EEC. Failure could mean the Community would go bankrupt with-out any rescue plan available. From Britain's point of view, the meeting is doubly important, because failure would make it almost impossible for Mrs Thatcher to win an EEC budget rebate for 1983 at the European summit in Stuttgart next week-

Sir Geoffrey will find that West Germany, which is presi-dent of the Council of Ministers until the end of the month, is not trying to get any decisions taken at today's meeting. Nor is it putting forward any figure for a British rebate.

The German compromise paper for the meeting, which has been studied in EEC concentrates instead on ways in

hich the Community can save These two countries, cur-it wants the foreign ministers rently the only net contributors which the Community can save to agree above all on cutting the to the EEC budget, are therefore desperately anxious to build a policy (CAP), particularly in the dairy sector. It also wants which will make the European member states to accept Brirain's claim for a 1983 rebate they fear it will not be possible but at the same time wants to achieve the necessary re-Britain to accept that its rebate forms before the Community must be reduced because it goes bankrupt.

**US** peace envoy sees Guatemala leaders

Guatemala City (AP & AFP)-Mr Richard Stone, the American presidential envoy, nearing the end of his 10-day Latin American mission, arrived in Guatemala on Saturday for meetings with officials of the military accurate. military government.

He conferred with the Presi-To avoid confrontation with dent, General Efrain Rios Montt, and the Ministers of the European Parliament, the paper is careful to play down the British rebate question and Defence and Foreign Affairs.

No official statement was issued, but unofficial sources said general Rios Montt told the to try to put it in context as merely one of a whole range of problems needing settlement.

To please the Parliament, which
has the power to block any envoy that Central America's problems "should be resolved by Central Americans."
Mr Stone's visit followed a specific British rebate, the paper

calls for new policies and highlights the need for progress on EEC policy for high techday of talks in Managua, the Nicaraguan capital, that did not appear to have improved US-Nicaraguan relations.

The Nicaraguan Junta coordinator, Senor Daniel Ortega, said his meeting with Mr Stone was "responsible, mature and serious" and said Nicaragua "insisted on dialogue with the United States on a sale and a said Nicaragua and said Nicaragua "insisted States on dialogue with the said Nicaragua". United States on a plan of dignity."
However, at the airport Mr.

Any agreement on reform will have to be doubly quick since the paper is calling for completion of negotiations for EEC entry by Spain and Portugal in the middle of next year. That expensive step would only be possible if the EEC's finances were sorted out Stone, asked about the possi-bility of that dialogue taking place, said that "for the dialogue to achieve a peaceful solution in the region it must be with all the Central American countries so that they can resolve their affairs, not with the United States."

Sir Geoffiey will also be seeking to force the pace because next month Greece takes over the EEC presidency followed in the new year by France. This means that for the next year Communications are the sear Communication. Mr Stone did not say if the United States was rejecting Nicaragua's request for further next year Community business will be run by two Socialist countries, with a very different set of priorities from those of Britain and austerity-conscious

Bra and lipstick for astronaut with a difference

newspaper. "Astronauts want-ed", it said. She had not previously thought of space travel as a career, but she applied, was accepted, and will soon make a footnote in history as America's first woman in space, Trevor Fishlock writes from New York.

She will be one of the crew of five on board the space shuttle Challenger, due to leave Kennedy Space Centre at Cape Canaveral on June 18 and return to the same place six days later. The presence of Miss Ride -

or 5ft 5in, 115lb, blue-eyed, brunette, cool-hand Sally, as the papers thumbnail her - has created additional interest in what has become an almost routine undertaking. For all the roune undertaking, for all the excitement and formidable challenges of space travel there is an effort to make it appear unremarkable, and astronauts themselves tend to be low-key and laconic.

Miss Ride fits the mould. "She has country-boy horse-sense". Captain Robert Crippen, the shuttle commander, said, in fulsome tribute. "I like who don't get to

Miss Ride believes the feminist movement belped her into a place on the rocket. But flight and science have never been closed worlds to women. she follows such distingnished American aviatrices as Amelia Earhart, first woman to fly the Atlantic solo, and Jacqueline Cochran, first woman to pilot an aircraft through the sound barrier and first to fly at twice the speed of

The Russians have put two

women into space.

There are only the most minor differences in equipment for female astronauts, Nasa

handedly specify "brassiere, female only", just to make things absolutely clear - and what is called the "female unique" addition to the bathroom kit includes a lipstick.

Miss Ride, aged 32, is also Mrs Steven Hawley, having recently married an astronaut who, like her, responded to Nasa's job advertisement. He is due to make a shuttle flight next year. Meanwhile, he will be the first American husband keeping his fingers crossed as his wife sits on top of a large rocket and is blasted into

#### Pioneer 10 breaks loose from the Sun

Mountain View, California (Reuter) - Pioneer 10, carrying a message from mankind, is due today to become the first spacecraft to leave the solar system, travelling possibly forever among the stars.

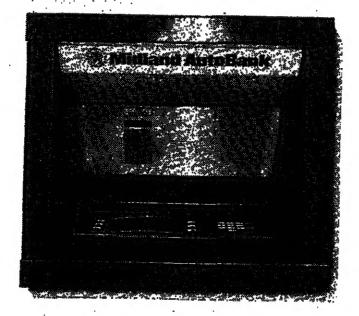

The 570lb spacecraft, designed to have a life of 21 months when it was launched on March 2, 1972, will fly across the orbit of Neptune, at present the outermost of the nine known planets of the solar system, today system, today.

At that point, Pioneer 10, with its giant disc giving it the look of a flying saucer, will be travelling away from the Sun at 30,558 mph and will have left the Sun 2.81 billion miles

Pluto is normally the outer-most planet, but because of its egg-shaped orbit it will be inside the orbit of Neptune for the next 17 years.
Pioneer 10 carries a messag

from mankind, a gold-anodized aluminium plaque engraved with the drawings of a nude man and a woman, with the man's hand raised in greetings and a series of scientific symbols.

The spacecraft's itinerary is mind-boggling. "Its first en-counter with a star should take place in 10,507 years time when passes Barnard's star, which changes its position in the sky faster than any other star, at a distance of 3.8 light years." a space agency spokesman said at the mission control centre here.

# Police arrest Solidarity activists and shut radio as Pope's visit nears

From Roger Boyes, Warsaw

In a swoop in southern bution, reams of paper, and pilgrimage that, God willing I printing ink concealed in cans will make to Poland next underground activists, broke up of condensed milk.

Thursday - on the occasion of three clandestine publishing houses, and closed down a Solidarity radio station in Cracow, only a week before the Pope is due to visit the city.

The police strategy seems to be to stop the Solidarity underground mobilizing demonstrators during the papal visit which begins on Thursday. The visit takes in many places in the Cracow area, including Czestechowa and Nowa Huta.

Nowa Huta, a steel producing city, is a special concern for the police, partly because feelings there are still running high about the deaths of demonstrators during recent anti-government protests.

One of the three publishing houses raided at the weekend published a bulletin called Hutnik, which was aimed at Solidarity sympathizers in Nowa Huta steelworks.

The police communiqué said most of those arested were students at Cracow University. A 32-year-old legal adviser named on television as Alex-ander H. was arrested while making illegal broadcasts from a secret transmitter.

printed bulletins awaiting distri- to your prayers I entrust the

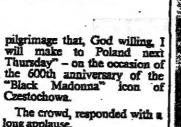

A British freelance journalist, Mr Gary Mead, is under investigation by the Polish authorities under Articles 271 and 272 of the Criminal Code, which provides for a jail term of up to five years for "publishing false information in the foreign press which may cause damage

to the interests of Poland". Although he was detained for 48 hours in early May, he has been allowed to live at home in

articles under a pseudonym for the New Statesman and other journals over the past two years, has been working as a lecturer in literature with the British

His condition is said to be fine, and he had regular access to the British consular officials. ROME: The Pope yesterday called on 45,000 pilgrims and tourists in St Peter's Square to

pray for his coming trip to his native Poland, AP reports. Speaking in Italian the Pope also invoked the protection of the Virgin Mary for the trip, the second of his pontificate.

"May God want to bless this pastoral initiative and make it produce many fruits for the good of the church and the whole people of the Polish

The Roman Catholic Church has emphasized the religious aspects of the visit, which include a Mass at Czestochowa, site of Poland's holiest shrine on June 18 after stops in Warsaw and Niepokalanow.

nation", he added.

The Pope is expected to meet Poland's military leader, Gen-eral Wojciech Jaruzelski, on the second day of his visit. He will apparently also meet Mr Lech Walesa, the head of Solidarity.

Vatican sources have said the meeting with Mr Walesa, which is not included in the official programme would be a low-key encounter probably on June 19 in Czestochowa.

A Vatican source said or Wednesday the meeting would be in "private form" in an The weekend raid also led to "To the protection and apparent effort to avoid stirring the confiscation of thousands of intercession of Virgin Mary and any provocation that could mar

to have damaged a government helicopter.

The Burmese Governmen has been trying to regain control of the area for the past 34 years. The latest attack is one of the heaviest against the rebels, who two years ago declared the establishment of their own independent Karen state.

# town again From Tony Duboudin

Melbourne The New South Wales outback town of Walgett was weekend as the "shearers war broke out for the second tin within two weeks.

At the end of last month between 200 and 300 shearers, local people, New Zealanders and men from Western Austra-lia, fought a pitched battle in the town, which is about 310 miles from Sydney, over a recently ended strike by shear-ers. On that occasion the New Zealanders and West Australians were triumphant.

This weekend's violence was believed to have been started by local shearers seeking revenge involved in the latest brawl and it took the local police force of break up the fighting. They faced gaugs wielding steel piping and pieces of wood. One man was arrested for

causing serious alarm and affront. Five others were held for being drunk. One was taken to hospital with head injuries.

The fighting started at an lottel, where the restricts them.

hotel, where the previous brawl began, shortly after midnight on Friday. Police managed to break up the brawlers inside the hotel but fighting started again in the car park.

Tension between the shear-ers has resulted from claims by the locals that the Australian and New Zealand shearers worked at sheep properties during the recent strike. Police believe the town could face more violence.

After the first brawl at Walgett the New South Wales Police Association asked the state government to equip the local police with special riot gear, saying it was outnum-bered, ill-equipped and had to stand aside and let the fight "punch itself out."

#### Poll landslide leaves no worries for King Hassan

Pro-Government centre-right parties have won a landslide ictory in local council elections here which suggest that parlia-mentary elections due in Sep-tember are unlikely to redraw

that this north African country is a constitutional monarchy, it is one over which King Hassan still rules as well as reigns, and most important decisions, par-ticularly on defence and foreign policy, are ultimately taken in the palace,

Despite this there is a degree f pluralism which makes Moroccan politics more interesting than those of many countries in Africa and the Arab world, where brazen tyrannies are the rule rather than the

# Foot faults and mouth disease

fessionals, the men's "union", publishes a weekly newspaper that includes a feature written in Spanish. Since 1968, when open competition was introduced, tennis has become a thriving segment of the world-wide entertainment business. The changes within the game have been revolutionary. The least controversial and therefore the least publicized has been the emergence of Spanish as the sport's second

This has happened because although South Americans do not excel on the grass courts of Wimbledon, they have been invading the men's circuit in astonishing numbers. Two men have been outstanding in their example and influence: Guillermo Vilas of Argentina, a former French. United States. and Australian champion, and Jaime strated that the game's traditionally Anglo-Saxon code of conduct could be exported without damage.

This was a more open question in the days when Ilie Nastase was acquiring a reputation as an enfant terrible. He was raising a storm at Monte Carlo one year and a group of us were discussing the implications over morning coffee. Charlie Pasarell, a sensitive and open-minded man, suggested that Anglo-Saxons should not self-righteously assume that the traditional code of conduct came down from the mountain with Moses. It was becoming necessary to adjust, within reason, to the impact of other cultures.

asarell was right; and the enriched by its increasingly cosmopolitan cast. The odd thing is that although the rot set in with Nastase, a Romanian, the most prominent modern sinners have been Americans: first Jimmy Connors, then John McEnroe. True. Connors has cleaned up his act ("I just concentrate on my tennis and my opponent") and, like Nastase, has the saving grace of comedy. But comedy and good manners are not mutually exclusive.

Connors suggests that "McEnroe has to struggle with himself, the court, and the people - he needs stress-relief, or he would go crazy." But stress is not peculiar to McEnroe, nor indeed to tennis: and if a man loses his composure under stress, his composure must have fragile roots. It has would then have nothing but tennis to

also been suggested that emotional write about. On the other hand the outbursts can raise a player's level of media are not blameless. performance. "Boloney," says one psychiatrist. "It's babyish. The loss of control is bound to affect your game."

In defence of McEnroe and other occasional offenders from the United States (among them Eliot Teltscher, who used obscene language to his female opponent during the French mixed doubles final), it has been said that they believe in "doing their own thing". But what are we to make of players whose "own thing" permits them to cause general offence and disrupt their opponents' concen-

McEnroe has said: "I don't like being phony. I prefer to be honest. That's more important than being liked by everyone." That sounds reasonable, superficially. But if McEn-Fillol, the Chilean whose selfless roe finds a correlation between honesty integrity as ATP president demon- and boorishness it does not say much for him. "My problem," he says, "is to find a way of handling all the nervous energy that builds up inside me. I'm just too competitive." Yes, he does have a problem. More mature players can "handle" the nervous energy and the competitive ardour.

There are no excuses for McEnroe's disputatious rudeness - only explanations, sometimes of the kind applied to wilful children having tantrums that smack of hysteria. But at 24 McEnroe is no child. He should be all man. Much the same could once have been said of Nastase. But for years there has been evident in Nastase's outbursts a thread of controlled purpose - an eagerness to have some fun and thus enliven a match that may be boring him. There are times, though, when Nastase's conduct is still disgusting.

Nastasc, Connors, and McEnroe in turn have attracted particular attention because of their exceptional playing ability, which meant that any misconduct would be widely reported. One consequence of declining standards of behaviour - in conjunction with the increased publicity given to the game - is that Nastase and McEnroe became easy targets for media representatives specially assigned to seek "scandal" stories, leaving the tennis reporting to

McEnroe has often said that he wants to be judged for his tennis rather than his behaviour. That preference could easily be satisfied if he simply got on with the tennis and allowed his opponent to do the same. The media

Roy Emerson, such a sunny-natured

man that his serious moments command attentive respect, once asked why the British press gave more space to those who behaved badly than to those who played well. The short answer is that the media should report everything interesting that happens and a "row story" may have a wider appeal than a tennis report. That said, it must be admitted that most reporters have a good deal of freedom in arranging their material and deciding how much emphasis to give to this or that incident.

Misconduct and money inevitably receive more publicity than they did in the days when there was less of both. Manuel Orantes recently said that too much attention was given to the top players, at the expense of the sport. A lot depends on the character of the top players. The higher a man goes, the greater his responsibilities. The celebrities of tennis are richly rewarded public entertainers with wide-ranging obligations: to themselves, their opponents, spectators, tournament officials, and the game's reputation and well-being. A few - and only a few are funking those obligations.

McEnroe's boyhood idol was Rod Laver. They have something in common in that each is left-handed and the most naturally gifted player of his era. But Laver has no time for the kind of performances Nastase, Connors, and McEnroe have often put on: like. Terrible behaviour on court. gentlemen. Suddenly there's this flamboyant attitude of doing your own thing, and screaming and shouting at the crowd or the officials. People like that can't play unless there's pandemonium going on. But who wants to be known as a real jerk on a tennis court? It's pretty sad when public names can't behave themselves properly. It's just bad manners. And it shows a lack of

respect for the game."

The blame for all this lies primarily with no more than a handful of men (the leading women have more selfdiscipline and a stronger sense of responsibility to the game). Those few men get away with it because the voluminous disciplinary code devised by the grand prix council is demonstrably ineffective.

in fining and suspending such promi- and a consequent shift of emphasis

Noah. Those decisions could be of reminded us that ground strokes are a immense long-term benefit. But the offences concerned had nothing to do with court conduct. In this area the

disciplinary code has no teeth. The men responsible for behaviour on court are the players and the umpires. The competence and moral courage of the umpires should be beyond question. Unfortunately it is not. There are umpires who seem to be unacquainted with the "point penalty schedule" or casually turn a blind eye or a deaf ear towards offenders. Some value their place in the limelight so highly that they are not going to put it at risk by taking a boldly controversial decision. Can they be sure that tournament organisers will back them now and welcome them in the future? The umpire's authority has in any case been croded by the roving supervisors representing the grand prix council. These supervisors know their stuff but sometimes seem to be in another world when a celebrity is "doing his own

here are indications. though, of a reversion to better days. Jose Higueras. beaten by Mats Wilander in the French championships. told us later that Wilander was "a very good tennis professional", that it was a pleasure to play against him, and that the game needed players like Wilander at the top. Both semifinals of those championships were "I see things I don't believe and don't contested by sportsmen who were also

Moreover, Noah won the tournament. Noah is a throwback to the days when the leading players could do everything - rally patiently from the baseline, sparring for an opening before advancing to the forecourt to put the ball away. Noah is a superb athlete and John Alexander reckons that in time he may be even better on grass then he is on clay. For the moment, though, Noah's success in Paris suggests that the era of two-fisted backhands and an excessive dependence on top-spin may be ending. This technique, most effective on clay, is based on avoiding error and inducing it - rather than making a positive effort

to win points. y the grand prix council is demon- During the 15 years of open rably ineffective.

Competition, tournaments have proTrue, the council deserve credit for liferated and there has been a shift of the bold decisions they took last week emphasis towards slower surfaces -

means to an end - the end being an adventurous foray to the forecourt.

Those 15 years have also endowed tennis with the mixed blessing of heavy sponsorship from commercial com-panies anxious to tap the middle-class market for their products. There are so many dollar millionaires playing tennis these days that they have ceased to be news. Schoolchildren are making as much money in a year as their parents make in a decade. Sometimes the cost is high. We have seen girls submit to so much physical stress, such intense competition, that they have damaged their health during a period of growth - and become joylessly hard-eyed in the premature pursuit of fame and fortune.

Within the game, priorities have changed. For many players, money matters more than major championships. Computerized rankings, which govern tournament entries and seedings, are an inducement to miss tournaments played on alien surfaces that pose the threat of an early defeat and a lowered ranking. Incredibly, there are players who take holidays during the French, Wimbledon, or United States championships.

The odd thing is that, although so many more youngsters are playing fulltime (and competing far more often than their predecessors), there has been no perceptible improvement in the quality of the champions. Chris Lloyd and Bjorn Borg were the leaders of the teenage takeover and both have joined the ranks of the all-time great players. But could they have coped with Margaret Court and Rod Laver on anything but slow clay?

Finally, there is a modern vogue - restricted to a minority, thank goodness - for gasping or grunting or making retching noises when hitting the ball. By a circuitous route that brings us back to McEnroe and company. May we, please, go back to the days when tennis players kept their mouths shut and let their rackets do the talking?

#### **TOMORROW**

From London to Paris. from Melbourne to New York: what it takes to win the Grand Slam

#### moreover... Miles Kington

# Taking it from the top again

Regular readers of this column, and shareholders in Moreover Enterprises, will notice several changes today.

For one thing the photograph which used to hang at the top of the column, like some unidentifiable and forgotten ancestor,

is no longer there.

The text, which used to be printed in Old
Times Moderate Alliance, now has a new type face called Brave New Times They Are A-Coming. The width, which is what printers call the distance from one side to

the other, has been increased.

And the column itself is higher on the page, whereas before it used to wind itself round the crossword before falling asleep in Is this some newspaper whim? Has a

passing features enter put his head through the door and shouted: "Get rid of the photo and we'll get rid of the text later?" Is it even the result of some hitherto unknown trade union threatening to go on strike and only being bought off with £100 more a week and the promise of improvements in the Moreover column?

Of course not. It is simply that the board of Moreover Enterprises has decided to move into the new Thatcherite era by carrying out a few radical changes which will bring in even more money, cause pleasure at No. 10 Downing Street and perhaps in due course bring a knighthood or two rolling our way.

It is a column to suit the times.

Accordingly, the staff of 25 who until now have been working full-time on research for and the writing of the column. have been declared redundant. They have all been replaced by a BBC-2 microcom-puter, which has been programmed to produce the kind of literate yet ultimately pointless satire which, we believe, can be found nowhere else on the Spectrum page. Of course, there will be teathing troubles to begin with. We realise that Correction. Unread teathing, insert teething. Return

The Concise Crossword which until now has been such an integral part of the column, has been sold off to private enterprise. It has been, as Mrs Thatcher would say, privatized. Although remaining in the same place, it is now in the hands of a consortium emanating from I believe

The picture of the unknown man which used to adorn the column has been placed in the hands of Sotheby's, the auction people. They have identified it as a very early, very exciting photograph, taken at a time when camerawork was still primitive and tended to cut off people's ears, hair and chin. We have put a reserve price on it of something in the order of £20,000, or the price of a night out for two in Soho.

And we have sold off the space in which we used to appear to a development corporation who intend to use it for the erection of prestige office buildings and shopping precincts. Our new premises have been bought with the aid of a large improvement grant from the government, in return for our coming out strongly in favour of the Tories in the election run-up. Thanks, Norman.

Some people would call this asset-stripping. We agree. The electorate has clearly shown that it wants no further truck with public money being doled out to white elephants and that people must stand on their own two feet. If this means flogging off the juicier bits of the Moreover empire. and waiting for a lucrative take-over bid for the rest, then so be it.

But make no mistake. This is also a compassionate column. It is a caring column. Every reader, no matter how illegible, who writes in to us with his ideas and suggestions will have his letter carefully scrutinized and if the ideas are worth reusing, they will be reused, efficiently and ruthlessly. If correspondents care to include a stamped addressed envelope, be quite sure that those stamps will be soaked off and put to a good use. Money, gifts and bequests will also be considered carefully and, if there are no irksome conditions or charitable purposes attached, gratefully accepted.

We shall also continue our export drive.

The Moreover column is syndicated in thousands of Third World newspapers all over the globe, where local editors are tinder the impression that it is some form of cultural effort backed by the British Council. Recently, there have been pirate Moreover columns produced cheaply and shoddily in Taiwan. Rest assured that our team of hungry and remorseless lawyers will not rest until these pirates have been driven out of business or found lifeless in some Taiwanese back alley.

Remember: Moreover stands for the new Tory Britain. It certainly won't stand for anything else, least of all criticism. You have been warned. (A message from the Chairman of Moreover Enterprises.)

#### Brushing up on the master's magic

latter-day Calchemists, enhancing hiding the sec-rets of paintings, bringing credit and worth to

MODERN TIMES

sideways look at the British way of life

All over our house, little red lights blink. When they smell smoke, they blink faster. If they still smell smoke, from a major conflagration or my cooking, a banshee noise is unleashed until the fire brigade calls or the frying-pan is taken outside.

I won't say that we sleep more soundly because of the dwarf fire alarms, since their signal that the battery is running low, a mournful squawk, generally starts in the middle of the night and. terrifies the children. But it is comforting to know that there is some intelligence in the home, even if it is only artificial.

They come from the same source as the large, colour photographs of the children stuck on the walls. The source is a neighbour, who is involved in a number of small business deals and is branching out into photography - the Lord Snowdon of London SE23.

At one time he was something very big in GEC, big enough to hold conversations with Sir Arnold

Weinstock along the lines of: "I offered them £4m. they said £5m so we were right to split the difference, weren't we, Arnold?" Then he was no longer big, or anything at all, in GEC. This is not a sob-story; he seems happier now, having more time for the family, and he takes in lodgers.

He belongs to a class of people who recently gave the Department of Employment a nasty shock. Statisticians glancing over the figures for numbers of employees between 1979 and 1981 noticed, of course, that the sum was rather larger than it is now. Turning to the unemployment benefit figures at the end of that period, they were perturbed to discover that some 200,000 of those ex-employees did not turn up where they should have done, that is, claiming their benefits.

They couldn't all be moonlighting or jumping off. London Bridge to avoid further attacks of monetarism, surely? Two hundred thousand men and women is a lot to lose, indeed, it looks like carelessness. It was not until the figures for the self-employed finally trickled in, much later, that they turned up - all of them, selling fire alarms, taking photographs, opening off-licences, setting up smallholdings or management consultancies. If, like me, you have written exactly the same

number of articles each week (sometimes, it seems, exactly the same article) since the dawn of time, it is hard to conceive that people should ever

change the course of their work and lives. Yet our house is a living museum to men who

have leapt from one horse to another in midstream. The re-wiring is the work of a former member of the Pretty Things pop group and, as a satisfied customer, I play his old records on his new cables.

The walls are decorated by a former cat burglar, but perhaps the less said about that the better. Hanging on the walls are group photographs that include one of my wife's brother's-in-law, who stopped doing research for Sir Arnold Weinstock and became a science teacher (it must be pretty empty in the premises of GEC now). Another started his career as a Dutch physical training teacher, he is still Dutch but has switched to a senior social work post.

It is some consolation to a professional or executive worker who has been made redundant. that there are those who actually jump before there is any question of their being pushed. The advantage of doing it that way round is that they can arrange for a life-boat to be in postion; but the example does show the redundant that there is

It may not lie in the same field, particularly during a recession. And expansion does not necessarily mean, given the nature of many new industries, that new staff are dragged aboard. As the old joke has it, the micro-computer whizzkid, meeting a friend in the street, enthuses: "Business is really booming - we're moving into smaller premises next week!"

The happiest ones may well be those who do what they have always had a hankering for. Norman Oliver, a regular churchgoer who spent 27 years with ICI, is now director of Church Action with the Unemployed. Conversely, a vicar of my acquaintance has just moved into the acting profession, though he tends to be typecast as a

But for many of those who obey Norman Tebbit's call to get on their bike it is the small business which calls. Its call has been made sweeter by the Manpower Services Commission's new Enterprise Allowance. This allows you to be enterprising by funding you to the tune of £40 a week for a year - assuming you have put £1,000 of your redundancy money into the new business - to top up the takings. You have to do

your sums, of course. "It's terrifying out there in the big, wide world." a former boss of mine confided on his last day with us; he had always seen the office as a sort of free cash-and-carry for his immediate needs. "You have to buy your own furniture!"

Gently, I relieved him of a small coffee-table, the L-R telephone directory and several reams of A4 paper, and escorted him into the street. He has done very well for himself since, we hear. He has got a big chair, anyway.

Jonathan Sale

# Is there life after redundo?

SMALL WONDER Brian Padgett: Lucas Acrospace to

intermediate technology

was Manager, New Products space. My contribution to aviation was at the time supersonics were coming up; I invested the spraycooled alternator which reduced the weight of machinery on board by

I was invited by a voluntary organisation to take over the role of general secretary. The Countrywide Holidays Association had as part of its objectives to provide for people who couldn't afford them identical could. I agreed to stay for five years.

I found it rather difficult to think in terms of working for a commercial organisation again. Yet I realised that holidays were not the burning issue. After looking around, the Intermediate Technology Development Group, which follows Schument and the Small being Beautiful, seemed to offer the best

prospect. It seemed there was a role for technical involvement to help people who wanted to start their business. I am now head of the Group's UK programme. Some of our ideas are service-type operations. We had a chap who started up a knife grinding service for rest-aurants, which broadened out to re-

sharpening road drills.

My old colleagues at Lucas have bentover backwards to be helpful.

#### FIRST AID TO LAST

David Greenwood: hospital equipment to shoes

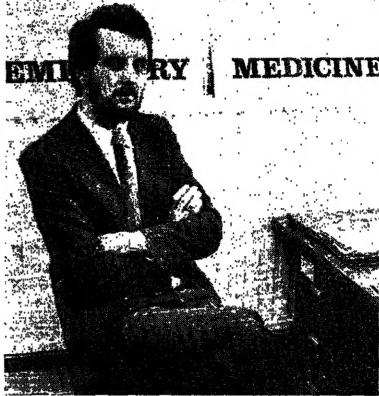

I was a director of Associated British Hospital Equipment Ltd. which planned the equipping of hospitals overseas. The turnover at one time was something like three million pounds a year but the contracts began to dry up. It was a subsidiary of a multinational, which wrapped the company up and me with it.

I've never been on the dole. I applied for jobs for the first three months. Then I used redundancy money to set up a new company with colleagues in the hospital equipment

My wife was retailing shoes from home in a small way. We decided right, we would buy this shop (Da Vinci, in Sheen Lane, Richmond); she would run it, I would administer it. It provides the basic income for the family.

We sell top-quality leather shoes imported directed from Italy. The names are exclusive to us. You're not talking to a shoe retailer - that's my wife's business - but I do enjoy all this just as much as my previous

If somebody came up to me and offered me an interesting career at £35,000. I would consider it; but that's not going to happen. And having been bitten by redundancy once, you've got to protect yourself. I could join a big company, and be redundant six months later.

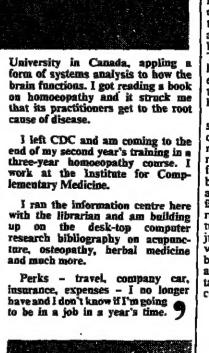

#### SLIPPED FLOPPY DISC

Peter Davies: super computer to homosopathy

I used to work for Control Data Corporation, an American computer company, as a systems analyst on a customer site, at the European Centre for Medium Range Weather Forecasting, I was invloved in "bench-marking" activity; if you are spending a million pounds on a new piece of equipment, you want to make sure it's going to do the job, so you take a typical workload and run

I was still hankering after medicine, which I had got interested in when I did a PhD at McGill

#### HOMES TO COUNTRY

Neil Wates: family construction company to organic farming

I joined Wates Ltd in 1954 and had been Managing Director for decade, when there was 2 disagreement over policy. : I could have decided to stay, but instead I did a self-audit. I looked at my duties and at what my personal gifts were. I had a very small farming experience and was auxious to get closer to earth, closer to nature; I decided to relocate myself to a place where there were under-utilised local When I started with these two

farms near Sevenoaks I has seven employees, as opposed to several thousands at Wates. Now, with the tile works and brick factory, there are nearly 150. The brick factory came about because there was a lot of clay left over when we built the dairy unit, so now we make bricks by

We recycle our cow-dung; there's a methane digester to grow worms. We've set up a study centre for organic farming and we're looking at ways or processing milk.

Kent. We set up an organization called Dunamis, based on St James's Church, Piccadilly, which meets every Wednesday and studies the whole issue of security, national and personal. It holds that the interpolicy that is more than just about projects in Zimbabwe.

was a major shareholder in a private company and it is a shock when your whole office disappears.

To post a letter, you have to find the address, find the stamp. But a lot of people sell their souls for money and then try to buy back what they've lost. Redundancy, 1 would say, is a tremendous opportunity - but you must do your sums.

TWO HOURS LATER:

#### GOING WELL

John Davis: Shell to Christianity

I became Deputy Marketing Coordinator for the Shell group, in charge of Shell's worldwide product development. In my last three years I was given some small companies to run; at the end of that assignment I thought I'd see if I couldn't do comething to stimulate small com-

In my own career I was lacking in understanding as to what my Christian ministry should be and my fellow churchmen weren't anything like as active as they should have been in fostering the development of local enterprises and trusts. My work with the Industrial

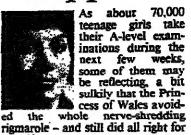

Christian Fellowship consists of making contact with Christians around the country in commerce and industry who want to exercise their ministry at work. They are interested in working with love and seeking to create a climate of cooperation.

was offered a salary but in fact do this for a tiny honorarium of £200 a year. We had a pension scheme in Shell and they allowed me to take it I felt I had a marvellous career there and was very torn about leaving.

#### Penny Perrick

# A-level or glass slipper?

The Princess is, in fact, posing a bit of a problem for those of us determined to see our own and other people's daughters educated up to the hilt. For who can deny that Princess Diana is beautiful, enchanting and excellent at her job? And who can deny also that this admirable young person doesn't have an O-level to her name? Diana provides a lovely, living example that whereas men are unlikely to find any kind of success unless they pass the examinations which lead to a brilliant career, a woman's life is an altogether more chancy business. And for as long as the fairy-tale story of the unknown nursery school assistant who is chosen to be the wife of a prince happens in real life, it will be difficult to persuade girls that their future lies in good

examination results. It may be that girls resist higher education - only 86.000 of them were at university at the last count in 1979, compared with 142,000 young men - because in some perverse, primordial way, they don't want to be in charge of their own destiny. What they may want, however subconsciously, is to be the rose in a man's buttonhole, the hand that rocks the cradle and certainly doesn't rule the world.

#### Always something to get the hair done for

This is a reasonable longing for those as privileged as the Princess, who can be reasonably sure that they will not encounter divorce or their husband's redundancy. The Princess is perhaps uniquely privileged in that she can guarantee that she will never have to confront a blank diary. Even when her children have left home she is unlikely to experience that dreadful, grey feeling that comes over women who are up and have nothing to do until their husband gets back from the office. The Princess's diary may contain a lot of days when the most exciting event is touring a pickle factory, but there will always be something to get her hair done for.

But pretty, unqualified nursery school assistants who marry someone other than the heir to th may one day need a job. As they rummage around in old handbags for the yellowing reference written by the headmistress several years ago, they may then, at last, regret the fact that they have no A-levels or recent work experience. At every turn one comes across women in just these circumstances. They try very hard to make a go of it. They buy old, crumbling country houses and transform them into restaurants; they restore porcelain, cookdirectors' lunches.

#### Striking out from the femininity landmark

I see the makings of plucky little women in some of the flower-fresh schoolgirls I know. The ones who say with a rueful giggle that the business section of the newspaper surpasses their understanding. A blatant lie and they know it, but somewhere along the way these girls have picked up any number of clues which suggest that it's unsafe to strike out too far from the landmark

labelled femininity.
I nudged my 18-year-old niece as we encounter a plucky little woman with her glittering, desperate smile, "If you give up Applied Maths, that will be you in 20 years time," I hiss viciously. She's not convinced. Her best friend, who flunked Physics. has just been taken on by Lucic Clayton. Recently, I listened to Sir Monty Finniston address an audience of women managers on the subject "Are Women their own worst enemy?". He accused us of taking soft options: French conver-sation instead of engineering; woolly ideas instead of long-term goals. His

audience needed no convincing.
A younger audience would have been in two minds about it. Sir Monty would not have persuaded them that they must, initially, do it the hard way, unless he had also been able to say quite categorically that not some day, not indeed ever, would their particular prince come.

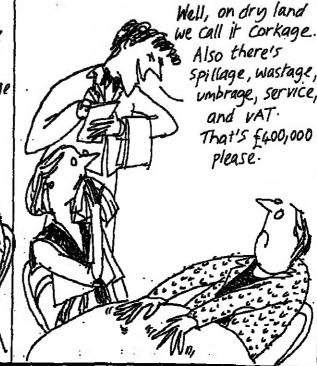

REALIZING THEY HAVE ONLY ONE MINUTE'S DRINKING UP TIME, FLAVIA AND HER PRIEND OLIVER MILLEFEVILLES.

#### THE TIMES DIARY

Greening of Philip I do not expect David Bellamy to be imprisoned this time, but he is waxing quite as bellicose over the

Chiswick Triangle as he was over the Tasmania dam. You need to be a traveller on the District or Broad Street lines to appreciate the value of his latest pitch but for the unfamiliar it is a plot of land owned by British Rail, inhabited by a profusion of beetles, and grown upon by a copse of silver birches. BR wants to build warehouses there and has enlisted the help of Lovell Development to that end. No, say the conservationists and, surprisingly, Hounslow council, at whose town hall a public inquiry opens next month. Anne Mayo, president of the Chiswick Wildlife Group, says it would be vandalism to clear the triangle, thought to be one of the least-disturbed woodland areas in Greater London. The group claims the support of the Duke of Edinburgh, but I think this is spurious, Mayo tells me that at a conservationists' meeting in London last week she managed to stick a green triangle, the campaign badge, to his lapel when he was not looking.

#### Poetry in motion

Following my item last week on the Carlisle to Settle line, British Rail tells me that nine of the yellow and brown Pullman cars will be brought down to London for a very special occasion on June 24. They will be hitched to a brand-new electric locomotive called the Sir John Beijeman at St Pancras and will make the run to Bedford and back with the poet laureate on board. The engine would go further north, were it not for the fact that the line is not electrified beyond that point. Fit-tingly, the event coincides with National Arts Day, much to Betjeman's pleasure.

#### Boarding glass

The Japanese, like the English, have a good line in diffidence; but misunderstanding can arise when the formal expression of that virtue takes an alien form. To the question:
"Wouldn't you like another drink?", the average Japanese responds inerally. "Yes", meaning "Yes, I would not." He gets a drink anyway and is too polite to argue. Japan Air Lines is now taking revenge in its trans-Polar super-executive class by plying passengers with drink the moment they enter the aircraft. Judging by the behaviour of my countrymen on British Airways' Club class (where the flow of booze, albeit after take-off, is unstoppable), it is an offer few are likely to refuse.

#### Washed up

It is far too late, I know, but I thought the Rubber Gloves Party candidate should get a mention. It is a measure of her independent manifesto until after polling day, though I fear that punctuality would have had no effect on the Cornwall South East electorate. There was a mixture of repression and liber-tarianism in her pedges, which included a reduction in the number of people claiming unemployment benefit, and a law prohibiting the ownership by an individual of more than four holiday homes. The candidate, Joy Dent. assured me that Rubber Gloves has an evenhanded approach, speaking for left and right. I'm afraid she did not clean up in her constituency; in fact, with 94 votes, her deposit went down the drain.

#### Wanted posters

Just because the election is over, do not feel you can throw away all the attendant literature. You should, according to the British Library of Political and Economic Science, based at the London School of Fronomics, retain all enhemera for the sake of future researchers. Derek Clarke, the librarian, says there is mounting interest in such documents, and he already oversees material dating back to the 1945 camaign. If you are glad to see the back of your posters, he is happy to see the front of them, and can be reached at 10 Portugal Street, London WC2A 2AE.

#### Luckless gypsies?

When is a gypsy no longer a wanderer? Presumably when he stays put for a while. Not so, says the Dutch government, which conditionally allowed five families to settle in Holland four years ago, but now wants to deport them to Yugoslavia and Hungary, their alleged countries of origin. The resultant political row is highly embarrassing for a country that prides itself on its tolerance of minorities and has made a point in the Council of Europe of urging its neighbours not to harass gypsies. Another 100 gypsics, recently expelled from Poland and now near Amsterdam and Ultrecht, are watching with some bemusement their hosts' attempts to establish the principle that this minority is as welcome as any other ... so long as it is in transit.

Cats having swept the boards on Broadway, it is serendipitous of London serendiphons of zone to zon at Regent's Park to have mounted a major information exhibit on the big ones - you know, lions, tigers, that sort of thing. Summer visitors (who, it is hoped, will flock to take advantage of the zoo's £2.75 admission charge, down from £3.50 last year) will learn, the chronically bankrupt Zoological Society of London tells me jauntily, which cat ate 438 people, how long a lion reigned (and, presumably, where), and which cat has five names. Truly, there's a felinity that shapes our ends, rough-hew them

Peter Stothard on the problems facing Nigel Lawson at the Treasury

# The rise of a natural pugilist

For the first time in his life the new Chancellor of the Exchequer has cause to be grateful to the outgoing Home Secretary. Nigel Lawson was for many years the champion bête noire in William Whitelaw's select stable of unacceptable Tory hopefuls. Since Mr Whitelaw had a considerable veto on Cabinet progress, Mr Lawson's advances were slow and uphill. This weekend Mr Whitelaw had less than his erstwhile strength and needed all of it and more to fight for the general balance of the Cabinet and to keep his newer and fiercer bete, Norman Tebbit, out of the Home Office. Enter Mr Lawson to the Treasury - and with barely a word of protest. Nigel Lawson was Financial Secretary to the Treasury in Mrs

Thatcher's first government before becoming Energy Secretary in 1981. He returns this week to many old friends and old problems. And as nervous colleagues said vesterday, the way that he deals with both the people and the policy will be an important early guide to the whole style of the new government, In 1979 he was abrasive, revol-

utionary and unpopular. For many a long evening he would sit on his office sofa drinking whisky with Peter Middleton, then Under Sec-retary and later Deputy Secretary in charge of monetary policy, while between them they worked on the medium term financial strategy (MTFS) - a new concept that would aim to control inflation by setting a five-year programme of money

supply targets.

Most officials were sceptical. The Financial Secretary's office is outside the second-floor charmed circle of office suites from which the Treasury is run. Yet from this man at the back of the building was emerging the paperwork that seemed most cogently to embody the Government's policy. Its occupant was not even in the Cabinet and yet if he arrived late at a meeting the Chancellor would hold it up for him with the words, "We can't have

Hamlet without the Prince.

This apparent disruption in the pecking order disturbed the Treasury almost as much as did the policy itself. By the time that he left, however, and Mr Whitelaw had finally aquiesced in his promotion to the Cabinet at the Energy depart-ment, Mr Lawson was warmly liked by officials. In an unusual accolade, the then Permanent Secretary, Sir Douglas Wass, said that he

almost become one of us". But so much is history. Will the old friends see their old problems in the same way the second time round? Inflation is now down. But the role of the MTFS in achieving this victory is contentious - and certainly had as much to do with its psychological impact as with the direct mechanics of the money supply. Many Treasury officials are tired of the mental gymnastics and mandarin prose that is required to prove otherwise. They will now argue that a newly elected government with a huge majority and a solid international reputation for making auti-inflation its top priority

battle.

no longer needs to hide the simple methods by which it manipulates the exchange and interest rates. In short they are asking do we need a new MTFS and a new set of targets to give such troublesome hostages to

The answer to this seemingly technical question could be a sign of something much more profound. Mr Lawson has been in the forefront of those ministers who argue that fundamental shift in British life, But that, as they say, is politics. When it comes to running the economy in these supposedly new circum-stances, will he be able to tear himself away from his crstwhile obsession with a fixed set of money supply figures? Peter Middleton, now Permanent Secretary in succession to Sir Douglas Wass, has apparently shown considerable reluctance to leave his old monetary responsibilities behind. Will the man who shared the sofa in 1979 prove to share the same problem?

This question worries the Treasury, which like every big organization, knows the problems of the over-promoted executive who will not give up his old job and is slightly afraid of his new one. "Election predictions about a fall in unemployment, ideological fighting with other ministers - this is not the behaviour of a Chancellor", said one official yesterday, "but maybe he can change"

Nigel Lawson is one of nature's true pugilists, "a natural kicker", as one former colleague put it yesterday, "who has been frustrated at Energy because in that job there was no Cabinet minister he could kick". One reason, it is said, why the MTFS may stay is that the new Chancellor, unlike some officials and colleagues, has no qualms about taking up bitter battles and unnecessarily tortnous intellectual scraps for years on end. He positively enjoys them. His previous Treasury job had

daily fighting with the Bank of England As Financial Secretary he had a series of famous rows with Gordon Richardson, the Bank's Governor. The bank resented Lawson's detailed interest in the gilt market. Nigel Lawson saw Gordon Richardson as opposed to his MTFS strategy - an opposition which will make it even less likely for Mr

Lawson to abandon it now.
It is important for a new Chancellor to establish his independence - not only from the wishes of Threadneedle Street but from Downing Street, too. A nasty problem already confronts Mr Lawson in this regard with the perennial dilemma of interest rates and the supply of mortgage finance. Mrs Thatcher will certainly not want her return to power to be accompanied by an increase in the cost of home ownership. Yet building society deposit rates are well out of line with other rates. With funds drying up, the mortgage famine looks like getting worse. The Treasury's customary introduction note to a new Chancellor rec-ommends rapid action to reduce interest rates and make the societies more competitive.

The Bank is likely to tell the new Chancellor that it will be able to manage this by itself. "Taking advantage of opportunities as they arise", is how the Governor likes to put it, always adding the rider that he has to be free to do it his way. Mr Lawson will be loth, however, to risk his early favour with the Prime Minister on the success of Gordon Richardson's "way". What if the "opportunities" do not arise?

On the other hand, if he is seen to be intervening more directly, he may look too much like a Prime Ministerial poodle. He knows that here are sound reasons for leaving rates where they are and would no doubt like the opportunity to have surveyed his new empire, decided made a major policy speech in which a lowering of rates might be signalled. Not for the last time, he will not have such luxury.

Nigel Lawson's Chancellorship is unlikely to be much enjoyed by the rest of the Cabinet. He is likely to be much more aggressive than Sir Geoffiey Howe in extending Treasury control over the nationalized industries. The Prime Minister has already floated a scheme in which departments like Transport, Energy and the new Trade and Industry Ministry would give up their financial "sponsorship" of statefinancial

owned businesses to the Treasury.

Mr Lawson agrees - probably rather more than Patrick Jenkin, the outgoing industry minister who was his closest rival for the job. The appointment of Cecil Parkinson to the merged Trade and Industry departments will help this change. His main concerns are promotion of trade and private industry. He has not yet the mentality of a major spending minister and is unlikely to cavil at the cutting away of a great another aspect which he may be part of his new empire.

Gerald Kaufman

# Farewell, but may you soon return

The Tories share the spoils. Francis Pym and David Howell always, of course, excepted. Labour licks its wounds. When Parliament meets on Wednesday, among those not present will be 29 Labour MPs who were defeated in last week's general

Some are veterans, men and women who have sat in the Commons for many years and in several cases have held ministerial office. These include the former Cabinet ministers Tony Benn, Albert Booth and David Ennals, as well as Shirley Summerskill, Arthur Davidson, Roland Moyle, Bill Whitlock, Joe Dean, Joan Lestor, Alex Lyon, Neil Carmichael, Frank Hooley and David Stoddart. Many were prepared for defeat, or at any rate its possibility.

Frank Hooley and David Ennals have lost parliamentary seats before, and so were to some extent equipped to cope with this latest reverse. Tony Benn and Shirley Summerskill, members of the party's national executive, retain a national role in politics. Whether or not any on this list get the opportunity to resume still have important contributions to make - they have at any rate had their chance and have grasped it.

Some cannot assuage their set-backs with this consolation. The most poignant defeats are of two men who sat in the House for a men who sat in the riouse for a cruelly short time after winning by-elections. John Spellar had gained Birmingham, Northfield only eight months ago. Ossie O'Brien's triumph at Darlington permitted him to fulfil a generation-long ambition to be MP for his native town – but for just 11 weeks Very different for just 11 weeks. Very different men, the one sharp and confident, the other pensive though thoroughly capable, neither of them had the time to get used to the Commons and take its measure.

The displaced include a group of individualists, MPs whose objective was not to hold office, but to expound a cause or harry the Conservatives. Stan Newens of Harlow, one of the gentlest and sweetest-natured men one could meet, an adversary of totalitarianism and a campaigner for peace, saw it as his duty to uphold his vehement anti-fascism by supporting the stand against Galtieri in the Falklands.

Bob Cryer worked as hard as any member of the House on a variety of issues, some of them unpopular even with colleagues on his own side, and went out in a blaze of glory; at a time when at any rate one of his comrades was scuttling round every corner of Britain armed with a carpetbag, he deliberately chose to stay and defend his own constituency of Keighley when redistribution had made it almost unwinnable.

Christopher Price was the House's barrack-room lawyer, always equipped to raise an abstruse point of order and often to prevail with it Gwilym Roberts, beaten at Cannock, was a necessary eccentric, championing left-banded victims of anti-sinistralism (who included Albert Booth, Bob Cryer and Christopher Price).

In these early days of a difficult and numerically overpowered oppo-sition, we shall especially feel the absence of some who never held office, but, during the last four years, had developed skills and abilities which, if the election had gone differently, would over the wee have installed their possessors behind ministerial desks

Ken Woolmer, unexpectedly defeated at Batley and Spen by only 870 votes, had developed an impressive expertise in trade policy. Frank White, whose massive personal popularity in Bury could not prevail against the swing was knowledgable on a range of indus-trial issues, especially those relating

Ann Taylor and Ted Graham, front-bench speakers covering the Department of the Environment with me, were ready to work 24hour days - unless required to put in longer stints. Ann Taylor led the trench-warfare opposition which forced the Government to ditch its Housing and Building Control Bill.
Ted Graham secured the affection of everyone, despite the excruciating puns which, at the rate of one every 30 seconds, he was still relentlessly coining right through to election

Philip Whitehead, who knew about television from behind the camera rather than seated in an armchair, was getting ready to be the best Arts Minister we had ever had. It was arguable whether Jim Marshall (out by a nail-biting seven votes), John Tilley or John Sever had the greatest commitment to fostering good race relations or the more profound experience of immigration legislation. It was certain that John Garrett, with his determination that trained professionals should be in charge of industrial policy, knew more about managerial iques for control of public expenditure than anyone else of his

The parliamentary Labour Party still has a formidable range of talents. Quite certainly, new members who have just joined it will soon show their strengths. However, during these opening months of adjustment, it will be hard to do without the contribution of the colleagues we have lost. May they come back to us soon.

# New order . . . old standards

George Thomas gives some friendly advice to the new Speaker

deprecation by the Speaker or by some humorous remark - always at the expense of the Speaker. Sarcastic the expense of the Speaker. Sarcastic humour at the expense of an individual Member is as lethal as cyanide for the Speaker. In any case, the Speaker's task is always to reduce the temperature rather than to send it upwards.

The Speaker's Chair is a lonely

place, for he is on his own once the

business of the House has begun. He has to respond immediately to points of order shot at him from all quarters of the House, and to do so in the knowledge that members are weighing carefully each word he unters. Every Parliament has its share of barrack-room lawyers who feel cheated if a week goes by and they have not raised a point of order, albeit a false one. My strength in dealing with them was that they never knew how much of Erskine May (the Commons Book of Precedents on which Parliamentary Procedure is based) I did not know! One of the main responsibilities of the Speaker is to protect and to maintain parliamentary standards of conduct within the Chamber. If Members use unparliamentary language in criticizing others, it is usually not difficult to get them to withdraw the offending words. In the heat of argument people sometimes get carried away and will

Chair is invaluable, 99 times out of 100 the Member concerned is already aware that he has trans-gressed, and is therefore prepared for the Speaker's admonition and for the request to withdraw his remark. The Member knows that the last word is always with the Speaker and if there is a complete and utter refusal to respond to the Speaker, then the Member faces the humiliation of being obliged to leave the

Chamber.

If, before entering the Chamber, a member has resolved upon creating a scene to get himself suspended, the Speaker and the Commons can usually sense what is happening Sometimes a Member calculates that the publicity of suspension from the House will help some cause which he supports. When such things happen, the Speaker's duty to protect parliamentary standards leaves him no choice but to "name" the Member concerned. It is a distressing business for the Speaker to have to recourse to his disciplinary powers, but it would be even more unpleasant if he feared the consequences and did nothing. Parliamentary bullies are usually held in contempt as much by their own party as by the rest of the

Since no one can control the House of Commons solely by relying on Standing Orders or on Erskine May, the Speaker's authority must be buttressed in all sorts of ways The fact that his style of dress is unchanged from that of Speaker Arthur Ouslow, is a constant physical reminder that although he is of the Members, he is also set apart from them. To some extent the Speaker's magnificent State Rooms serve as a reminder to Members, that he is a person set apart.

The truth is that when Members

show marks of respect to the Speaker, such as bowing to him on entering or leaving the Chamber, they are really paying respect to the House itself, for the Speaker, is the only person vested with authority to speak on behalf of the whole house. Our parliamentary system re-quires much of the Speaker, in return he has the right to receive respectful support from us all, but especially from those who have been honoured by election as MPs. Throughout my Speakership I was conscious of the prayers of countless people upholding me in my work, and so for the remainder of my days I shall pray "God bless Mr Speaker."

The author, who was elected Speaker in 1976, will retire on Wednesday. @ George Thomas, 1983

close their eyes and play it over in

# From coaching to couching at White Hart Lane

before the advent of the football left side of the helmet from the right. Instead of making for the nearest nightclub bar Roy can now sit down and analyse the goals he did or did not achieve, using, according to the psychologists, the left hand side of his brain. He is taught that the murderous hatred he feels for Wanderers left back is just a negative emotion, but by using the right side of his brain he can visualize and rehearse ways to

annihilate him in the future. It's the sort of thing they take for granted in California, with gargan-tuan American Football players going cross-eyed as they puzzle over PHS motivations and distinguishing the

In this country sports psychologists John Syer and Christopher Connolly have been working at the sharp end of British football with Spurs for the past three seasons. They have now left to put down their theories and experiences in a book for Cambridge

"Some people go home and kick the dog or smash their tennis recquet after a bad game," said John Syer. "One Spurs player found he was getting changed and habitually going straight to the supporters' club, where his friends would not let him get away. Yet he told us what he really wanted was to go home for peace and quiet. We got him to do

this and to do the right mental review of the match.

"Our approach is less a question of therapy than training. The players know how to prepare for a game physically, but not mentally." The psychologist is not so much interested in the striker's Oedipus complex as, for example, correcting his loss of bottle when faced with a fatherly looking goalkeeper.

"Some players tend to lose their aggression, so we relax them and take them back to the time when they had that aggression. The players have incredible recall and can remember the particular match and even the run. We get them to

their minds, discussing in detail what is happening to them."

How did it benefit the players? "] got a lot out of it and now apply the techniques myself," said 22-year-old defender Gary O'Reilly, who had a university place lined up before he signed for Spurs.

O'Reilly said: "These new tech-niques help key people up. For example, John would take Graham Roberts back to the three he got against his home town. Southampagainst his nome town, Solithampton, and you could see him start smiling." Spurs captain Steve Perryman added: "The game to me was a muddle until I was 25. I think sports psychologists can help sort out that confusion earlier. I got a lot out of it."

"Psychology?" thundered my Uncle Ernest when I suggested that Syer's techniques might be applied to his own Rotherham United during the close season. chology? the only thing that would motivate that lot is the threat of taxidermy.

Paul Pickering

#### **Julie Davidson** Oxford, it was love at first tutorial

Well then, I said, admit me to the secret garden of magic possibilities, find me the low door in the wall. I know the legends, I know the literature. Show me the reality. Or words to that effect. We were driving

My husband was as anxious as an artist at his first exhibition. He was unveiling Oxford, revisiting the fountainhead of his other seminal self, a side of him that has been shaped by something soft, far, ancient, wise, immutable and alien. He had so loved Oxford that, perversely, he seemed to want me to loathe it. "There are people in Scotland", he said darkly, "who called me a quisling for coming

down Headington Hill at the time.

Not me. I'm all for dipping deep into the better English institutions and arriving home with some critical plunder with which to augment our own spare, spiky, quarrelsome intelligence. And I have never been to Oxford, either as undergraduate or tourist or car worker. Jakarta yes, Oxford no. It was high time. "But it's an acquired taste", said the quisling, anguished.
"You'll probably hate it at first

Not at first or trillionth sight. It was becoming clear that hating Oxford was not to be an option unless I chose to turn into a sadist. Nights of deep thought went into planning the visit, tutorials were conducted with maps, guides and most of the Oxford bibliography.

We were, of course to stay in his old college and get ourselves invited to High Table. Long telephone calls were exchanged with the viceprovost of Worcester, one-time tutor to the history students he had described as "typically Scottish -dour and intelligent". I thought this Delphic, and looked up Worcester's academic reputation, playing them at their own game, and turned to James Morris's Oxford for a taste of its personality. "Worcester, thought small and

poor, has a certain dash to its name, as of an irrepressible younger son." It sounded very Scottish; although these days Worcester is bigger and richer, largely because three of its old members, now Honorary Fellows, have distinguished themselves - more by natural talent than academic instruction - in the world of commerce. Worcester now has a Murdoch Room named after Rupert, in its new upper library and some spectacular new student accommodation named after the brothers Sainsbury.

We were to stay in the Sainsbury Building. Worcester, which admitted women in 1975, has got no such thing as a double room for visitors. We had been thoughtfully offered the next best thing - two adjoining rooms with their own bathroom. A

tiny suite no less. And so from Headington Hill. Some kindly ex-Chancellor, gone to that highest of all tables in the sky, invited the weather to take a break from persecution and Oxford began steaming gently in the sun, vapours rising like Friar's balsam from Christ Church Meadows. We bowled across Polly Bridge, up St. Aldgate's and into the High Street with my husband tersely dealing colleges like playing cards: "Pembroke, Brase-nose, Oriel Univ., All Souls".

It went on like this, Oxford hamming it up. It was Eights Week and the streets were full of boaters; bicycles rampaged along the towpath of the Thames and we witnessed a bump" and cavesdropped on undergraduates.

Each room in the Sainsbury Building cost £40,000, - some hag of groceries, - and was over-crowded with pale, solid, hand-made pine furniture like a den for sauna-loving trolls. But its handsome facade overhung Worcester's enviable lake and at night we made our way to our quarters through the Provost's Orchard, where the trees trapped the smell of blossom and cut grass and uprisings of moss, marxist moss perhaps, attempted to storm the glowing windows of Lord Briggs's

lodgings.
Dinner at High Table was an unexpectedly cosy affair. It wasn't an official guest night and most of the dons had decamped for the bank holiday weekend. The college silver was spread for just the three of us. the vice-provost, his old pupil and wife, and we chatted, rather than conversed, about changing times and Worcester's forthcoming sevenhundredth anniversary.

Later, we tiptoed into the old library, where final-year heads were bent over crimson-shaded lamps and lattice windows overlooked Worcester's sunken lawn. In such a room I said, you could fall in love with learning. In such a room I said. you can make sense of Oxford - the harmony, the antiquity, the conti-

My husband, who is not a humble man, seemed grovellingly grateful for my appreciation. "I must say you're being very nice about everything," he kept saying, as though he had confessed and I had forgiven adultery. Was I being much too tolerant of this reclusive. exclusive community where crisis means the threatened closure of the Oxford Playhouse and quiescent undergraduates now vote Conserva-tive and even the down-and-outs are complacent, battening on the liberal conscience of the town's gowns?

So, to redress the balance, I said that Oxford obviously manufactured its own opiates and doctored the drinking water, and it was high time we had our last breakfast at George's case among the market workers and the bearded Ruskin men and climbed on board the world again.

But I have to admit it was nicer

#### THE CASE FOR CHEAPER MONEY

promises about the economy in the election campaign. In particular, they did not say what they regarded as a maximum acceptable level of unemployment or when they expected the unemployment total to start falling. This gives them a great advantage in their second term, Because people believe that the Government's first priority is to establish and maintain a sound currency, inflation expectations will continue to moderate. Mr Nigel Lawson should therefore find anti-inflation policy easier to implement than Sir Geoffrey Howe did at the start.

But the favourable climate of public opinion does not excuse the Government from stating its long-term policy goals precisely. The Conservative manifesto said that the ultimate objective should be to restore price stability; the latest version of the medium-term financial strategy, announced in the Budget, contained a forward projection of output and money national income which implied that the inflation rate in 1985/86 would be 5 per cent. Unless the word "ultimate" is being used in virtually meaningless sense, the manifesto and the Budget projec-tion are inconsistent. The Government should say how soon it wants to achieve stable

prices, if that is its real intention. It may seem unnecessarily vigorous to urge that a commitment be made now on the timing of a return to stable prices. But the function of an explicit statement of this kind is to constrain decisions later in the Government's life when electoral considerations might cause opportunistic vote-catching in macroeconomic policy. The great success of the mediumgreat success of the medium-term financial strategy has been slow down and possibly halt the

The Conservatives made few sector borrowing and money supply growth several years in advance, it has prevented the fiscal reflation that used to be traditional in the last eighteen months of every government. Mrs Thatcher should build on this precedent in her second term.

> Unfortunately, the mediumterm financial strategy is due for review only in the next Budget. The next Budget is at least nine months away. It would be best if a coherent programme for the further reduction of inflation, spelt out in terms of the public sector borrowing requirement and money supply, were pre-sented almost immediately. Difficult decisions will be easier to take in the near future than in 1987 or 1988.

An opportunity for an emphatic statement of policy goals may emerge soon. The figures for central government borrowing in April and May were disappointing and suggested that public spending is running a little ahead of target in the current financial year. Some revision of expenditure plans may be justified by this development. If and when an announcement about further restraint over public spending is made, it could be accompanied by a general assessment of macroeconomic policy in the next five years.

But it would be wrong to combine steps to limit public expenditure with an increase in interest rates. Although the rate of money supply growth has been rather high in the past three months, the cause has unquestionably been the flurry of above-target government spend-ing and not heavy bank lending to the private sector. A move that, by setting targets for public recovery in demand which has

been under way since the autumn of last year.

The recovery has been quite strong: Such indicators as new car registrations and housing starts, which have in the past proved reliable in anticipating changes in activity in the economy as a whole, are running at levels 20 per cent above those a year ago. Nevertheless, it would be difficult to argue that the upturn so far incurs the risk of renewing inflationary pressures Perhaps because productivity growth has been remarkably rapid, unemployment is still increasing and wage

settlements continue to fall:

It will take several years of economic growth at more than the long-run trend rate before unemployment has dropped enough and the labour market has tightened sufficiently to allow the unions the luxury of extravagant wage demands. To check the revival in private sector demand by raising interest rates would be very premature. If anything, the case for a cut in interest rates is easier to make. Extra spending by consumers has been made possible in large part by the buoyancy of building society mortgage lending, but the building societies are now losing liquidity quickly. Lower interest rates would help them to attract higher inflows.

A modest reduction in interest rates would sustain the recovery and not jeopardize further progress on inflation. If it occurred in conjunction with new measures on public expenditure, confidence in the Government's anti-inflationary resolve would

be reinforced. In any event, the Government should seriously consider including a pledge to restore price stability in its next major statement of economic policy

#### CARVING THE JOINT

The Prime Minister in the full flood of an argument is an awcsome spectacle. But she is neither unstoppable, not unmanageable. She has a strong will, for sure. But her command of the facts, her skill in argument and inexhaustible energy have often created a talse unpression of brutal, almost dictatorial government about her. It is a fallacy to portray her as a leader whocither likes or requires obedience in her Ministers. The dismissal of Mr Pym, for instance, has been portrayed as the fate which awaits any Minister, however grand a Tory he might seem to be, if he steps out of line. There are more complex factors than

utorial

Mr Pym is a considerable parliamentarian but he has not commanded great admiration as a departmental Minister. The absence of any personal rapport between himself and Mrs Thatcher must have made both their lives extremely difficult when he occupied either of the two great offices of State, Defence or the Foreign Office. He came to the Foreign Office at a moment of crisis, partly because there was nobody else suitable at the time. It would clearly have been very damaging for the government now, for the outside world to deal with a Foreign Secretary known to be so out of sympathy with, and therefore remote from,

the Prime Minister. There are three traits which ation of Mr Parkinson, Mr

Mrs Thatcher finds most distressing in Ministers. One is any tendency to be nobbled (as she calls it) by officials, so that the Minister just becomes a spokesman for his department. Another is indecisiveness. A third is an inability to answer back when she shouts at them; and shout at them she certainly does.

Mrs Thatcher likes an areument. She thinks she can usually win them. But she has lost as many as she has won in Cabinet. In her mind it is the doubters and the sulkers who become marked down for the chop. Mr Prior, Mr Walker and Mr Heseltine speak their minds in a way which Mr Pym and Sir Ian Gilmour never could: thus they are still there.

It is an abrasive style of leadership which often belies the caution with which policies are actually carried out. However, a requirement for such robust qualities of counterpoint in her colleagues must limit the catchment area from which Mrs Thatcher can draw Cabinet Ministers. That apart, the composition of her post-election Cabinet should provide the Conservative Party with a wide range of choice for its next generation of leaders.

By the next election Mrs Thatcher, Sir Geoffrey Howe, Mr Prior, Mr Patrick Jenkin and Sir Keith Joseph will all be in their sixties. The younger generTebbit, Mr Lawson, Mr Heseltine and Mr Walker will all have held high office as well. There will be many princes at the court, but not an obvious crown prince among them to be seen at this

From the policy point of view Mr Lawson's appointment as Chancellor is certainly the most stimulating. Mr Jenkin might have been less of a risk, but Mr Lawson has more command of the argument. He is nobody's man; but equally there are no Lawson men either. He will need unusual help in his relations with colleagues, and in his communications with the party at large.

That wider role of oiling the machinery both of government and of party management has hitherto been performed triumphantly by Mr Whitelaw. Will his viscountcy now reduce his power to see that Mrs Thatcher's government works smoothly? With a Prime Minister like her, and a Chancellor like Mr Lawson, there will be all the more need for a senior Minister of Fixit, In the dark early days of the last Parliament Sir Geoffrey Howe's essential niceness contained the effects of many a disagreement with backbenchers. Mr Whitelaw's skills will be needed, even from the Lords, but the Cabinet as a whole will have to be doubly aware of the need to keep open its lines of communication with the over-populated backbenches behind it.

#### STILL A MINORITY WITHIN A MINORITY

The survival of Mr James Prior at the Northern Ireland Office signals, among other things, that the Ulster question is not high on Mrs Thatcher's list of mountains to be moved. The province, which has only just been made the subject of one constitutional "initiative" in a lengthening line of total or partial failures is not about to receive another. Nor is there to be a break with the policy of direct rule, which pleases no Ulster politicians, but part of the population at large.

Mr Prior's hand was plainly visible in the section of the Conservative manifesto that addressed itself to Northern Ireland, It was there stated that the Assembly would remain on pation in local democracy, and ters. It also means that his political progress; that there would be no devolution of powers "without widespread. support throughout the community"; and that a close practical working relationship between the governments of the United Kingdom and the Republic of Ireland can contribute to peace and stability in Northern Ireland without threatening the position of the Unionist majority.

This continunity serves best for the time being the interests of the province as a whole. But the

payment for their success in the election. They distrust all talk of a working relationship between London and Dublin in the beat off Sinn Fein's raid on their specific context of Northern Ireland, and they will be pressing for amendment of the Assembly Act so as to remove the de facto veto by abstention which the SDLP hold over devolution of power. And they now speak from the occupation of 15 of 17 seats inconclusive but even-handed in the Commons. Even in those seats, Mid-Ulster and South Down, where the rival Unionist is tolcrable to by far the greater parties failed to conclude an election pact, the Unionist voters repaired the omission and secured the major objective of excluding republicans. Mr Enoch Powell's victory against the odds in South Down is a mark both of his political stature and his assiduity in constituency matcampaign - a discourse on sovereignty with the implication that one should be voting Labour – was not only of nil effect over here, but did not undo him at home either. It is good that the master-parliamentarian is back.

damaging on the republican side. There were no pacts, no tactical voting Gloves were off in the contest between the party of constitutional nationalism, and Unionist Party will think it poor the party of republican violence. barrel of a gun.

The SDLP made it plain from the outset that their primary objective in the election was to constituency. They counter-at-tacked with more fire than before. But the outcome is

inconclusive. Only the party's leader Mr John Hume was elected. Since Sinn Fein's single MP will not take his seat. Mr Hume will take over from the brave Mr Fitt as the sole representative of Catholic Ulster in an assembly of 650 members. Sinn Fein is not yet causing a fall in the number of SDLP votes, but its proportion within the total Nationalist vote is creeping up. If the votes cast in the 14 constituencies where candidates of both parties were standing, are compared with the votes cast in the seven (larger) constituencies where both put up candidates in last year's Assembly elections, the SDLP/Sinn Fein ratio has changed from -60:40 to 57:43.

This movement occurred during a campaign punctuated by regular instances of the killing which the SDLP denounces, and Sinn Fein endorses or promotes for its political purposes. It is an Vote-splitting was much more ominous trend, but it is well to remember that it occurs within elections at which less than onethird of the voters register a preference for Irish nationalism in any form, pacific or out of the

#### LETTERS TO THE EDITOR

#### Getting your way by direct action

from it.

From the Rev Dr Kenneth Slack Sir, Few will have been impressed by the immediate calls by Mr Arthur Scargill and Mr Ken Livingstone for extra-parliamentary action to frus-trate the result of the election which is not to their taste. Such calls show scant respect for the democratic process. They might with profit ask themselves what their own reaction would be were they to hear, say, retired military men of strong rightwing convictions issue similar calls if a left-wing government had been elected with a commanding majority.

But just because this kind of thing will not do it is highly important that the democratic process should command very well-based support. That support is undoubtedly weak-ened when some 8,500,000 votes of our citizens secure 209 representatives in the House of Commons, but over 7,750,000 votes of others secure only 23.

This kind of scandal obviously calls for parliamentary action, but,

is done and democracy more thoroughly respected? Or what do those who are now in power suggest?
It is primarily because I find calls like those of Mr Scargill and Mr

almost by definition, it is not going

to have it from those who benefit

Does this mean that honour to the

democratic process calls for extra-parliamentary action? My mind turns to the period when our

democratic process was dishonoured

by the disenfranchisement of half

the population - women. Will

frustrated Liberals have to chain

themselves to the railings of No 10, or despairing members of the SDP

cast themselves before the Queen's

horses on racecourses, before justice

Livingstone thoroughly unaccept-able that I raise this very serious issue. Yours faithfully, KENNETH SLACK, The Manse, Allen Street Kensington, W8, June 12

#### Challenge of crime

From Mr Hugh J. Klare

Sir, The new Home Secretary will have difficult problems to face in the prison system. Overcrowding, lack of work and the decay of old buildings have often been described. The trouble is that what is happening in the United States today could just happen here tomorrow. The number of inmates of state federal prisons there is about 400,000 - at the moment still a much higher proportion of the total population than the figure for this country. In response, the authorities there, as here, are putting big money into new buildings. But, despite the \$2,500m spent on construction last year alone, the overcrowding gets

The number of prisoners is going up twice as fast as that of new buildings. At the end of last year 34 states had to be ordered by the courts to reduce overcrowding, some by mandatory releases. This rapid increase in prisoners appears largely due to stiffer penalties and the abolition of parole in some states.

We, in common with most other countries, have a worrying crime problem. The reasons are complex. Research suggests that lax parenting, low expectations by adults of children at home and school, and poor examples by teachers are associated with high juvenile delinquency rates.

Some crime-prevention policies work. Suffer penalties, even if there were clear evidence that they reduced crime, would involve high public expenditure. We have many alternatives to custody in the

community. Some are worth while in themselves. But they are some-times used as alternatives for one another rather than for expensive

custody. Other research shows that simply lowering the general level of custodial sentences is cheaper and more effective. This does not mean that serious offences should be dealt with lightly,

Whether such considerations would appeal to Mr Leon Brittan or not, he would disregard at his peril the low morale in the prison service. Despite much loyalty and staunchness, this shows itself in defensiveness, cynicism, attempts at manipulation and - especially in the case of some governors - in disenchantment and even despair.

The service is hard-pressed and things may get worse. It needs hope and a positive sense of purpose. This requires bold and imaginative leadership. In over three decades of experience of them, I have not found senior Home Office officials lacking in high ability, intelligence and integrity. Indeed, our Civil Service, though sometimes slow to adapt to change, is a precious national asset. But boldness and imagination are difficult to exercise in a large department, with many

disparate functions. Here is a challenge worthy of a strong Home Secretary, perhaps best tackled with a trusted outside adviser. Yours faithfully.

HUGH J. KLARE, 28 Pittville Court Albert Road, Cheltenham Gloucestershire.

#### **Election reflections**

From the Editor of The Observer Sir, Christopher Ward is wrong

(feature, June 9) to include The Observer among newspapers supporting the Labour Party, though we did back Mr Callaghan "on balance" in 1979. In line with our more usual policy at general elections, we endorsed no political party this time.

We said Labour's programme would be "ultimately ruinous in practice and depressing in effect". As for voting Labour, we said: "To an internationalist, libertarian paper like The Observer that seems, under the party's present leadership, too much like Russian roulette". Yours faithfully,

DONALD TRELFORD, Editor, The Observer, 8 St Andrews Hill, EC4.

From Mr Peter Watt

Sir, Mr Norman Fowler is not the only person who needs arithmetic lessons (report, June 8). The poster showed two bags of money. They were both nearly spherical in shape and one was twice the diameter of the other. The question was: "What is the ratio of the volumes?"

Mr Fowler gets no marks for saying "two". The representative of The Times, who gave "four" as the answer, gets two out of 10 for trying to get nearer to the correct answer, which is "eight". Yours faithfully,

PETER WATT. 6 Dewars Close, Welwyn. Hertfordshire.

From Dr Conrad Dixon Sir, The first task of our new

Government must surely be some serious consideration of that much-needed piece of legislation, the Noncoincidence of Old Films (Television) Bill, 1983. On election day, when the nation spent many hours glued to its sets,

#### Caring for fashion

Sir, I am surprised to read in the fasion page report (May 31) Sir Roy Strong quoted as saying "the thing that unites the textile department is a deep loathing of what is being done at the Metropolitan Museum in New York", followed by a personal criticism of Mrs Vreeland,

These are shameful words coming from the director of one of our most venerable British museums.

which is unwarranted.

I have had the good fortune during the past several years to work as a volunteer for the Costume Institute of the Metropolitan Museum in New York. The everyday work of this department has been everseen for the past 30 years by Stella Blum, as curator since 1972, assisted from 1970, until her death in February, 1982, by Elizabeth Lawrence as head of restoration. This position is now held by Judith Jerde who is continuing their fine

the licence-holders were offered the supreme insult of two first-rate films - North by Northwest and Murder on the Orient Express - starting on different channels a mere five minutes apart.

The Non-coincidence of Old Films (Television) Bill need have only one clause. That clause should declare that at any time when films made more than one year earlier are shown at overlapping times the Director-General of the BBC and the head of the IBA shall both go to prison for six months and be fined

This simple piece of legislation will ensure that those who pay the piper get all the best tunes. Yours faithfully, CONRAD DIXON, Highfield House, Tidworth Road, Ludgershall, Andover.

From Mr Mark Q. Brunet. Sir, Mr Martin Hasseck merited well the distinction of heading your letters column (June 8) for highlighting so trenchantly the nub of relations with the USSR - they are not as we.

The ability of comedians like K. Everett, Esq, to keep a little fun in the serious business of a general election is peculiarly British. The day when Soviet thought would accept this approach to life is probably far off, it is timely to be reminded of the difference. Yours faithfully MARK Q. BRUNET 47 Wickham Road, SE4. June 8

From Mr J. R. Wynter Bee Sir, There is hope for us yet. The day after the general election The Times returns its editorial and letters page to the middle - neither left nor right of centre. Yours faithfully. JOHN R. WYNTER BEE,

10 & 11 Gray's Inn Square, WC1.

#### Mrs Vreeland has been for some time special consultant to the department and is most valuable for From Mrs Elizabeth Daubenv

her wide range of contacts within the fashion world as previous editor of

Vogue magazine.

From reading the description in Suzy Menkes's article of the work carried out by the restoration team at the V and A, I can personally assure Sir Roy that the work is essentially the same in every respect in New York: the same meticulous scholarship and research; the same care and attention to detail in restoration when, where and only if it is needed - inches are never "cut off" eighteenth-century petticoats or any other garments - and the same unstinting dedication to preserving and caring for their collection and

exhibiting it in an authentic and wholly valid display. Yours faithfully, ELIZABETH DAUBENY. Newburn House, Upper Largo,

May 31.

rightly stresses the importance of

Sir, The Bishop of Winchester (June obliged to try to achieve above all else" (my italics) — and he praises the churches for having kept clear of tactics and policies and having stuck to spiritual and moral principles. However, it is evident that to have However, it is evident that, to have any relevance at all, these principles

From Mr Christopher Norton

have to be applicable in action. The Bishop cites three principles, which in practical terms, if I understand him correctly, mean the following:
1. No nuclear weapons of any kind

should ever be used in a "firststrike" capacity.

2. Wholesale, indiscriminate attacks should never be launched under any

circumstances, even in retaliation, against non-combatants (for instance, presumably, a city).

3. The use of theatre nuclear weapons, even when directed against military targets, is also morally unacceptable, on account of

the double danger to the civilian population of fall-out and escalation to all-out nuclear war. In other words, the use of strategic nuclear weapons against military targets in response to a nuclear attack would be justifiable; the use

of nuclear weapons in any other circumstances cannot be justified. There must be grave doubts whether such a policy, however laudable its intention, is really applicable in practice. It would serve purpose and it is hard to imagine any government which possessed nuclear weapons agreeing to such limitations or, still less, abiding by them if it came to a crisis

them if it came to a crisis. It is no surprise that Mr Heseltine repudiated a "no first strike" policy immediately after the General Synod had endorsed it. We must be clear about this: the possession of nuclear weapons entails the possi-

bility of their unrestricted use. The Bishop states that he is repeating classical Christian teaching and that, in theory at least, it was universally sustained until the 1930s. The crucial question is this: have technological developments since the 1930s so altered the position that the traditional arguments are no longer applicable? For instance, is the traditional distinction between combatants and noncombatants still valid?

Any fitture European or world war will be a total war of nations against nations. The powers of the modern state are such that everyone, even if not actually drafted into the armed forces, will be pressed into the war effort. Will not everyone be hence a legitimate target?

in some sense a combatant and Likewise, the distinction between defensive and offensive wars has

# Doubts on nuclear principles

now little meaning. Defence is now no longer a question of repelling unwanted invaders; it involves our threatening at every instant the total destruction of a whole people in its own homeland.

The traditional arguments break down in these circumstances. We must therefore return to our origins and reexamine painfully but honestly the implications of the Gospel of Jesus, who commanded us to love our enemies and to render to no

man evil for evil. This is the overriding ethical obligation in the light of which we must make the stark choice which the General Synod avoided: do we accept the possession of nuclear weapons and their possible use in any circumstances, or do we reject them altogether?

Yours faithfully. CHRISTOPHER NORTON, Corpus Christi College, Cambridge. June 9.

From the General Secretary of the Campaign for Nuclear Disarmament Sir, I wonder if the Bishop of Winchester (June 9) has put the onus of proof in the right place. Might it not also be argued that those who defend a deterrence policy which requires, for credibility, a daily evil intention (to be willing to kill millions of innocent people) must first show that such a policy is, and will be enduringly

mable? Those who argue for modest reductions in massive overkill arsenals are not the only ones with questions to answer.

Yours faithfully. BRUCE KENT, General Secretary, Campaign for Nuclear Disarmament, 11 Goodwin Street, N4. June 9.

#### Cost of liberation

From Mrs Nancy Weisskopf Sir. With due respect to Michael Howard, whose letter of June 7 states: "The occupied nations of Europe during the Second World War were not liberated by their resistance movements," he seems to

have forgotten the Yugoslavs.

I believe that both Sir Fitzroy Maclean and Sir William Deakin and others who were dropped into Yugoslavia and assisted the Yugoslavs in their resistance would admit that the efforts they were able to make in destroying the occupying German divisions were meagre indeed, in comparison with the gigantic efforts made by the Yugoslavs themselves, which were in the end successful.

(e.g., your incorrect assertion that

farmers are "restricting public access") you imply that it exists as a

has a right of access to farmland, but

country no longer needs a domestic

agriculture, farmers have a business

to run in the countryside. As you, Sir, know well, businesses have to

I would not deny that the public

recreation ground for the public.

Yours faithfully, NANCY WEISSKOPF. 79 Bear Road, Brighton,

#### Rampant rape

From Mr Michael Bunbury Sir. Your leading article of May 30

on the expansion of the acreage of oilseed rape contains errors of fact. It also exposes once again the apparently inexorable trend towards vilification of one of this country's more successful industries which has been apparent in your columns in recent years.

Although I suspect it is an innocent error, the yellow colour of rape is not, as you state, "chemical". It is a vegetable pigment produced by the flower of a plant. What is not innocent, though, is your contention that we put bees at risk with pesticides. This problem was recognised some years ago and for the last few years every responsible rape grower that I know has followed the rules and waited to stray until all the petals have fallen off, when the crop

is no longer attractive to bees. You contend that farmers "changing the face of England for the worse". That is a matter of opinion, but there are very many farmers who care passionately for the countryside and who try hard to manage the inevitable change in a manner which strikes a balance between ecology and economy.

Your article, and this letter, are both written because of the unsolved question, "What does the country-side exsist for?". By writing emotional articles about the changes

much of British industry, agriculture had been prepared to adapt, invest and to modernise so as to produce. and to export, more, in any other industry you would hold this to be landable, but apparently not so in agriculture.

MICHAEL BUNBURY. Naunton Hall Farms, Rendlesham, Woodbridge, Suffolk,

#### Doctors' pay

From the Chairman of Islington District General Hospital Medical Committee

Sir, the ambiguous and somewhat misleading attribution to the Whittington Hospital of all 17 signatories to Tuesday's letter (June 7) on the subject of the pay award to doctors has caused considerable consternation and dismay amongst many consultants working within Islington Heath District.

Whilst some of us would not necessarily demur from the views expressed by Dr Beck and his colleagues, others question the political motives of the authors in writing in these terms at this particularly sensitive time.

I would like to make it clear that only the first four signatories work at the Whittington Hospital and wish to emphasize that the views expressed are the personal views of the signatories and, as such, do not necessarily represent the views of all or even a majority of other consultants working here. Yours faithfully,

#### St Mary's Wing, Highgate Hill, N19, June 9. Where the heart is

ROY DAVIES,..

Whittington Hospital,

From Major-General F. W. J.

Cowtan Sir, Like Mr Cooke-Yarborough (June 7) we too live in an ex-Berkshire village in Oxfordshire, though our postal address is in Wiltshire. We pay our rates in Abingdon, Oxfordshire, which used

change if they are to survive. You computerise your typesetting to improve your efficiency and reduce the number of blemishes on a page of The Times. I spray my rape to control the poppies for exactly the

same reasons, although in my case. but unlike yours, the blemish of poppy seeds may make my product You, Sir, have not had to queue in Gray's Inn Road to buy your bread for more than 30 years. Your opposite number, who edits the arsaw Times, has not been so fortunate. Amongst the many reasons for this are that, unlike so

# Indifference as signpost to the new theology

By Clifford Longley, Religious Affairs Correspondent

man to religion, his ennui and agnosticism. Another contribulack of curiosity about God's tor, Dr Heinz Schlene, has very existence, let alone the already published several stuquestions it might raise, is in dies of that topic fact, the starting point for The collective rebuilding Christianity closer to ticism in these essays is that the truth

of Trade), the Right Hon Peter Walker (as Secretary of State for Energy) and the Right Hon Thomas the highest common factor of a rejection of religious ideas it has sequence of essays in the latest a central relationship to faith. King (as Secretary of State for Transport).
The Right Hou Nigel Lawson took the Oath of Office as Chancellor of the Exchequer, kissed edition of Concilium, the leading international theological journal, which is published hands on his appointment and received the Seal of Office.

The Right Hon Michael Jopling took the Oath of Office as Minister languages from its base in Holland.

From various perspectives the writers variously argue that religious indifference is a signpost to the direction theology must take, not to win over the indifferent but to be faithful to itself. The essays are all marked by deep respect for the integrity of those whom the term "religious indiffernece"

They all also acknowledge, however, that the prevailing indifference of modern culture to it puts Christianity into a state of perpetual crisis. It is them rejected.

They seem to be the answers to the wrong questions; but there is a distinct hesitation among this body of theologians about drawing the conclusion that better questions should be sought. Religion may not exist to answer questions at all, but to be a way of exploring that has no destination.

The contributions are mainly of a Catholic flavour, though heavily influenced by the great Protestant theologian and martyr, Bonhoeffer, and more recent work from Dr Jurgen Moltmann, a Protestant who is a member of Concilium's board. Claude Geffré turns also to Father Karl Rahner, SJ, for his

The indifference of modern ground-breaking research into the whole.

The collective view of agnoswhen defined to include open-That arresting conclusion is mindedness and not the final

No healthy religious life is possible in the modern age without also a healthy element simultaneously in numerous of doubt, a willingness to face uncertainty, and recognition that the object of religious belief, God, is beyond human comprehension.

Dr Schlette in particular severely admonishes Roman Catholicism for its past disdain for agnosticism, and finds that Protestant theology has taken it more seriously. As a positive attitude of suspended judgment he sees agnosticism as asserting condition of freedom that

Christianity should also assert.
The Christian who has escaped from the discredited assumption that his system "has all the answers" can be very actually worse for it to have its close to the state of mind of answers ignored than to have such an agnostic, and the two

can travel together.
Father Geffre does not insist that the believer asserts something the agnostic necessarily denies, the presence of God in the world. An appropriate spirituality would be based on lesus's cry from the cross. "Why hast thou forsaken me?". for that was the moment when himself experienced God's "silence, and even his

Agnosticism is not, however, the same as religious indifference. One presupposes curiousity about the issues, the other boredom or lack of interest; nevertheless the two attitude Dominican Father may overlap or an individual may oscillate between them, and the indifference, where it

exists, may apply only to part of the field of religious ideas, not

That indifference is essentially the turning away from issues raised by philosophy rather than theology, and one writer in Concilium therefore suggests that there is a role for philosophers in arousing the indifferent to show that the issues philosophy addresses are

interesting and important.

That would make "religious" indifference a subspecies of philosophical indifference and not therefore the exclusive concern of the churches.

But it also suggests that a renewal of interet in philosophy is a cause churchmen should sdvance wherever possible, not out of a desire to "convert" the indifferent through the stage of agnosticism to religious faith. but because churchmen can maintain a mutually fruitful relationship with genuine ag-nostics and not with those who are utterly unengaged and "turned off".

The "negotiating position" of those with faith in this encounter with positive agnosticism, as represented by these leading European theologians in Concilium, is unexpectedly tentative. Many facets of traditional Christianity they would expect to have to question, and are questioning already, not least an idea of God which demands a distortion of modern consciousness back to a medieval world

What is perhaps most re markable about this radical study of religious indifferentism is its entire relevance to the British situation, which it never refers to. It is based on experience on the Continent, in America and Japan, Concilium, Indifference to Re

ligion: T. and T. Clark, Edinburgh (English edition) £2.70.

#### OBITUARY

#### MR GHANSHYAMDAS BIRLA

#### Influential Indian businessman

an important role in the financing of Gandhi's movement for Indian independence from Britain died, in London on June 11, at the age of 89.

In addition to the main charge of the vast industrial and commercial undertakings of his firm, Birla Bros Ltd, he played an important if not very clearly defined role in the background of the prolonged discussions and negotiations which ultimately resulted in Indian indepen-

For more than a generation he was in close and affectionate contact with Gandhi, and his in the Shadow of the Mahatma (1953) throws light on the attainment of Indian independence from his own particular angle and also on the Mahatma's character with its amazing mixture of simplicity and

Birla's deep purse was always pen to assist Gandhi's schemes of social reform, even when he did not agree with them, and his large donations to Congress Party funds were perhaps prompted equally by patriotism and business acumen. It was in the garden of G. D. Birla's house that Mahatma Gandhi was assassinated in

Ghanshyamdas Birla was born in 1894 at Pilani, a remote village in the arid north of the Rajasthan State of Jaipur. His grandfather had migrated from the village to Bombay at the age of 17. In a single room he had an office and dealt with silver and seeds. His only son Raja Baldevdas Birla started business in Calcutta and built up an important export and import

Ghanshyamdas and his three ounger brothers took to industrial production under the stimulus of the 1914-1918 War and formed the great firm of Birla Brothers. In spite of many handicaps the business went from strength to strength. When war came again in 1939 the firm was producing 10 per cent of India's vast output of sugar and 4 per cent of her cotton manufactures. Many cotton pressing and ginning factories, a paper mill, a steel factory, and three great engineering work-shops were under the direction of the firm, which also did a large amount of insurance and

banking business. Towards the end of the war to the production of cycles and textiles machinery there was added motor manufacture, which gave them an important footbold in the industry which they were to exploit in the first decades of freedom.

Ghansbyamdas was a leading signatory in the middle of the. war of the famous Bombay plan the industrialization of his country, chiefly by big business concerns.

After independence Birla Brothers continued to support in financial and general terms

Mr Ghanshyamdas Birla, one and the states. If. like other of the most influential of Indian industrialists they viewed with businessmen, who also played some misgivings the early an important role in the tendencies of Mr Nehru's Government toward nationalizing great enterprises, they chose to remain Congress backers rather than switch to newer right wing political groups. In part in negotiations with a group of six British engineering firms for a great expansion of Indian steel production. The Delhi Government, however, rejected the scheme largely on the ground that private ownership of such a undertaking would be contrary to the industrial policy of the country.

From his early days Ghanshyamdas had taken part in public affairs. He was a member of the Fiscal Commission which in the early twenties recom mended a policy of discriminating protection of Indian industries. Later he served on the Royal Commission on Indian Labour.

He was elected to the Bengal Legislative Council and afterwards was a Member of the Indian Legislative Assembly, but resigned in 1930 in protest against legislation for Imperial Preference. When the Preference was lapsing in 1936-37, he was one of the unofficial advisers of the Government who came to this country to promote an Indo-British trade agreement, He was a leading figure in the Bengal Indian Chamber of Commerce and was sometime Chairman of the All-India Federation of such bodies.

He also came near to being the Indian equivalent of a Press Lord and among his successful enterprises in this field were the weekly financial journal the Eastern Economist and the Hindustan Times, a Delhi daily, edited for many years by Mr. Devadas Gandhi, a son of the Mahatma. The Birla Brothers remained

faithful to the Marwari tradition : of the association of benevolence with wealth. The Birla Educational Trust they founded made a great educational centre of the remote Rajasthan village, from which they came. The institutions at Pilani included the Birla College and a Naval School where, during the war-recruits for Government Naval Service were trained at the rate of 500 per annum. Educational benefactions included the establishment of schools and colleges elsewhere in Raiasthan and also in Calcutta, the headquarters of the firm, where

Birla, in his later years in business travelled widely and paid considerable attention to trade with Russia, a country he studied closely despite his strong aversion to communism. He was deeply ambitious to extend the wealth and power of his commercial empire, and as a financial operator on a country wide scale he had no equal for quickness of mind and decision.

He was made an hon Doctor of Laws by the Hindu Univer-

to 1949 Governor and C-in-C of

IRI ( 1) ID

At Volkswagen we rust-proof our cars while we are building them.

Not afterwards when the rot may have already started. And your investment has begun to erode away.

For good measure we flood the inside of the doors and other cavities with around 200 litres of wax, using our own patented process.

Because this is the only way we can be certain that every nook and cranny has been reached.

To discourage rust even further, we bond vul-

nerable joins such as the edges of bonnets, boot lids and doors, with a rust inhibiting adhesive.

We even go to the lengths of placing strips of zinc between the wings and body.

And we always use galvanised bolts to hold them all together. Because we don't want them to be held together with rust.

All Jetta exhausts are aluminised to give them a much longer lifespan.

And in common with all Volkswagens, the Jetta has a roof underneath, covered with lash-

ings of bitumen wax, to keep out the elements.

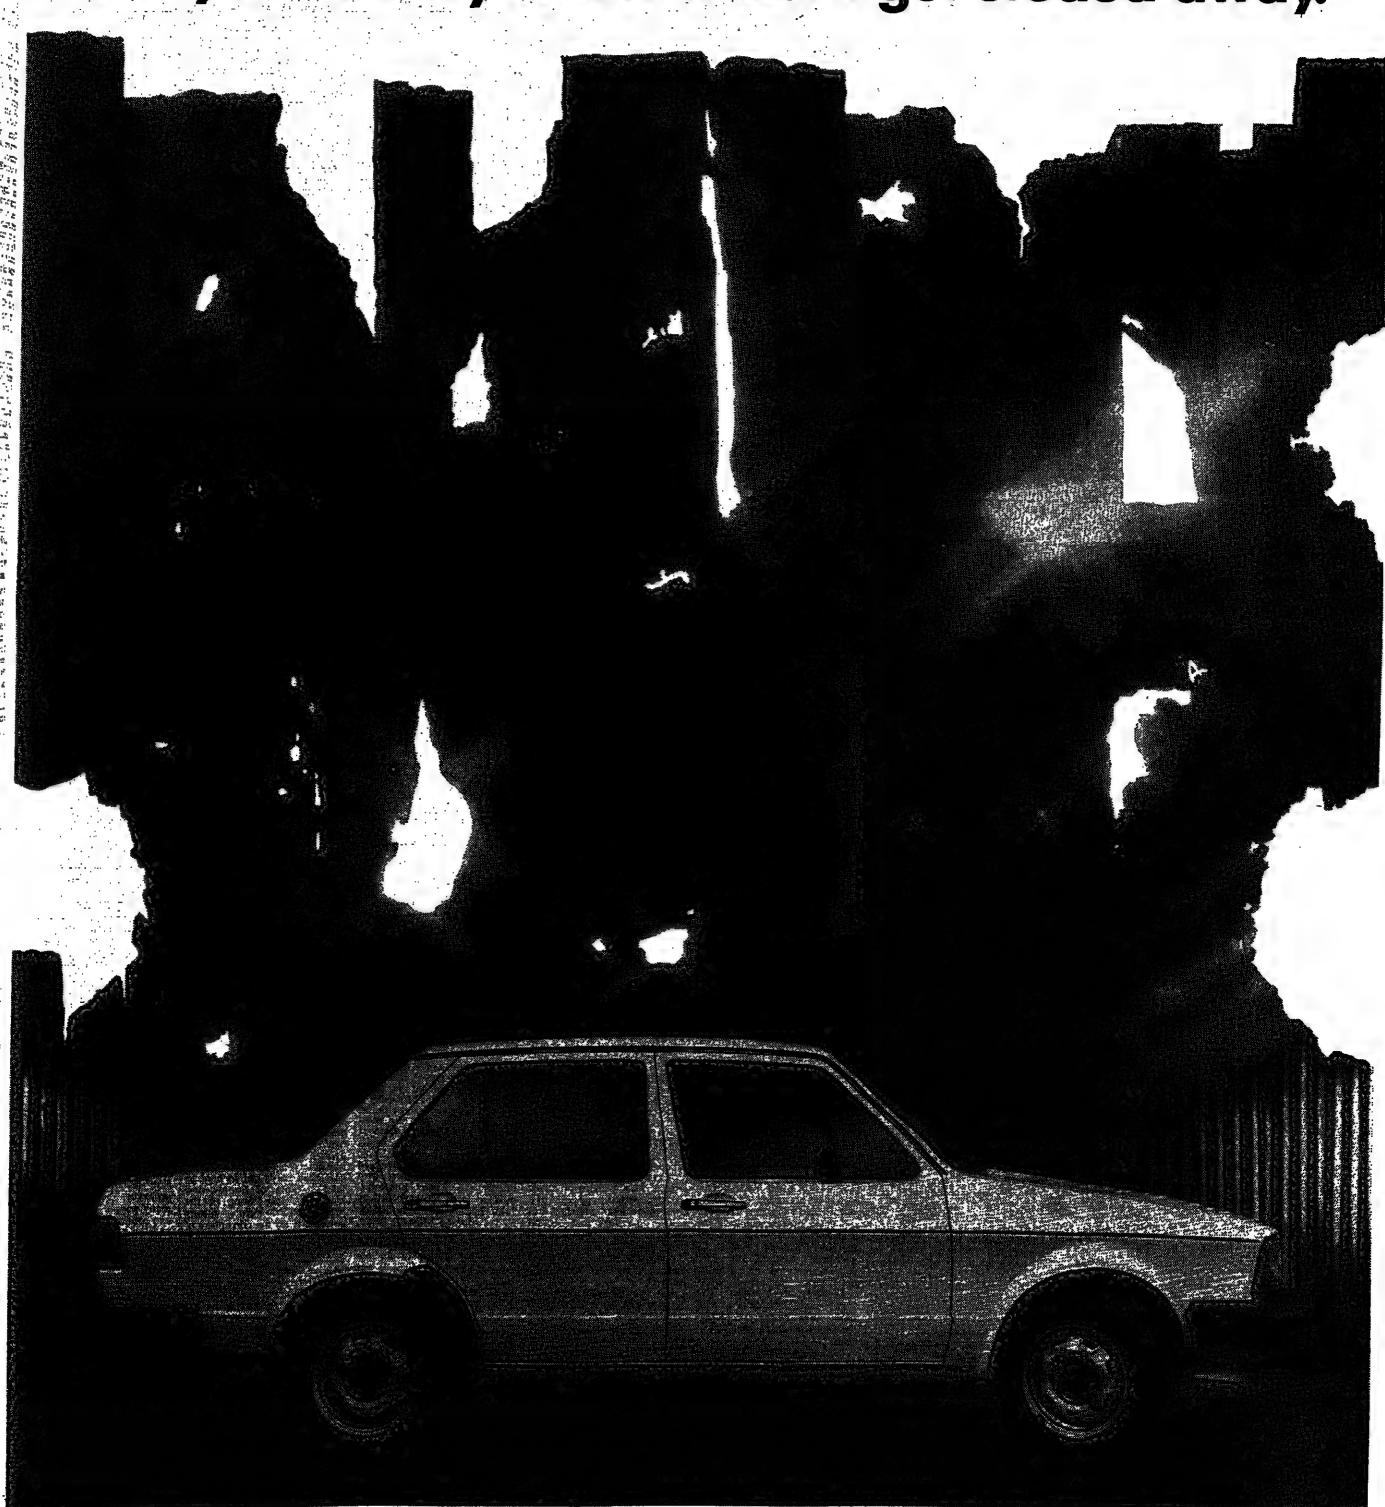

We're the only manufacturer to give you a 3-year paint warranty on top of a 6-year body protection warranty.

And incidentally we do not stipulate any intermediate inspections, or retreatments.

So you know that, however long you keep your Jetta, it'll keep its price up. And in the end you'll find yourself in a sellers' market.

But hasn't that always been a very good reason for investing in a Volkswagen?

Put your money where it won't get eroded away.

#### Dance

Molissa Fenley's latest solo, Eureka, lasts about 80 minutes with one intermission and a brief pause. That is a long time for one dancer to keep going and a long time to hold an audience's attention with one work: but this 28-year-old

American has always worked on

Molissa Fenley

Riverside

an ambitious scale. The last section of Eureka is that usually shows a cheerful closest in style to the works she though intense expression be-showed at the ICA in 1981; fast-neath a shock of short hair, paced, insistently rhythmic Fenley combines an athlete's movement in which she travels strength with the rhythmic round and round, while her subtlety of a dancer. The appeal arms weave patterns in the air of her work is primarily about her. A related kind of sensuous the joy of watching a movement, but with more highly skilled body in move-variety of tempo, is found in the ment, to which her inner drive first section of the dance, which and the dance's pattern and builds its effects gradually over pace add further layers of the span of 25 minutes.

The central section introduc-The feet propel her concs a different manner when the stantly across and around the oriental influence which has stage, sometimes with a jogger's always been one element of her style (she was brought up mainly in Africa, Europe and determination but often with a light (sometimes almost skittering) motion, forward and back. the Middle East) becomes more Sometimes she takes off in a soaring forward leap, or rises almost vertically from the ground with her legs kicking out prominent, its effect reinforced by the loose, flapping costume designed by Yonson Pak, and by a change of mood in Peter She does not this time use her

a compact, trimly muscled physique and a face shoulders rigidly becomes more apparent. But the hands, head and trunk constantly vary the strong beat established by her legs, moving the interest from the purely locomotive function of the lower limbs to the more revealing qualities of the upper body. Fenley's dancing is personal and rewarding, and has scope for continuing develop-

17 JULY 1983

Aldeburgh Festival: Nicholas Kenyon meets the 91-year-old pianist Mieczysław Horszowski (left), who plays at Snape tonight

# A legend out of the limelight

of the world's great planists". Mieczysław Horszowski, 91 years old this month, has returned to this country at the persuasion of his long-time admirer Murray Perahia to give a recital tonight at Snape Maltings as part of the Aldeburgh Festival His career is legendary, his manner diffident and unassuming it is not difficult. on meeting this quiet, fascinating figure, to understand why he has abjured the limelight for so many years.

Horszowski provides an extraordinary ink with the past. He was taught by Theodor Leschetizky, who studied with Czerny. "Who was very close to Beethoven of course", adds Horszowski. "Leschetizky used to tell the story that. when Beethoven was writing the third Leonore Overture, he tried to play it through to Czerny on the piano, not very well, and Czerny had such a good ear he remembered it and played it the next day to some friends. Beethoven was furious and told him he should not play so much by ear because he would remember lots of notes the composer never meant to writel Leschetizky followed Czerny's method much more than Clementi's, which was the model for all Italian pianists.

"Leschetizky was very demanding and he instilled certain vital things like rhythm." And did he emphasize legato lines? "No, no, not those long lines that go for ever, the use of legato came from the harmonies of the music more than the

melody."

Horszowski came from a pianistic family: his mother taught plane, and his father sold them. He played Bach inventions by the time he was five, and remembers perfectly his debut appearance in Warsaw in 1902, playing Beethoven's C major Concerto under Emil Mlynarski (whose daughter was to marry Artur Rubinstein, a very close friend of Horszowski).

"I spent the winter of each year in Vienna, studying not just piano but harmony and counterpoint as well, with a professor who moved in the inner circle of Brahms and had been an early biographer of Schubert: he used to bring me Schubert waltzes and say, now, write some like this. Which was difficult, but it was real music, not dry exercises."

Horszowski's catalogue of acquaintances in these early years as a child prodigy is fantastic. "I visited Joachim more than once with my mother in Berlin - and I also saw Kazimierz Hofmann, who was Josef Hofmann's father and taught the piano.

little note on Haydn's 'Gypsy Rondo' trio, which I played for him: 'I would like to have made music with you'. In 1904 and 1905 I was invited to Portugal and Spain, and there I met the mother of Pablo Casals, as well as Enrique Granados - we became very close and were often together, so when I was in Italy in 1906 I played first with Mr Casals himself, and we were friends for ever." He played for Pope Pius X in the Vatican; in Warsaw, he once met

a pupil of Mozart's son.

He first remembers hearing Wagner's

Tristan - not a work beloved of the inner circle of Brahms - conducted by Toscanini in Montevideo in 1906, a wonderful experience, he recalls, and the beginning of a close working relationship with Toscani-ni. And then he moved to Paris in 1909, still under twenty, just at the time when it was a melting-pot for European musical

"I saw Casals there, and met Cortot, and when they were in town we would play piano four-hands together. There was so much to interest me there I was attending philosophy courses, and I played less then so that I could study. But, you know, the teachers were a little blind – I would take along Albeniz and Debussy to play, but they thought all the harmonic. play, but they thought all the harmonic rules were being broken in these pieces, and would make a face when seconds clashed, and that sort of thing!

"In Paris one person who made a very great impact on me was Donald Tovey. He came to see Casals, and later I visited him in England. He said I should just study Brahms! But he asked some very important questions about Beethoven - he would show me a development section in a sonata and say, now, what holds together all these changes of key? It made me think in a different way about the music. And he could play through scores of Haydn quariets or Palestrina masses, and had a wonderful memory." Later Horszowski, like Casals, was to take up some of Tovey's music.

When Casals played Tovey's Cello Concerto in London Constant Lambert wrote that the first movement seemed "as long as my first term at school", but Horszowski remembers with affection a revival of Tovey's Piano Quintet, one of many rarities he has introduced in recent decades at teaching sessions at Marlborough, Vermont.

When the war came Horszowski had to leave Paris, and eventually settled in Milan - "Where I had friends. There was the opera season, and I began to work with Adolf Busch and Serkin, and still Casals. of course. Busch was playing Bach and Handel, and I recorded the wonderful Handel Concerti Grossi with him in those days — so beautiful, those recordings, different from now when the musicologists tell us what we have to do,"

Was he playing the piano? "No, the harpsicord on those records. Landowska always told me to play the harpsicord, especially Couperin, the said, you cannot do that on the piano, but though I have always been interested in these instruments I kept to the piano."

Very recently Horszowski has made some illuminating recordings of little-known sonatas by Giustini on one of the world's earliest surviving pianos by Christofori in the Metropolitan Museum. New York: "I tried to play Bach on it, and Scarlatti on it, but they felt dead. And then Dr Winternitz at the museum suggested these Giustini pieces, because they were written at exactly the time the piano was made, and the instrument suddenly sprang to life under my fingers. It was remarkable,"

Horszowski has settled in America since 1940, where another impressive circle of musicians has had his friendship and partnership. "I was telephoned by Alexander Schneider to see if I would record the Brahms C minor Piano Quartet. which is one of my favourite pieces. It was a great success, and this small group of us began to tour often, and play some rare works, like Martinu; we gave the first performance of Aaron Copland's Piano Quartet. Now I have been teaching for many years in Philadelphia at the Curtis Institute, where I live now, and meeting many young people at Mariborough."

It is clear that Horszowski has always

preferred the satisfying intimacy of playing with friends and pupils to the lonely aggressive life of the travelling virtuoso He appears content, but always alert: after only a few minutes in Murray Perabia's bouse, he is exploring the music on the piano, comparing Faure songs with Debussy songs, discussing a point of harmony in the music of his beloved

And, just two years ago, Horszowski was married for the first time, to an Italian friend of many years. Bice Costa. Yet another new chapter of his astonishingly varied life is opening. But his playing remains as important as ever. Aldeburgh visitors tonight are promised a rare

# Maximum scope for imagination

The Turn of the Snape Maltings

The first sketch, with its heavy black trees and smudge of lowering sunset, of a stage design for the first production of Britten's Turn of the Screw is on show in a small exhibition in arms so caressingly; consequently a tendency to hold her John Piner's work from the Britten-Pears collection. And, to honour Britten's seventieth anniversary and Piper's cientieth birthday, Basil Coleman, who originally produced the Screw in Venice in 1954, has returned to direct the work anew for the opera workshop of the Britten-Pears School.

> No trace of Piper this time: on a shoestring, and with a little John Percival heip from Adnams Brewery, the school has assembled a handful

of props. a screen on which are most well-sung, consistently perceptive and compelling Screw I have seen in recent

Not only does the minimal imaginative mannevre - rather so beautifully and with deep as if one were still reading intelligence by Lynne Dawson, James's novel - but it focuses on the scaring psychological detail of Coleman's production. which misses not a word or a note. In Britten's music he hears, and George Malcolm with his first-rate 13-piece orchestra magnificently recreates, not only every creeping shudder and chill brush, but also a deeply sensual and seductive dance of molecules of

Concerts

projected Roger Weaver's changing lights of day, and a couple of arched doorways. Against them they play out the most well-sung, consistently between them, and later between well-sung, consistently between Miss Jessel (Anna and Flora (Maria Steiger) and Flora (Maria Bovino), are exploited to the full to produce an aching, yearning distance. This is felt almost unbearably in the final set allow the individual specture-tug-of-war for Miles between tator maximum room for Quint and the Governess, sung

> of whom we should see much more on the operatic stage. For this production focuses' the evil in emotional manipulation from all sides, and it is very much the ceremony of innocence that we watch from the start. Miles and Flora (vocally superbly matched) work in ritual harness from the word go, as puppets in the theatricals of Quint and Jessel, staging their own mannered

play. Flora, in turn, is puppetmistress of her doll, and both children manipulate not only Anne Todd's rather anonymous Mrs Grose but a Governess too unsophisticated to comprehend or resist their intoxicated existence. James's "cloud of music and

love and private theatricals" enmeshes her in turn and, as control wins over compassion, horrifying shadows of Miss Jessel emerge in Miss Dawson's characterization. It is the new Governess who turns the screw finally on Miles as her triumphant "together we have destroyed him" rings with irony and the words of "Malo" are left resounding in her mouth.
A second cast of young singers will perform the work at

Snape next Friday at 8.30

Hilary Finch

London Sinfonietta/ORF Sinfonietta/ Zagrosek Queen Elizabeth Hall

One of the most fascinating shifts in musical understanding during the last decade or so has Schoenberg, Berg and Webern were not the beginning and end of Austrian music in the 1920s and 1930s. When Pierre Boulez mounted a Viennese retrospec-tive with the London Sym-phony Orchestra back in 1969, those were the only composers being undertaken by the Lon-don Sinfonietta, though more understanding of what was good in contemporary music around him, for many of the pieces heard in two concerts on Friday

The keenest surprise was the Divertimento, Op 61, by Josef Matthias Hauer, whose music I

had always assumed to be show the virtues of his crack coldly abstract pattern-making, Webern squared: he was, after all, a model for the Masters of Hesse's Glass-Bead Game. But this piece, scored for quartets of strings and woodwind with piano, sounds like a first effort at writing Brahms by computer. It is full of little harmonic progressions that circle on and on, usually in two strats going at different speeds: been a growing awareness that an obvious mistake in the program. The Sinfonierta played it with nice detachment, amounting almost to justifiable

Their other rarity also suggested some strain between the thrill of the new and the lure of the old it was Ernst Krenek's represented, with a nod to song cycle for soprano and Mahler. But a similar series now ensemble Through the Night, being undertaken by the Lon- Op 67, written in 1931, the year don Sinfonietta, though more after the Hauer. For Krenek, modest in scope, is casting its one of the most versatile of net more widely, and in doing so displaying Schoenberg as a this was a good period, the still more powerful figure: period of his opera Charles V powerful in his influence on and his Sixth Quartet. The Micht, though second here composers of quite dissimilar the Night, though, seemed here persuasions, like Franz Schrek a shade too calm in its response er, and powerful too in his to Karl Kraus's poems of nocturnal perturbation and enlightenment, despite a range of stylistic reference from Schoenberg to Messiaen (the latter surely fortuitous at this and Saturday were being played in arrangements made for the date), and despite a star-lit performance from Marie Sto-

> Lothar Zagrosek, conducting had better chances in Webern to

fussed concentration on clarity of sound. He encouraged the the minute Five Pieces, Op 6, more beautiful and alive than

original, especially in the funeral march, which is much hampered by the absence of any bruss. A cello is not a horn, nor a harmonium trumpets.

The following programme from the Austrian Radio Sinfonietta, again conducted by the excellent Mr Zagrosek, was drawn entirely from the reper-tory of Schoenberg's Society for Private Musical Performances. Schoenberg's own adaptation of his Op 16 showed him a better reducer than Webern of music for large orchestra, or perhaps a composer less attached to colour the first and second pieces of this set actually gained from increased definition, as they did also from the Viennese delicacies of this ensemble's His contributions were wel-

come too in other Schoenberg arrangements, of Mahler's Songs of a Wayfarer and Reger's Romantic Suite,

#### Eisler Ensemble Almeida Theatre

Sinfonietta to performances of Hanns Eisler began his composing life as a sophisticate, a disciple and much admired any I have heard before, and if protégé of Schoenberg. But in the late 1920s his conscience caught up with him, he denounced as elitist the New the Six Pieces, Op 6, were not quite so excessively vivid that was because Webern's own chamber reduction, done for Viennese movement in general Schoenberg's club, cannot claim and his own work in particular. to be more than a shadow of the and began instead writing quasipopular songs to the overtly propagandist verses of Brecht. At the time, and in the face of

Hitter's rise to power, that was a politically far-sighted and courageous thing to do. Musically it showed blindness, since in art man must aspire to the most refined expression to discover things about himself, while, poor impotent thing that it is, music itself has never changed society. Whatever their own beliefs the Eisler Ensemble, directed from the keyboard by John Tilbury and spearheaded by the soprano Michelle Todd could not muster between them any of the anger or bitterness one might expect of an oppressed people. Perhaps it was because their audience con-sisted mainly of comfortable Islington intellectuals.

In fact the most passionate performances came in the group of anti-war songs which ended Paul Griffiths the concert - unsurprisingly, for

war is a subject which concerns even Islington's residents. The Lied einer Deutschen Mütter in which a mother looks back with regret on her encourage-ment of her now dead son when he joined Hitler's brownshirts, resembled something from Schumann's Dichterliebe in its Touching simplicity. And the "Gegen den Krieg" a piece for unaccompanied chorus which was tackled valiantly, if not entirely accurately, by Aries Voices under the direction of Gracous Both Gregory Rose, was a powerful indictment of the pride of political leaders. Eisler's exploration of a simple, desperately rising 12-note row is haunting if

rather exhaustive. We were also offered some appallingly sennment Socialism", one of two songs from Die Mutter, hit rock-bottom with a line describing socialism as "the casy road that's not so hard to take". "Song of Supply and Demand" and "Song of the Whitewash" were cutting comments on the corruption of the powerful. But the reaction of mild amusement rather than derision which greeted John Mackie's extra verses - including a reference to Mr Tebbit's famous bicycle gaffe - to the "Ballad on Approving of the World" typified the complacency of the entire event.

Stephen Pettitt

#### PUBLISHING

# No time

The Heinemann Group of Publishers cannot be worse off under Sir David Nicholson's BTR than, for two decades and more, they were under Thomas Tilling. The group comprises, notably, the trade publishers William Heinemann (Wilbur Catherine Cookson. Smith. Dickens. Richard Monica Gordon) and Secker & Warburg George Orwell, Thomas Mann Gunter Grass, Heinrich Boll) and Heinemann Educational and Medical Books. In almost all the years the group was a tiny part of Tilling's, it declared increased turnover and

Charles Pick, architect of Heinemann's marketing and financial success for 22 years and now well over retiring age, has been wandering around Bloomsbury saying that it would be a bad day for the group if BTR succeeded in taking over Tilling, and that almost their first act will be to sell off the publishers. More fools they if they do, but they will not. Sir David Nicholson, chairman of BTR and himself an author, is excited by the idea , w of owning one of Britain's major publishing groups.

profit on the previous 12

In fact Heinemann's literary performance during the Tilling years was little short of disgraceful. They retained the patronage of Anthony Powell and J. B. Priestley but lost that of most of the other distinguished living authors including Graham Greene and Geomette Hever for her last Georgette Heyer for her last books. Worst of all, they have not replaced them with young writers likely to be read in years

The only advantage of a conglomerate owning a book publishing house or group of companies is that it can provide the publishers with cash to invest in authors of the future. If the relationship between proprietors and publishers depends exclusively on the annual balance sheet - as was the case with Tilling and Heinemann - this must lead to mediocre, short-term publishing. Granada has recently shed its publishing division, and more recently Harlech has sold off Frederick Muller. If David Nicholson is as astute as he seems, his interest in the Heinemann Group will be more than an annual look at the

While on the subject of change, it is depressing to note that two of the more able editors around have resigned from the houses they adorned. Stephen du Sautoy has left Weidenfeld & Nicolson to become a book-seller in East Anglia, and Maggie Pringle has, in just over a year, accepted that John Murray cannot be dragged into the nineteenth century.

As if to deny the concept of summer, the flood of publishers' autumn catalogues has begun. For the next few months they will flop through letterboxes at an increasing rate, although - incredibly, and at what loss of trade it is hard to estimate - some laggards, always the same imprints, will not be around until Christmas and beyond, with most of the books announced therein in effusive terms long since in the bookshops, or more usually not Bodley Head, Chatto & Windus and Jonathan Cape sensibly send theirs out together, saving envelopes and postage, and usually - as this year - ahead of the van. Who expensively produced, hyper-bolically-inflated mailing shots? They are not particularly intended for booksellers, wholesalers or retailers, and if they buyers - you or me - they are an indulgent luxury. But maybe they are. How about this from Bodley Head, in its blurb for Peacocks and Commas. The best of the Spectator com-petitions: "...a book which many people will want to buy two copies of - one as a present and the other to keep." That is advertise a 96-page volume of two plays by Graham Greene, limited to 775 copies, each signed by the author. A snip at £25? Most plays sell nothing like that quantity. Presumably it is Mr Greene's autograph that explains the price. E. J. Craddock

# Mavis Jeffcoate is incurable. She's not unhelpable.

"Pass me my lollipop, please," Mavis Jeffcoate will ask you, and you'll tuck her wheelchair's steering device against her chin, and watch her drive away Mavis suffers from multiple scienosis and has lost the use of her limbs. Her wheelchair gives her some independence and she ranies off letters on the Possum, our special electronic typewriter which she operates by mouth with amazing speed. We care for some 270 incurable patients like Mavis. We try to help them all lead as normal a life as possible.

Skilled nursing, therapy and medical treatment do much to help. And our new Research and Rehabilitation Wing examines and advances their long-term care. We are a registered charity (No. 205907)

John Brown is forecasting a loss of £9m for the year ending March 1983, despite a recovery in the second half. On top of this, it has extraordinary items of £17m, of which £10m is for

restructuring costs and £7m a straight cash loss, The group is capitalized at share price of 26p. Estimates of

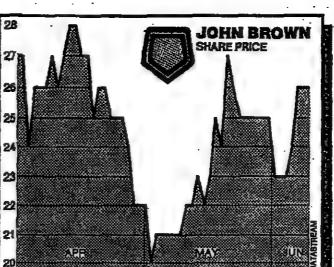

- By Sandy McLachian and Michael Clark John Brown, the troubled division the group' star per-ngineering group, is negotiat- former, range from £30m to

> These figures would mean that the rest of John Brown - its contracting and machine-tools businesses and its United States interests in plastics and textiles is thrown in for nothing.

Analysts believe that the sale of the turbine division together with an accompanying capital reconstruction, could push the shares to 40p or more. That is well below the 1981-82 high of more than 60p, but a handsome improvement on the present

would be capitalized at £59m -not a problem for Hawker Siddeley with £200m cash in its balance sheet, and almost pocket money for GEC, whose cash mountain has become legendary in the City. Another name that has been

£34m on the basis of its present mentioned in the past in connexion with John Brown, the value of the gas turbine which has been a speculative

some time, is Northern Engin-cering Industries. But when that particular rumour was aired in April, Mr Duncan McDonald, the NEI chairman, stated; "We

with John Brown". It is not impossible that the third, unnamed bidder comes from the other side of the Atlantic. The gas turbines made

Engineering, are almost wholly made to the specification of General Electric, of the United States. The division, as a supplier to General Electric, is a major exporter of gas turbines for power generation and mechanical drive applications.

by the division, John Brown

John Brown refuses to comment, but it may soon be asked to do so by the Stock Exchange or the City Panel on Takeovers and Mergers.

Two Scotush MP's have asked Sir John Mayhew-San-ders, chairman of John Brown, to make a public statement on the future of John Brown Engineering (which is based on Clydeside) because of what up to now have been rumours that

In the meantime, the division is continuing to pick up substantial overseas orders. In April, it won a £60m contract for a Far East power station

Govett. against fierce foreign compe-

## Liffe looking to a non-stop future

By Michael Prest

Financial futures could Financial futures could be traded between exchanges 24 hours a day in a global market with three years, Mr John Barkshire, chairman of the youthfu London International inancial Futures Exchange (Liffe), believes.

Liffe's strategic position between the Far Eastern and American time zones will be pivotal to the development of this sleepless market. But the exchange will also develop under its own momentum. A Eurobond contract could be traded within a year and building societies may become major actors on the market, holding out the prospect of

fixed mortgages. Trading between London and Chicago is growing. Mr Bar-kshire argued in a recent interview, and the International Monetary Market, a division of the Chicage Mercantile Ex-change, is closely involved in establishing a new financial futures exchage in Singapore.

That market should be different clearing houses or firms would have accounts with each other and disputes would be settled in the country in have also been suggested.

Mr Alan Lewis, a London property developer bidding for Illingworth Morris, the York-

shire textile group, is expected to approve the £4m sale of the

company's development land

Illingworth, is fighting a £5.4m takeover offer from Mr Lewis through his private company Abele. The bid is

currently under investigation by the Monopolies Commission,

which is expected to report in

August.

Mr Lewis owns around 48
per cent of the company which
he bought from Mrs Pamela

which the contract is sold or closed.
Mr Barkshire, who is also chairman of Mercantile House,

the money broking group, said:
"I don't think any of that is desperately difficult if the exchanges want to do it. And I believe they do want to do it." Since Liffe started trading in September volume has risen

steadily. It reached a record of 7.672 contracts on May 12, largely because of uncertainty about sterling ahead of the election. But the average in the week to June 2 was a more modest

4,755, and the bulk of business is normally in the long gilt and three-month Eurodollar contracts rather than currencies. Nevertheless, Liffe has no intention of dropping any contracts, on the theory that a spread is necessary for partici-

circumstances. On the contrary it is likely that a new instrument such as a Eurobond contract will be added next year. operating by next March or Mr Barkshire feels that a April. The way would then be hedge against American interest open for similar contracts to be rates is needed, but that the

contract would be too short.

Medium-term gilt contracts and

the company's shareholders.

#### Ex-Hanson man heads UDS Negotiations are still under

A John Laing director who formerly worked for Hanson Trust has been appointed executive chairman of UDS, the troubled high street retailer which was the subject of a tough fight for control between Hanson and the private Bassishaw

CORSORLIUM He is Mr Peter Harper, who sits on the Laing board and runs one of its industrial divisions. He worked for Hanson Trust for 10 years during the 1970s and is in his mid-40s.

Sir Robert Clark, the chairman, and Mr David Jessel have resigned from the UDS board.

ors who sided against the rest of the board on a number of occasions during the bid battle. It is unclear how much compensation they will receive. "Whatever obligations have to be met will be met," Mr Martin Taylor, Hanson Trust's finance direct-

Other members of the UDS board, including Mr Stuart Lyons and Mr Robert Lyons,

have already left the company. Mr Harper has no retail experience but there are no plans to try to recruit a retailer

way between Hanson Trust, the Burton Group and Bassishaw over the future of Richard Shops and John Collier.

Both Burton and Bassishaw would like the chains. Plans for the management of John Collier to buy it out from UDS are believed to have fallen by the wayside.

Hanson is thought to have asked for an extremely high price for the two chains. Burton originally offered £78m. Bassishaw has so far shown no sign of selling the shares it still owns in UDS.

#### Pressure increases for Reuters flotation

Further reports over the pressure for a public flotation of Reuters, the news agency and electronic information service (as predicted in The Times last

There is almost complete agreement between the national and provincial newspapers that

shares in the company should be offered to the public

The City estimates that a floatation could value the company at about £1,000m and provide valuable finance to many of Fleet Street's cashhungry newspapers.

Last year Reuters made profits of £36m and merchant

bankers Warburg are believed to have already been appointed to arrange a public float The only obstacle to a full agreement appears to be the row

between Associated Newspapers' Lord Rothermere and Fleet Holding's Lord Matthews. The national newspapes own

#### a change of rules? California bank which owns almost 30 per cent of

Banking on

Hoare Govett, is said to be on the point of bidding for First National Finance Corporation, FNFC, which was once the doyen of the fringe banks, became the largest casualty in the Bank of England's lifeboat and has taken most of the intervening years to get back to health.

It is a deal which deserves close examination if only because at first sight FNFC seems such an unlikely target for the ambitious US bank. But for that reason it seems inconceivable that the Americans would have thought up the idea on their own and implemented it without talking to Hoare

So if one thinks of the deal instead as Hoare Govett bidding to control FNFC and using Security Pacific's money it begins to make sense. It begins to look as if Hoare is pos-itioning itself for when the rules of the Stock Exchange are changed and it is allowed to offer the range of financial services

Although this is obvi-

onsly all speculation at this stage such a move would make sense. The British investment and banking scene will be transformed if the Office of Fair Trading wins its case against the restrictive practices of the Stock Exchange. If the market as a consequence is opened to all and brokers are allowed to be part of larger financial groupings it is likely that there will be a hectic and sometimes indiscriminate scramble to take advantage of the new rules.

Security Pacific and Hoare Govett seem to have decided that the best way to avoid the dangers of such a scramble is to move quietly before the thunder-

Preliminary Announcement Year ended 31st March 1983

"A year of significant earnings improvement, with brighter prospects ahead."

DAVID RHEAD, CHAIRMAN

Group trading profit increased from £7.3m to £10.6m Group pre-tax profit increased from £2.1m to £4.1m Earnings per share increased from 1.4p to 4.4p Dividends for the year 3.6p per share

Whitlock U.S.A. has made a further strong profits advance and its contribution is of growing importance to group earnings. Whitlock's expansion programme continues, further enhancing its nationwide coverage and market position in autoparts retailing.

#### Headlam, Sims & Coggins P.L.C.

Profits reduced but dividend increased. A better year in prospect

Extracts from the Statement by the Chairman, Mr. Alec Coggins. With turnover up 2.84% and the pressure on margins continuing, a profit of £355,000 (1981-£473,909) is respectable given the difficult trading conditions experienced during the year. The amount of sales per person increased from £25,283 to £31,087. This continuing trend means that we are well placed to take advantage of increased margins when the economy

R. COGGINS & SONS LTD. (Manufacturers of Indus-Production in the second half of the year did not reach the level due to a downturn in orders for industrial footwear. Prospects for the current half year depend to a degree on the expected upturn in the economy, but steps taken to invite enquiries for additional work to offset any reduction in orders for industrial footwear should prove both beneficial and broaden the Company's base,

SIMLAM LTD. (Distributors of Sports Footwear and Sales figures during the second half were lower resulting in lower profits. It is most encouraging to report that management accounts show a significant increase in profit levels for the first three months' trading to the end of April 1983.

CENTRE SPORTS LTD. (Retailers of Sports Goods) In its first full year, this Company made a loss. It is proposed to continue this experiment for a further six months when a final decision to either curtail or expand this activity will be made. The Improvement in performance shown over the first three months of the current year to 1st May, 1983 is encouraging.

DIVIDENDS The final dividend recommended is 1.5p per ordinary share, making a total for the year of 3.0p per ordinary share. Dividends for the year 1983/84 are expected to be maintained at this level or improved upon.

OUTLOOK The nation's low level of activity still makes it difficult to forecast trends in the immediate future. However, there are signs of an improvement, and as your Company continues to search for any cost savings that can be achieved, I am hopeful that we can look forward to a better year in prospect.

#### INVESTORS' NOTEBOOK @ USM REVIEW I

Tunstall Telecom Group takes its bow on the Unlisted Securities market next week be about the £800,000 level. with an offer for sale by tender the fifth in recent weeks.

life span among Britain's senior citizens is good news for Tunstall which makes and supplies emergency communications equipment for use by the elderly or infirmed. The equipment is designed to summon assistance in the event of accident, illness or any other The 3 million shares are

being offered by Hambros Bank at a minimum tender price of 100p and puts the company on a P/E of around 24. This represents 21 per cent of the company's issued share capital including the issue of 1 million new shares.

Tunstall hope to raise £3m from the sale which will be used to expand the existing business. In the past five years profits at the pretax level have grown from £87,000 to £478,000 on turnover up from £1.5m to £3.9m. In the six months to March 31, the group made profits of £553,000 and intend

# Future shock grips unhappy markets

confidence in the management of American monetary policy. This is despite the fact that Mr Paul Volcker is the favoured candidate for the job of chairman of the Federal Reserve of more than 70 percent of the investment decision-makers polled last week by Mr Richard Hoey of A G

Becker Paribas. Notwithstanding this popular acclaim his wildly expan-sionary monetary policy has been openly condemned by Mr Donald Regan, Secretary of the Treasury, and given a huge vote of no confidence by the ncial, commodities, gold and foreign exchange markets, Even the stock market

hascaught the malaise The illness in question is "future shock" as the financial markets gloomily expect an early return to inflation.

Accordingly, despite an unprecedented monetary explosion, surpassing even that of the last half of 1980 and the early mouths of 1981, interest rates have remained around their current levels (in nomina) terms) for more than six

In "real" terms, crudely measuring current nominal rates and current inflation enhetantial increase in interest rates in the past six months.

In January 1982, when the experience of inflation was much more recent. The nominal interest rate on a five-year US treasury bond was 14.77 per cent. The producer (wholesale) price index was rising then at an annual rate of about 5.5 per cent. Hence, in a very crude way of thinking, the real rate of interest was about 9.3

This tenacious resistance by the financial markets to the pressure of money being force fed into an economy already gorrged with cash is leading to perverse results in other areas.

The gold markets have weakened substantially on the news of high money growth. The stock market has done nothing since the end of April. Commodities markets have been stagnating.

The financial markets are To the great embarrassment declaring a daily vote of no of the Reagan Administration. the dollar has not only remained strong but has actually strengthened since the Williamsburg conference. reason is the response of the financial markets to the unrestrained money being generated by the Federal Reserve. Real interest rates have risen, thus pulling more billions of foreigners' savings into the United States. The richest country on earth is soaking up the savings of less wealthy nations at a very fast

Yet there is no sign of a let-

Regan: condemns Volcker's

up in the hectic money boom. The Federal Reserve continues to keep the crucial federal funds rate tied down around 85/2-83/4 -a level patently out of line with current market thinking and one which demands massive cash support to be maintained. The banks are flush with cash. carrying substantial excess reserves, over and above what they are required by law to

And any number of Federal Reserve officials and covernors keep reassuring what they evidently see as an entirely gullible financial community that "money doesn't matter" and that the money boom is due to "technical factors".

The markets by their actions are indicating they take no notice of what the fed

#### NOTICE OF REDEMPTION

#### **Borden Overseas Capital Corporation N.V.** 63/4% Convertible Guaranteed Debentures Due 1991

Redemption Date: July 13, 1983 Conversion Right Expires: July 13, 1983

Notice is hereby given to the holders of outstanding 644 % Convertible Guaranteed Debentures Due 1991 (the "Debentures") of Borden Overseas Capital Corporation N.V. (the "Company") that in accordance with the terms of the Indenture dated as of July 15, 1971 (the "Indenture") among the Company, Borden, Inc., as Guarantor (the "Guarantor"), and Bank of America National Trust and Savings Association, as Trustee, the Company has elected to redeem all of the outstanding Debentures on July 13, 1983 (the "Redemption Date") at a redemption price of 101% of the principal amount thereof plus accrued interest from July 15, 1982 to July 13, 1983. Payment of the redemption price and accrued interest, which will aggregate \$1.077.13 for each \$1,000 principal amount of Debentures, (the "Redemption Price"), will be made upon presentation and surrender of Debentures, together with the July 15, 1983 and all subsequent interest coupons attached at the option of the holder either (a) at Citibank, N.A. Receive and Deliver Department, 111 Wall Street, 5th Floor, New York, New York 10043, or (b) subject to any laws or regulations applicable thereto in the country of any such office, at the offices of the additional Paying and Conversion Agents set forth below.

On the Redemption Date the Redemption Price will become due and payable upon each Debenture. No interest will accrue on the Debentures on and after July 13, 1983.

#### CONVERSION OR SALE ALTERNATIVES

Debentureholders have, as alternatives to redemption, the right to sell their Debentures through usual brokerage facilities or, on or before the close of business on July 13, 1983 to convert such Debentures into Common Stock of the Guarantor. The right to convert the principal of the Debentures to be redeemed will terminate at the close of business on July 13, 1983.

The Debeatures are presently convertible into Common Stock of the Guarantor at the price of \$28.75 per share, resulting in a conversion rate of approximately 34.78 shares of Common Stock per \$1,000 in principal amount of the Debeatures. The Guarantor will pay a cash adjustment in United States dollars in lieu of fractional shares in accordance with Section 3.03 of the Indenture.

So long as the market price of the Common Stock exceeds \$30.97 per share, the market value of the shares of Common Stock into which the Debentures are convertible is greater than the Redemption Price. On May 31, 1983, the closing price of the Guarantor's Common Stock on the New York Stock Exchange as reported by the Western Edition of the June 1, 1983 Wall Street Journal was \$55.75 per share.

To convert Debentures to Common Stock, the Debentures, with the July 15, 1983 and all subsequent interest coupons attached, together with written notice of election executed by the holder that the holder elects to convert such Debenture, and specifying the name or names in which the shares of stock deliverable upon conversion shall be registered, with the address(es) of the person(s) so named, must be delivered to either (a) the New York office of Citibank, N.A. mentioned in the first paragraph of this notice, or (b) subject to any laws or regulations applicable thereto in the country of any such office, to the offices of the additional Conversion Agents set forth below.

'Inflation is to be repressed with permanent high unemployment. That hardly qualifies as a cure'

The Volcker riddle: Is he

really a closet Keynesian? are important question is, will or won't it peter out (where it the recovery of the econ-

: four years of Mr Volcker's nure there have been two evious recoveries (in late 79 and in late 1980), but each ne they petered out in the face high interest rates.

As contradictory as it may m, there is a three-part nsensus in the financial

i The current recovery will ntinue at a 3 per cent to 4 per nt annual growth rate as far as economic eye can see. Interest rates have fallen as as they are gong to.

ies, the economic recovery fill peter out What is there in the current covery that makes it different om the two previous recov-ies? Why will this recovery intinue when the other failed?

yow wilf the economy evade gh interest rates? Well, an optimist might swer: in this recovery the Fed d abandoned monetarism d is letting the money supply ow rapidly. This time the Fed ll not strangle the recovery.

But, the pessimist might spond, that means that the esent difficulties were caused the mistaken shift of the Fed oney supply targeting under r Volcker in the autumn of

Given that, the chairman was sponsible for shifting the deral Reserve Board to the ry doctrines that caused the - evious recoveries to fade. rould he not therefore be fired > stop him from aborting this

No. says the optimist. Ination has been beaten and the Yet, real interest rates are at conomy does not need to be record levels. Why? hipped with slow growth in · : ic money supply.

ll he or won't he be doctrines of monetarism, not were compelling. Without a mistakes. Why did it not run pointed (where he is Paul mean that inflation will soon quick injection of money from monetarism correctly? Was Mr chairman of the break out again and therefore the United States, Mexico eserve Board) makes a long-term interest rates will would have defaulted with deral Reserve Board) makes a long-term interest rates will e parlour guessing game. The remain high, choking off the unknown repercussions on what

So the argument goes,

While the reappointment of Mr Volcker affects at most two people - himself and his possible successor - everyone had unfortunately been a participant in his economic were abandoning monetarism experiment with monetarism.

Theories must be judged on whether they work or do not work, but this only gets one into the sticky question of what is meant by a theory working. Here one can only look at what With current real interest the proponents of the theory claimed before the experiment

> When the Reagan Administration came into office, it claimed that monetarism in conjunction with supply-side economics could stop inflation without stopping the economy. Judged in light of the Administration's predictions of what would happen – high growth and low unemployment – monetarism is a failure.

More cautious, academicallybased monetarists have always maintained that it might take a short mild recession to stop inflation but that full employment would quickly return om interest rate targeting to Here again, the predictions were wrong. No one would describe what has gone on as a short,

> The monetarists have also always maintained that real interest rates (the actual rate of interest minus the rate of inflation) move in step with the rate of growth of the money supply. A slow rate of growth of the money supply could not cause high real interest rates. In August last year, the

Federal Reserve Board was But, says the pessimist, does forced to abandon its slow high rate of growth in the money growth policy. The money supply, by the very reasons were as simple as they

was then a very wobbly Wall Street. But Mexico in turn used that money to meet its debt obligations with American banks, leading to an increase in the American money supply. Unwilling to admit that they

and that Mexico was in as bad a Is monetarism a colossal shape as it was, the Fed failure (having brought on the greatest depression) or a smash-great Depression) or a smash-growth in the money supply ing success (now that inflation namely, that so many new money market accounts were coming into existence that it was impossible to measure the money supply accurately. This was the most transparent of fig leaves. If the Fed had wanted a slow rate of growth in the money supply, it could have

> If predictions do not come true and men are forced to abandon the prescriptions behind those predictions, what is left? The theory is wrong, or it has been poorly implemented.

Not surprisingly the proponents of monetarism come to the latter conclusion. They contend that monetarism failed because there was too much short-run volatility in money supply growth. The money supply was on target from year to year, but the month-tomonth swings were too great.
This made it hard for the

public to follow the underlying trends. And without the assur-

While inflationary expectations are a possible expla-nation of high long-term real interest rates, such expectations do not explain high short-term real interest rates. The only rate of inflation that should be built into today's short-term rates is today's inflation rate and we know what it is.

But just as important, one must explain why the Fed made

Volcker really a closet Keynerism? So far most explanations try to place the blame on bureaucratic lethargy. But is that really credible: the economy going down the tubes because some bureaucrats are not willing to work hard and do

it right? That is hard to believe. When the time comes to explain those high real interest rates to Congressional com-mittees, Mr Volcker points to the federal deficit. But it has always been an axiom of monetarism that government deficits do not matter. The Keynesians are the ones who believe that deficits are import-

By the very fact that he points at the deficits the chairman is indicating his own disbelief in the theories that he himself inaugurated at the Fed. Hardly a paragon of intellectual consistency.
The evidence is clear. Mone-

tarism did not deliver what it promised. No one even believes inflation problem, Inflation has been stopped with the tradepression - but neither the Fed nor the Reagan Administration thinks it would be possible to go back to full employment without rekindling inflation.

Inflation is to be repressed with permanent high unemployment. That hardly qualifies as a

The Fed and the Administance in the public's mind that ration are drifting, printing the Fed was pursuing a slow, money more rapidly than they long-term growth, the Fed's want, but afraid not to; praying policies of credibility. This nong-term growth, the Fed's policies lost credibility. This lack of credibility created expectations of higher inflation in the future, resulting in the currently high interest rates.

# STEP BACK STEPFORWARD

The Senior Course is intended for senior managers from Britain and overseas who need to step back from their immediate day-to-day activities in order to equip themselves for the tasks ahead, and prepare for higher responsibility.
This four-week residential course at Europe's senior

business school is world-renowned for helping managers to improve their awareness of changing economic and social environments; to sharpen management skills; to review the latest thinking about management practice; to improve their ability to formulate strategy.

The course also offers a unique opportunity to exchange views and experiences with senior managers from different employment backgrounds and from different countries. For hundreds of successful senior managers the course

has been a significant gateway to broader responsibilities. requiring knowledge and persuasive skill beyond their own professional and functional areas.

> The next courses will be held: 5th - 30th September, 1983 19th March - 13th April, 1984

For more information write or telephone, The Registrar, Henley The Management College, Greenlands, Henley-on-Thames, Oxon, RG9 3AU, Tel: 049-166 522. Telex 849026 HENLEY G quoting ref. T13/6

> 9½ per cent TREASURY STOCK, 1988

PAYABLE AS FOLLOWS

Deposit with tender On Monday, 25th July 1983 On Monday, 22nd August 1983

INTEREST PAYABLE HALF-YEARLY ON 25TH APRIL
AND 25TH OCTOBER
This Stock is an investment falling within Part II of the First Schedule to the Trustee
Investments Act 1961. Application has been made to the Council of The Stock
Exchange for the Stock to be admitted to the Official List.

Investments Act 1961. Application has been made to the Council of the Stock to be admitted to the Official List.

THE GOVERNOR AND COMPANY OF THE BANK OF ENGLAND are authorised to receive traders for the above Stock.

The principal of and interest on the Stock will be a charge on the National Loans Fund, with recourse to the Consolidated Fund of the United Kingdom.

The Stock will be registered at the Bank of England or at the Bank of Ireland, Betfast, and will be transfrable, in multiples of one penny, by instrument in writing in accordance with the Stock Transfer Act 1963. Transfers will be fire of stamp duty. Interest will be payable half-yearly on 25th April and 25th October. Income tax will be deducted from payments of more than £5 per annum. Interest warrants will be transmitted by post. The first interest payment will be made on 25th October 1983 at the rate of £2.6302 per £100 of the Stock.

Tenders must be lodged at the Bank of England, New Issues(B), Watling Street, London, EC4M 9AA not later than 10.00 A.M. ON THURSDAY, 16TH JUNE 1983, or at any of the Brankes of the Bank of England at the Gagow Agency of the Bank of England not later than 3.30 P.M. ON WEDNESDAY, 15TH JUNE 1983. Traders will not be revocable between 10.00 a.m. on Thursday, 16th June 1983 as 10.00 a.m. or Tuesday, 21st June 1983.

Each tender areast be for one amount and at one price. The minimum price, below which strongers will not be accepted, is £95.00 per cent. Tenders must be made at the annual price or at higher prices which are multiples of 25p. Tenders ledged without a price being stated will be deemed to have been made at the minimum price or at higher prices which are multiples of 25p. Tenders ledged without a price being stated will be deemed to have been made at the minimum price.

A separate chaque representing a deposit at the rate of £40.00 for every £100 of the angular amount of Stock tendered for must accompany each tender; cheques must be drawn on a bank in, and be payable in, the United Kingdom, the Channel Islands

drawn on a bank in, and be payable in, the United Kingdom, the Channel Islands or the lake of Man.

Tenders must be for a minimum of £100 Stock and for multiples of Stock as follows:

Amount of Stock tendered for Multiple
£1,000 £1,000 £1,000
£1,000 £10,000 £1,000
£10,000 £10,000 £1,000
£10,000 £50,000 £50,000
£50,000 or greater

Her Majesty's Treasury reserve the right to reject any tender or part of any tender and may therefore allot to tenderers less than the full amount of the Stock. Tenders will be ranked in descending order of price and allotments will be made to tenderers whose tenders are at or above the lowest price at which Her Majesty's Treasury decide that any tender should be accepted (the allotment price), which will be not less

where schools are at or above the lowest price at which Her Majesty's Treastry decide that any tender should be accepted (the allotment price), which will be not less than the minimum tender price. All allotments will be made at the allotment price tenders which are accepted and which are made at prices above the allotment price will be allotted in full; tenders made at the allotment price may be allotted in full; tenders made at the allotment price may be allotted in full or in part only. Any balance of Stock not allotted to tenderers will be allotted at the allotment price to the Governor and Company of the Bank of England, Issue Department

allotment price to the Governor and Company of the Bank of England, Issue Department. Letters of allotment in respect of Stock allotted, being the only form to which the Stock may be transferred prior to registration, will be despatched by post at the risk of the tenderer, but the despatch of any letter of allotment, and any refund of the balance of the amount paid as deposit, may at the discretion of the Bank of England be withholding the tenderer's cheque has been paid. In the event of such withholding the tenderer will be notified by letter by the Bank of England of the acceptance of his tender and of the amount of Stock allocated to him, subject in each case to payment of his cheque, but such notification will confer no right on the tenderer to transfer the Stock so allocated.

No allotment will be made for a less amount than £100 Stock. In the event of partial allotment, the balance of the amount paid as deposit will, when refunded, be remitted by cheque despatched by post at the risk of the tenderer; if no allotment is made the amount paid as deposit will be returned likewise. Payment in full may be made at any time after allotinent but no discount will be allowed on such payment. Interest may be charged on a day-to-day besis on an overthe amount which may be accepted at a rate equal to the London Inter-Bank Offered Rate for seven day deposits in sterling ("LIBOR") plus I per cent per annum. Such rate will be determined by the Bank of England by reference to market quotations, on the due date for the relevant payment, for LIBOR obtained from such source or sources as the Bank of England shall consider appropriate. Default in due payment of any amount in respect of the Stock will render the allotment of such Stock hable to cancellation and any amount previously paid liable to forfeiture.

Letters of allotment may be split into denominations of multiples of £100 on written request received by the Bank of England, New Issues, Wetting Street, London, EC4M 9AA, or by any of the Branches of the Bank of England,

Letters of allotment must be surrendered for registration, accompanied by a completed registration form, when the final instalment is paid, unless payment in full has been made before the due date, in which case they must be surrendered for registration and later than 22nd August 1983. Until the close of business on 21st September 1983, Stock issued in accordance with this prospectus will be known as 9½ per cent Treasury Stock, 1988 "A". The interest due on 25th October 1983 will be paid separately on holdings of the existing 9½ per cent Treasury Stock, 1988 and on holdings of "A" Stock as at the close of business on 21st September 1983; consequently, interest mandates, authorities for income 12st exemption and other notifications recorded in respect of holdings of existing Stock will not be applied to the payment of interest due on 25th October 1983 on holdings of "A" Stock.

will not be applied to the payment of interest due on 25th October 1983 on holdings of "A" Stock.

The last date for lodgment at the Bank of England of transfers for registration as "A" Stock will be 19th September 1983. After this date, for purposes of certification, the "A" Stock will not be distinguished from the existing 9½, per cent Treasury Stock, 1988. From the opening of business on 22nd September 1983, the "A" Stock will be amalgamated with the existing Stock.

Tender forms and copies of this prospectus may be obtained at the Bank of England, New Issues, Watting Street, London, EC4M 9AA, or at any of the Branches of the Bank of England, or at the Glasgow Agency of the Bank of England, 25 St. Vincent Place, Glasgow, Gl. 25B; at the Bank of Ireland, Movare Buildings, 1st Floor, 20 Callender Street, Belfast, BT1 5BN; at Mullems & Co., 15 Moorgate, London, EC2R 6AN; or at any office of The Stock Exchange in the United Kingdom.

# Davis causes demolition of jittery Australians

By Richard Streeton HEADINGLY: West Indies (4pts) beat Australia by 101

Winston Davis, the new-comer in the West Indies fast bowling ranks, demolished Australia almost single-handed yesterday in the Prudential World Cup. Davis took seven for 51, the best bowling figures in the competition's history, as Australia wilted on a lively pitch. Afterwards both umpires and the captains confirmed that they intended to report it as being unsatisfactory for a limited-overs match.

Davis, aged 24, from the Windward Islands, is on Gla-morgan's staff and became an international player in April after Croft and Clarke defected to South Africa. He was chosen for this game because of doubts about the fitness of Garner and Marshall. Davis took six for 14 in his last 33 balls, as Australia. needing 253 to win, were dismissed for 151.

Australia were unfortunate that Wood was knocked unconscious by a ball from Holding and had to retire. His successors, notably Hookes, played some brilliant attacking strokes, but there was always a hint of jitteriness present. In the field the Australians bowled too many balls wayward in line and 20 no-balls (including those scored off) and 10 wides. This represented the equivalent of five extra overs for their

On Saturday the Australians had begun well when a start was possible at 3.30 after tye put West Indies in. Under heavy cloud the ball seamed freely and West Indies were struggling as the control of the West Indies were struggling at 78 for four after good spells by Lawson and MacLeay. Gomes and Bacchus with great care doubled the score in 19 overs stretcher before Bacchus fell when the hospital players came back briefly at cussion.

# Why India wasted no time

LEICESTER: India (4pts) beat Zimbabwe by five wickets Zimbabwe by five wickets

India went to the top of group B in the Prudential World Cap when they beat Zimbabwe by five wickets at Leicester on Saturday. They managed it between hunch and supper, the morning having been lost to the weather. Neither side played as though they had just won a great victory — India over West Indies and Zimbabwe over Australia. They both seemed in too much of a hurry, perhaps because it was so TAUNTON: England (4pts) beat Sri of a hurry, perhaps because it was so cold and bleak. India's fielding was untidy, Zimbabwe's barring disap-

Saturday for Taunion's first inter-national match. The ground loked very well. The pitch was a beauty for batting; with the collaboration of the short boundaries, heavy scoring was certain. England won the toss, but the start was no more than adequate, with the opening pair out for 78. However, Lamb and Gower out on 96 at high greed and Gower However, it brought to the ground 2,000 or so Indians, who put on 96 at high speed, and Gower enjoyed themselves noisily, and Zimbabwe, although easily beaten, had their moments. After they had been put in and lost Shah at 13, Paterson and Heron added 42 for There were a couple of slightly disconcerting run outs in the middle of the innings, but Gould joined Gower in a stand of 98, and Dilley their second wicket with a competence which suggested a much closer game. But from 55 for again played with a quality for above that of your knockabout tail ender. The second run out was that of Botham, for nought, to the acute disappointment of the crowd, A good long throw from Ramayake

much closer game. But from 55 for one at the start of the eighteenth over, Zimbabwe's innings fell away.

Their other peak was when India, needing 156 to win, were 32 for two, with Gavaskar and the dashing Srikkanth both out, Gavaskar caught at mid-off, driving, and Srikkanth at long leg, hooking. At 49 Patil, who went on to play some giorious strokes, was put down at slip, a sharp chance but one which Fletcher all but caught. Lanks fielded well for a long time, though inevitably they fell into some flusterment during the final Fletcher all but caught.

alls and Zimbabwe were relieved, I imagine, to be beaten by five wickets rather than seven or eight. Patil, Amarnath and Shastri, like

In the end Patil made 50 in 50

#### Man they cannot leave out

By Ivo Tennant Prudential World Cup records continue to tumble: the highest totals, both for our innium and by a side batting second; the biggest match aggregate; most runs off one bowler; most catches by a wicketkeeper (Kirmani's five on Satur-day); and, now, the best bowling

policy, as the bowling of Marks later demonstrated. Marks keeps the ball well up in principle, with cuming variation of flight and pace. He took five wickers, all of them those of major batsmen, and was never collared. Had it not been for the marvellous innings by Gower, Marks must have been made the man of the match. Davis's seven for 51 yesterday surpassed Gilmour's six for 14 for surpassed climour's ax for 14 for Australia against England on the same ground. Headingley, in 1975. Lloyd, the West Indies captain, admitted he could hardly leave him out of their match today against Zimbabwe, even if Garner and Marshall are fit.

Lloyd also said that during Australia's innings he had to tell Davis how to bowl. An interesting insight, that. Brearley for one would not have countenanced it, reasoning that if good enough for Test cricket, you can work it out for yourself.

and an unpire for their defeat by New Zealand, Batting is supposedly his side's strength. Mansoor Akhtar or Wasim Raja may be included to

**AWARD WINNERS** 

The Australians, who have already lost to Zimbabwe in group B, must beat India at Trent Bridge G Fowler b John C J Tavaré c de Alwis b Ranssunge... to have any realistic chance of qualifying for the semi-finals. India have done well. Is it something to do with Kapil Dev's emphasis on fitness? Or perhaps just part of the levelling-up process the world over. They brought Zimbabwe, down to earth, down to earth, helped in Total (5) wikis, 60 overts)

part by the infirmity of Hogs and Rawson, who spearhead the Zim-babwe attack. The bookmakers cannot make up their minds about FALL OF WICKETS: 1-49, 2-78, 3-174, 4-193, 5-194, 6-292, 7-298, 8-333, 9-333, "A G D Willia did not bat. The second and third favourites, England and Pakistan, meet at Lord's. The boundary on the Tavern side will be less than 60 yards, some comfort at least to lmran Khan who, in rather a repeat of last summer, blamed his batsmen

4 2 2

SOWLING: Wills 11-3-43-0; Dillay 11-0-48-4; ASON 12-1-52-1; Domes 12-0-60-0;

By John Woodcock; Cricket Correspondent Gavaskar and Srikkanth, were out finals. This time, with each country playing attacking strokes.

Although they failed on this occasion to do themselves justice, it was clear to see how by their sheer endeavour Zimbabwe came to beat endeavour Zimbabwe came to beat Australia. Their ground fielding for a side that is not conspicuously athletic, was often spectacular. I would have backed Pycroft to but his way-into a South African side in the old days when, as Rhodesia, they played in the Currie Cup; Curran is very lively and a brilliant fielder, Butchart had a good game and Traicos is the best off spinner in the competition.

They will not, I am sure, be disgraced against West Indies at Worcester today, especially if Rawson, who had to go off with a back strain on Saturday after taking two for 11 in five overs, is fit to bowl. The man of the match was Madan Lal, an award which could equally well have gone to Kirmani, whose five catches constituted a World Cup record, or Patil.
Leicestershire had provided a

good pitch and they made everyone feel at home. When, recently, Pakistan and India both played warm-up matches at Grace Road the games were given an Eastern slant, with Pakistani and Indian slant, with Pakistani and incum food provided and commentaries in food provided and commentaries in form and Hindi. Some 4,000 Pakistanis came to watch their compatriots against the West Indians, some of whom may one day become members of the club. In the two previous World Cups India's two victories would have assured them of a place in the semi-

playing each other twice in the group matches rather than only, they still need another victory which, after Saturday, they will be confident of achieving against Zimbabwe. If after the qualifying matches the sides are level on points their receiving and the states and level on points. their scoring rates will be decisive, another reason why India's batsmen wasted not time on Saturday. They won with 22 overs to spare.

The Australian opening batsman, Graeme Wood was taken to hospital after being struck in the face by a ball from the West Indies fast bowler, Michael Holding, during the Prudential World Cup match at Headingley yesterday. An X-ray examination revealed no fractures, but Wood was concussed by the blow and was detained overnight.

Wood, who had no visor on his helmet, ducked into a lifting ball and was knocked unconscious for about one minute. Although there was reportedly a doctor on duty, appeals were made over the loudspeaker system for medical assistance - and five doctors trotted on to lend a hand.

Trevor Chappell will take Wood's place against India at Trent Bridge today. WORLD CUP STANDINGS

#### Hadlee shatters Pakistan dreams By Peter Marson

EDGBASTON: New Zealand (4pts)

beat Pakistan by 52 runs.

Pakistan's batting suffered so grievous a blow in New Zealand's opening assault yesterday, that their target of making 239 runs to win stigned by the paradox of the street slipped beyond reach there and then with a stunning suddenness. There was an unreality about it all. Nor was it the stuff of dreams when Moshin, Zener and Mudassar, fell without severing in sight balls in the without scoring in eight balls in the opening overs bowled by Hadlee and Carins.

If nought for three was astonish-ing - unthinkable even - then it was unbearable for a great phalanx of flag-waving, whistle-blowing sup-porters who had come in their thousands hoping to see their herces deviver the same sweet that deviver the same punch that had knocked out Sri Lanka when the curtain went up on the Cup in Swansea on Thursday. Then, when everything had gone right for Pakistan, the third wicket had fallen for 220 for 229.

Now, the boot was on the other foot, and everything had gone wrong. Edghaston was already a ferment of excitement and antidipation when Crowe and Lees walked out with New Zealand 211 foe eight from 56 overs and four more to come. Crowe was quickly well caught by Moshin running back at extra cover, but Lees and Chatfield were together still and throwing the bat at anything and everything when the innings closed cverything when the innings closed at 238 for nine, Qadir had bowled magnificently to take four wickets for 21 in his dozen overs on Saturday.

No doubt New Zealand would

have preferred to have logged another 38 runs on the other side of 300. A glance at Pakistan's batting order, of course, explains why. A quick breadthrough then was essential if New Zealand were to entertain any hope of winning for enteriain any hope of winning for the pitch looked good.

I trust that Howarth and New

Zealand realize their good fortune in being able to have a star lead on an unremarkable supporting cast in bowlers. Hadlee is a cricketer of bowlers. Hadlee is a cricketer of unusual calibre and class, and in answering the trumpet's call yesterday he led a charge that was as davastating as it was demoralizing. Moshin lell leg-before to Hadlee's third ball, and the sixth flattened Zaheer's off stump. New Zealand's elation spilled over when Cairus's second ball had Mudassar brilliantly caught behind some where near caught behind some where near Lees's bootlaces. With no runs yet

scored and with Javed now to be joined by Imran, the startling thought occurred that Sarfraz, No 8 in the order, could be strapping on his pade. great as Pakistan's dejection, and Imran's departure in the eleventh

over with the score 22 merely widened the gulf. NEW ZEALAND: G M Turner & Wasion Berl b nshio A Edgar e Imran b Oadir, G Wight e Washin Barl b Cadir L Cairne b Davi I P Howarth at Washin Barl b Oadir.

#### Slack makes an impact on everyone

Times were when a Surrey-Middlesex encounter would have had them queueing shoulder to shoulder down that particularly grimy section of Harleyford Road, Ivo Tennant writes. These days a more doleful air pervades The Oval, and not just se Jackman's appeals punctuate slumber no more.

However, Middlesex are the Schweppes Championship leaders, and on Saturday the faithful were shown why. Slack and Butcher, their men in form, scored 107 and 81 respectively, the one at a pace unbecoming the pitch, the other as though the Harleyford Road was his target. One "victim" of their paranership was Arthur Jepson, the vererable umpire. Slack collided with him in going for a sharp single. An X-ray revealed chest bruising and Jepson was unable to stand for the rest of the day or yesterday. John Langridge, at 73 six years his senior, will take over if he is not fit today.

Runs were there for the taking too, at Northampton. David Steele, still pushing his best leg forward, these days down the order, ended a lean spell bby taking 60 off Gloucestershire. Cook, an England discard, made 59. At Tunbridge Wells, Aslett again made runs for Kent, as did Taylor and Benson, England hopefuls of the future, Gooth, whose Mike Yarwood-style bowling impressions have enlivened long days, did not let his moustache twitch once as he reeled off 32 overs and captured the wickets of Taylor and Knon.

Not far south sea frets were aiding the Sussex seamers. Somerset chose to bat at Hove, which surprised the sages. It delighted Reeve, a 20-year-old from the Lord's ground staff, who took three wickets on his first-class determ.

Meanwhile, Derbyshire's recently resigned captain Wood is again in the news, more so than his county. He is upset at being dropped and his future is, as it often seems to be, in

class debut

## Jefferies takes the place of Lancashire's absent friends

مكذا من الأعل

TRAFFORD: Lancashire

Now that they are actually playing some Sunday cricket, Lancashire are coping with the absence of the Lloyds and Allott remarkably well. Yesterday they beat Nottinghamshire convincingly, their bowling and fielding ensuring that their batsmen would have a reasonable target. They reached it with some comfort. with some comfort. A major contribution to their

victory came from their new South African, Jefferies, who was making Affician, Jeneries, who was making his home John Player League debut. He gave a good crowd a lot to cuthuse about, making the winning hit after an important partnership with Hughes in which he scored five Although at the end of the

Attnough at the end of the Nottinghamshire innings Jefferies conceded two sixes, when the batsmen, at the last, tried to improve their scoring, and had the chagrin of seeing Hayes drop a skier, in his first spell he had pinned down hoth the compact. Even off a shorter both the openers. Even off a shorter Sunday run-up, his left-arm over the

liveliest part of the Nottinghamshire innings was the struggle the scoreboard had to keep pace. What they do when Clive Lloyd is in full flow is beyond comrehension, for even Nottinghamshires scalate progres caused problems which lasted until the end of the tea interval. Then it was finally acceed.

interval. Then it was finally agreed that the total was 154.

That was more than had looked likely as Folley, Watkinson and later Simmons kept the pressure on with some accurate bowling. Equally important in the failure of the shackles, however, was the Lanca-shire fielding in which Cockbain and Abrahams excelled and which

must have saved at least 30 runs. Even Birch, who brought some much-needed belligerence to the task, struggled to find gaps in the field.

wicket bowling looked quite brisk and the Old Trafford crowd had given him generous applanse when he returned to his post at fine leg after each of his opening overs.

Until the last three overs, the livehest part of the Nottinghamshire innings was the grouple the balls to spare.

Total (3 wkts, 38.2 overs FALL OF WICKETS: 1-11, 2-68, 3-88, Umpires: W E Alley and R Julian.

#### Surrey make use of Radley's rare error

THE OVAL: Surrey (4pts) beat Middlesex by three runs
Surrey fought back to gain a thrilling victory over Middlesex yesterday to record their first success over their neighbours in the John Player League since 1979.
When Surrey were restricted to 164 for seven and Middlesex began with an opening stand of 57 in 14 overs, the visitors looked poised for another victory, but a rare error of judgment by Radley proved the turning point. Radley committed his partner Barlow to a rash single and be also was out to the next ball, both wickets falling at 69.
The slower bowlers held the key to the match. Emburey bowled with superb accuracy to take two for 21

superb accuracy to take two for 21 and Pocock followed in the Middlesex innings with the vital wicket of Roland Butcher. Emburey tried to restore the Middlesex fortunes, but was dropped when he had made only eight - a simple chance to Smith who later atoned with a marvellous catch to send back Tomlins.
Emburey fell to another athletic
effort by Monkhouse who caught
him on the square-leg boundary as
he fell. When the last over came, Middlesex still wanted 11 runs, but

the pace of Clarke proved too much for Williams and James. SURPLEY A R Butcher & Slack b Emburey Total (7 wkts. 40 overs) . Thomas a Downton 5 Hughes.

# Hamer's fighting finish

A fighting finish of two birdies gave Stephen Hamer his first important victory outside Lanca-shire in the Berkshire Trophy at the same in the berksame Frophy at the Berkshire club yesterday. His final round of 73 enabled him to keep the one-stroke lead he had established over David Gilford after three

For most of the final round there was little in it between these two, but whereas Gilford, who is 17, but whereas Gilford, who is 17, dropped three strokes to par over the last three holes, Hamer, after dropping stroles at the 14th and 16th, hit a five wood second from a hanging tie to the front of the 17th green. He ran a 70 ft putt up to three feet for a birdie, and followed this with a five iron to 10 ft for a final birdie.

He was two strokes clear of lan Gray, winner of the Hampshire Hog and recently back from serving in the Falklands, and Stephen East, 2 the Falklands, and Stephen East, a Yorkshire county golfer. Hamer, who is 24, has played for Lancashire and won several events in that county; he finished well up a year ago and this victory may well strengthen his self-confidence.

Andrew Oldcorn, the English champion, finished in a tie for third place with a final 73, in spite of dropping four strokes at the first two holes.

TENNIS: WINNER AT QUEENS NOW WIMBLEDON FAVOURITE

# Connors pins McEnroe down Mrs King

don champion, again outplayed John McEnroe to retain his title at Queen's Club yesterday in the tournament sponsored by Stella Artois and he will now be a and protests punctuated the strong favourite to win at score. They were relitively mild Wimbledon again too.

So consistent and deep were Connors's services, and so accurate his flashing return of service down the sidelines or cross court into the corners, that said he had not used. he pinned McEnroe down to win 6-3, 6-3 in one hour 22 minutes. His prize is £18,935; McEnroe gets £9,467.

This was McEnroe's sixth successive final at Queen's Club. He lost in 1978, won in each of the next three years, and lost to Connors last year. The two men have now met 21 times on all surfaces, mainly in the United States and Britain since 1977 when McEnroe, six years younger, burst on the international scene, and the score in Connors's favour is 12-On grass Connors is 4-1 up.

Played in pleasant sunshime. the match did not reach great heights. Not only was Connors accurate and powerful, McEnroe's second service was often so short that his opponent could jump on it and put his return out of reach. McEnroe lost four of nine service games, including the first two, and broke his opponent's service only twice.

Mc Enroe, cutting his drives, frequently returned down the centre line, giving Connors the chance to put the ball away to one side or the other, come into the net and kill, Sometimes he caught Mc Enroe at his feet near

the net.
At 2-2 in the second set McEnroe moved into higher gear but then jarred his arm, and thereafter whatever be did

Jeff Hall achieved a momentous breakthrough after eight years as a professional, when he won the £50.000 Jersey Open on the La Moye course yesterday. As Hall boled from three feet on the eighteenth to win the title and a first prize of £8,330 by a single shot from Michael King and Recount Collach.

Michael King and Bernard Gallacher, it completed a fairytale week for the 26-year-old from Bristol.

Four strokes clear with two holes

remaining, he appeared to be coasting to victory, but he left his approach to the seventeenth in a bunker. To play his escape, Hall was forced to dig through four inches of sand behind the ball and he only just set the hearst.

just got the ball out of the hazard From there, it took him another four shots, including three puts, to get down and a seven went on his

Jimmy Connors, the Wimble-on champion, again outplayed saving one match point with a ohn McEnroe to retain his title brilliant slanting volley on the

Familiar McEnroe rumbles until in the interview room after the match he exploded with unprintable language at a questioner who tried to pin him down on words which McEnroe

Connors, though he too had doubts about decision during play, made it light-hearted banter. In the third game of the second set, when a fierce service from McEnroe was not called out, as Connors thought it should have been, Connors turned to the line official behind him and said Disarmingly: "Are you looking at my trousers or at the line." As the official happened to be a red-haired young lady in her middle 20s this sally went down well in the full stands. The official then moved her position to get a better view of the line.

In the semi-final round on Saturday, Counors briskly removed Ivan Lendl, of Czechoslovakia, 6-0. 6-3 in 51 minutes. Lendl lacking confi-dence, could do nothing right though he did exchange a few service aces with his opponent in the second set. McEnroe had a tighter match against Kevin Curren, of South Africa, win-ning 7-5, 7-6.

McEnroe, in that match, was warned once, somewhat har-shly, for "abuse of equipment" when his racket flew from his hand into the net while he was swinging it in disgust after a stroke. Curren stayed calm throughout, having been fined a total of \$1,300 for a "visible obscenity", "verbal abuse", and "physical abuse" when playing

McEnroe: determined as ever, fighting to save the game

against Patrick Cash, of Austra- of lia, the previous day: Cash was also fined \$500 for "racket buse". The recitation of court of law, not on a tennis court. More words are consumed nowadays in reporting this and players' various comments after a match than in describing actual play.

In his engaging, vehement way, Connors last week spoke

"too many rules and regulations", and of players "being raped," but as prize money goes up and up and emotions and tensions become offences or alleged offences like emotions and tensions become these reads like proceedings in a ever more intense, it is a question now of whether tennis is being raped.

# Coe rebuffs four pretenders

While Steve Overt beat his rivals after a struggle at Udine yesterday Sebastian Coe easily rebuffed four pretenders to his domestic 800 metres title in a windsweps meeting in Loughborough. When Graham Williamson switched from the mile to join Coe, the UK champion, Peter Elliott and the Commonwealth bronze medal winner Chris McGeorge, the prospect of a fast time looked even more likely.

But Coe had decided to run from

field of 2,500 runners yesterday. His

Coe maintained his form to and exciting oppositon will be the record exactly the same time for his French-based Moroccan, Said Aonita, who ran within one second of Oven's world record for that distance last week. Overe's world record for that distance last week.

One of the blots on Loughborough's great but recent athletics tradition has been the lack of subfour minute milers. And comparison with the tradition of a rather more famous centre of learning became more pointed when Geoff Tumbull removed the blot but substituted an exclamation mark—his 3.59.4 equalled that of Roger Bannister on May 6, 1954 at Oxford, the first-ever sub-four minute mile.

Todd Bennett and Phil Brown are truly outstanding prospects for 400 metres. At 20 years old they have the time and the talent to get among the best in the world. But Bennett showed how much sharper he is at present in winning a windy 200 metres in 20.9 sec and Adoye Mafeo, and 18-year-old from the Loudon Irish club, beat Brown for second place and signalled a great future for himself.

second leastly the same time for his second lep. His finishing time of 1 min 45.0 sec on the new, symbilic track, equalled his best fivan 1980 on the old cinder one.

Williamson showed another glimpse of the potential that could yet put him among the Coes, Ovetts and, Crams of this athletics world with a personal best of 1.45.6, also a Scottish record, beat his training Scottish record, best his training partner McGeorge for second place

the back, a fortuitous choice in view of the bumping and boring that marked most of the race. Coe was as low as sixth place on the first lap and had only moved to fourth when Elliott. McGeorge and Steve Caldwell led through the bell in 52-5 sec.

Elliott started to make good the promise of his verbal-chailenge to Coe in the back straight, but when the world record holder moved up, avoiding some more bumping and Williamson tried to pre empt him on the last lap, the race was on for second place.

Walker to

The former world mile record older, John Walker, has confirmed that he will run over the distance in Edinburgh on June 26. The New Zealander will face a tough field which includes Graham Williamson, of Scotland, who has been in fine form so far this season. In midweek he recorded 3min 34.94sec for 1500 metres, to finish second at a meeting in Florence – his best time for the distance.

Jorge Liopart, the Olympic walking silver medal winner, broke the United Kingdom all-comers record for the 50 kilometres road walk with a time of 3hr 57min 29sec at Southwark Park on Saturday.

He was the first walker to break four hours for the distance in this country be led from the state. country, he led from the start and took more than four minutes off the record. He was competing for Spain in the Lugano Trophy world walking championship semi-final Britain managed to take the team ROWING

# Wales follow Flynn with fervour across the class divide division, but the chasm in class was so seldom evident that Wales fully deserved their first draw in six meetings with Brazil. Had Gordon Davies not finished sloppily twice, Wales might have fared even better. Brazil began with three of the players who appeared for them in the 1982 World Cup finals, but it was only when a fourth, Paulo Isidoro, arrived for the second half that they seemed capable of matching the Welsh commitment with their own for your.

Isidoro it was who scored Brazil's

scal a highly controversial one on the hour, to cancel out a fourth-minute goal by Flynn which gave Wales the kind of start of which they

can only have dreamed.

Davies had disputed possession with Carlos Alberto down the left

when Giles picked up the loose ball

to cross for Flynn to score with a rare though powerful header at the

Suggestions that Brazil had merely to show up at Ninian Park yesterday to overcome Wales were ridiculed by the fight the three-times world champions received in the second match of their European Rear who had strolled through

their first same in Portugal on Wednesday as comfortably as their 4-0 win indicates, found the spirit of the Welsh an entirely different proposition. Not that Brazil, it must be conceded, were quite the Brazil of old, the Brazil who enchanted the neutrals in Spain during last summer's World Cup. Rarely, however, can the Sor

so frequently or their skill have been seen in such tantalizingly infrequent far post.

So disjointed were Brazil by comparison that their best efforts came from free kicks by Eder. One will start next season in the first brought a superb save from Americans have given the ball away so frommtly or their skill have been seen in such fantalizingly infrequent

# Thomas shines through the gloom of England

and Katholos.

and a sholds.

The Australian goalkeeper, Greedy, spent much of the game collecting back passes from his own team and that drew boos from the

impatient crowd, England play sustralia again on Wednesday.

Damoy Thomas, making his international debut, did his best to spared England's blushes at the Sydney Cricket Ground yesterdey against the part-timers of Australia.

Bobby Robson, the England manager, described this opening international in front of a crowd of 2000 as these disconninies. But international in front of a crowd of 28,000 as "very disappointing". But he made a point of praising the performance of Thomas, the Coventry City full back, "Thomas was bright, brisk and sharp, He did well in defensive duries and showed

some bright forward play," Robson said.

But England's chances of enjoythwarted by the But England's chances of enjoying a goal fenst were thwarted by the Australian factics. Their coach, Frank Arok, used five defenders, but he said: "We were the underdogs. Nobody expected us to do snything. Entrainment was the duty of England, not us." Robson replied: "It was a little like the game we played against Greece where they mephed: "It was a little like ine game we played against Greece where they defended and gave us limit room."

England were also held to a goalless draw in that European champion-ahip qualifing match.

winners since the war, 36 of which have come in the past decade.

Vincent O'Brien, who, with 16 winners since 1973, is the leading Irish trainer at the Royal meeting, once thought of having up to half a dozen runners this week; but after the rerouting of Solford to Chantilly vesterious his income in the resulting of Solford to Chantilly yesterday his interest in the Royal meeting has now dwindled to a single challenger, Glenstal, in the St James's Palace Stakes, tomorrow. Glenstal was one of the better Irish two-year-olds last season and

Irish two-year-olds last season and brought off a surprise victory when, ridden by the stable's work rider, Vincent Rossiter, he carried off the National Stakes at the Curragh. This was the race for which his stable companion. Lomoud, the 2,000 Guineas winner, was a long odds-on favourite, but failed to show his true form because of a viral infection.

It is difficult, therefore, to give a precise appraisal of the merits of Glenstal, who was unhackily beaten a head by Sir Prince John over six furlougs at Phoenix Park in April. He has been working well in recent weeks, however, and it will take a good miler to stand in his way.

The Irish banker of the meeting

good miler to stand in his way.

The Irish banker of the meeting though, appears to be David O'Brien's only representative, Saracen, who turns out on Wednesday in the Jersey Stakes with every likelihood of his emulating his grand dam, Fluke, who led from start to finish to win this race by three lengths 13 years ago. Saracen, a handsome colt, showed a lot of speed to win over six furlongs at Phoenix Park recently and although he conquered little of note, he did it in the easiest possible fashion ud will be even more effective over the will be even more effective over the

It seems likely that there will be fewer than 30 Irish runners spread over the four days of the Royal Ascot meeting, which begins and Glasson Lady. The chance of tomorrow, However, despite this comparatively low number, there appears to be sufficient quality to push up the Irish score of 91 winners since the war. 36 of which

for the Irish Guinness Oaks.

Amongst the staying three-yearold coits I like nothing better than
the Eddie O'Grady's Branch Line,
who goes for the King Edward VII
Stakes on Thursday. Like the
Epsom Derby runner-up, Carlingford Castle, he too received a
meagre 7st 810 in the Irish juvenile
assessment, but showed substantial
improvement to finish a close third
to the O'Brien pair, Solford and the
subsequent French Derby winner,
Castleon, at Phoenix Park two
weeks ago.

So far there have been no contests between English and Irish two-year-

So far there have been no contests between English and Irish two-year-olds, so it is a matter for speculation how the two countries' juveniles measure up. In this respect one of the key races of the week will be tomorrow's Coventry Stakes in which Executive Pride, Gimme Pleasure and Hegemony, come into competition with Our Dynasty.

The three Irish colts are all winners and Hegemony was particularly impressive at the Curragh on Guineas Day when ridden by Lester Piggott who again takes the mount. He could be the pick of the trio.

On Friday watch out for Pat Eddery's mount Andress in the Windsor Castle Stakes. He is the first two-year-old at Down Royal to challenge at Ascot, but his trainer, a former Vincent O'Brien assistant, Michael Kanntze, has had three runners in this race, a winner, a second and a fourth. "Despite the fact that I took him up North to win his maiden", Kauntze said yesterday, "I rate him well up to the standard of my previous three runners in this race and believe him to be good each-way value."

Diamond Shoal put up one of the best performances of his career

will be even more effective over the extra furlong of the Jersey Stakes.

Dermot Weld, who schieved the first of his seven Royal Ascot wins with Nanticlous, is hopeful of staging a repeat with Ask the Wind in the Ribblesdale Stakes. Last season Ask the Wind was trained in France by Francois Bontin and gave precocious evidence of stamina by scoring over 10 furlongs in heavy ground on her second outing. She had done very little work prior to

The Queen's gelding, Insular (left), is caught near the line by Joy Ride in Sandown's Nearco Maiden stakes. (Photograph by Ed Byrne).

# York charity day sets record

The 13th annual Timeform charity day by York on Samuday raised a record £105,000 for cancer relief and other charities. The attendance at the meeting (22,500) was slightly down on recent years, but the proceeds of the charity dinner broke all records for such an event, rasing £79,700 largely from the sale of nominations to Kalaglow (£20,000), Beldale Flutter (£10,000), Touching Wood (£10,000), Munnmy's Pet (£10,000), Thatching (£9,500) and Tyrnavos (£5,000).

The main race of the day, the £15,000 William Hill Trophy, went to the 7-2 favourite, Autumn Sunset, who caught the 50-1 chance, Jonactis, close home to win by a neck, Bold Secret was only a short head away in third place.

Michael Strutte, the twiner of

head away in third place.

Michael Stoute, the trainer of
Auturn Sunset, who was also on
the mark with Majestic Endeavour at Sandown Park, will have 12 runners at Royal Ascot: He has had a double on four occasions since his

first winner at the Royal meeting in 1977 and is hopeful of improving on that strike rate.

The Stoute team is expected to comprise Abdoum (Bessborough). Bali Dancer (Queen Anne), Bid Again (Jersey), Commodorn Blake (Prince of Wales's), Cock Robin (St. James's Palace), Electric (Hardiwicke), Jungle Romeo (Brittania), Karadar (Queen's Vase), Malada (Queen Mary), Steeple Bell (Hunt Queen's Vase), Malada (Queen's Vase), Malada (

# Escaline is the Chantilly queen

From Desmond Stoneham, French Racing Correspondent, Paris

Gary Moore the Honkong-based jockey, who node Gold River to win the Art de Triomphe two years ago, won the Prx de Diane Hermes (French Oaks) on Escaline for a fellow Australian John Fellows, at Chantilly westerfay.

Chantilly yesterday.

Escaline who is leased for her raceing career for Mrs Virginia
Fellows, came with a spectacular late run to snatch the prize from off the even-money favourite, Smuggly, in the final 50 yards. Half a length away, third, came Air Distingue, who gave Willie Carson an excellent ride considering she was making her

The Italian filly, Right Bank, ran on to finish fourth in front of Lester Piggott's partner, Bid for Bucks, and Piggott's parmer, Bid for Bucks, and Soigneuse. Goodby Shelly was always in the middle division and finally finished eighth of the 17 runners. Fellows will now rest Escaline until the Prix Vermeille in September after which the filly will tackle the Arc de Triomphe. This is exactly the programme for Smuggly, while Major Dick Hern will next saddle Air Distingue for the Nassan Stakes at Goodwood.

"She ran a creat race." was Major

Stakes at Goodwood.
"She ran a great race," was Major
Hern's comment about the performance of Air Distingue. Withe Carson
added: ::If she'd had the advantage
of a previous run we'd have won
today."

by 0.70 see by Zalazaia who took La Coupe from Flower Prince and All Along. Zalazaia now goes for the Grand Prix de Saint Cloud when she will again meet All Along, who Greville Starkey considers needed today's see.

Greville Starkey considers needed today's race.

Finally, Solford, who took the Prix du Lys, is almost certain to run next in the Irish Sweeps Derby on June 25, leaving Caerleon for the Coral Eclipse Stakes.

There will be four French runners at Royal Ascot. Unfortunately the English horse-racing public will not be seeing Ma Biche for the third occasion as the filly was found to be coughing by Criquette Head last Saturday. The French challenge is led by Indian Prince, who will be ridden by Alain Lequeux in the Gold Cup on Thursday when Greville Starkey will be on board the Partick-Louis Biancone trained Baliton.

# Britain gain sweet revenge on French

From Jenny MacArthur, Paris

**EQUESTRIANISM** 

The British team achieved a for the Swiss, and they had no clear plorious victory here on Saturday and gained sweet revenge on their finish between the British and the hosts when they beat them by a French. Nick Sketton had a superb quarter of a point to win the Nations Cup. Last month, at the Hickstead Nations Cup, it was the Hickstead Nations Cup, it was the Henceth who had triumphed. Towerlands Anglezarke, Both had French who had triumphed. Saturday's win gives Britain in total of 22 points towards the Prent's Cup, but the French are still well in the lead with 28 points.

All four British riders (rode) with

All four British riders (rode) with the accuracy and procision expected of them, but it was David Broome on the Irish-bred Last Resort who was the hero of the day, Last Resort, who is eight, is a relative newcomer to the intionalscene, this being his first season with Broome, and the impact he caused here was considerable. His action and striking looks gained the admiration of the crowds even before he had completed his two flawless rounds.

Saturday's competition over a big course produced the closest possible finish for a Nations Cup event. At the end of the first round the three teams in contention were Switzerteams in contention were Switzer-land with no penalties, Britain with four, and France with four and a

the pressure was even more intense. In front of a hushed home crowd, his round looked a good one, but even as the crowd began to roar their approval, the last fence fell.

NATIONS CIP: 1, Great Britain, 8: 2, France, 8; 3, Switzerland, 16.
PAIRSIDENT'S CIP (after five events): 1.
France, Stjess; 2, Britain, 22; 3, Switzerland, 18: 4, Italy, 18: 5, West Germany, 12.
GRAND FROX AUDI: 1, Jaskso (Leredde, (F) D. Jaufis 45:95 sec; 2, Willora Carpets G Rucha, (Switz) 4, 40:76; 3, Flambeam (F Cottlen, (Fr) 4, 44:37.

Harvey Smith on Sanyo Tech-nology, and Malcohn Pyrah on Towerlands Anglezarke. Both had four faults. France went one better and produced two clear rounds, and

and he and Last Resort completed the kind of copy-book round that the chef d'Equipe, Mr Ronnie Massarell, must have dreamed about. For Durand on Jappeloup.

#### Climate right for Jingo

By a Special Co
Veronique Whitaker on Jingo
won the Radio Rentals Stakes at the
South of England Show, Ardingly,
Susser, on Saturday, with the only
faultless round in a jump-off reaced
by just three of the 30 starters.
Jingo, fourth in Friday's main
class, again appreciated the better
going, but was a trifle fortunate to
reach the decider after a first round
which was only just within the time
allowed.

RESULTS: Radio Rentals States: 1. Jingo (Veronique Whiteler); 2. February (Steven Smith; 3, Pye Hill (Peter Richerdson). Hostess. Mobile Cintering Accumulator; 1. Clear Sound (Steven Smith); 2. Apollo (Geoff (Sizzzand); 3, couven Stamp, 2. Apose (sect Gazzarro); 3
Certain Smile (Jaark Armstrong). Prize-vier
ners' Statues: 1, Courtway (Michael Whitaler
2. Mister Vee (Maurisen Hotelan); 3, Pacir
Connelly (John Brown). Parkwood Leadin

catch

**Downing** 

By a Special Correspondent

Lady Margaret lightened their gearing to find form and snatch the headship from Downing at Morley's Halt. St Catherine's celebrated 150 years with their oars and Trinity Hall fought off New Hall by feet to retain the women's headship.

#### **YACHTING** Conditions to Summer

Wine taste By John Nicholls

Like the first trial race for Britain's Admiral's Cup contenders, the second proved to be a benefit for the smaller yachts. Richard Fleck's Summer Wine, with the third lowest rating, finished two minutes ahead of Nocl Lister's Whirlwind, sailed or Noti Lister's winning, saied by Larry Marks, carrying the lowest rating of the 24 entries. Only Indulgence (Graham Walker) of the higher-rated boats achieved a useful result with a fifth place on corrected

As in last week's Seine Bay race, conditions conspired to keep the 1.30: 1. Sparking Sang (S-1): 2. Jambia (4-1):
3. Moon Melody (20-1). Hopwood (S-1 fav). 14
ran.
2.0: 1. Northern Series (S-1): 2. Page Blanche
(15-8 lav): 3. Nibrate (S-1): 2. Page Blanche
(15-8 lav): 3. Nibrate (S-1): 2. Page Blanche
(15-8 lav): 3. Nibrate (S-1): 2. Spanton Way (7-2):
3. Tudor Geta (S-1): 40: 7 ran.
3.20: 1. Autumn Samest (7-2 lav): 2. Jamests
(S-1): 3. Sold Secret (4-1): 4. Millipsen (15-1):
1. 77 ran.
3.20: 1. Seymour Micha (S-1): 2. Artised (11-8 lav): 3. Night Prutude (20-1): 6 ran.
4.0: 1. Hand (S-1): 2. Idelted (10-1): 3.
Parties (4-1): Moulion Boy (11-4 lav): 13 ran.
We Cotton Pret.

The scratch boat, Moonchaser (N Mooney), was first round, as she ought to be, but the rest were still in ought to be the the sale were still in a compact group with the smaller boats already well placed on handicap. Summer Wine's overall lead was probably established on her approach to the mark, when a long tack out to sea brought her round ahead of boats she previously

The tide then turned and again assisted the fleet on a fast running leg to Scisey Bill, and again there was little the larger boats could do to escape from the smaller. Some went well out past the Isle of Wight, but the best course proved to be close inshore, as was demonstrated by Black Top (D Atkinson), which finished third.

Further trials will be held next weekend, with the Round the Island Race on Saturday, and some inshore circuit races on Sunday. The seam of three bosts will be nominated in July. With a late entry from Japan, the Admiral's Cup, sponsored by Champagne Mumm, will be con-tested by 17 teams.

NESRULTS: 1, Surrener Wine (R Flack), 15hr 17min 16sec; 2, Whirtwind (N Lister), 15:19:09; 3, Black Top (D Athinson), 15:25:49; 4, Loudeine (A Pratt), 15:28:18; 5, Indulgence (G Walker), 15:28:47; 8, Dragon (B Saffary Cooper), 15:28:56;

#### in Brief

#### **Scots share** the honours with France

Scotland had mixed fortunes in two International hockey matches against France on an artificial surface at Large, in Ayrshige. They won 3-1 on Saturday, but were beaten 2-1 yesterday, Sydney Friskin writes. All three goals were scored within three minutes in the first half yesterday, with Andeani first half yesterday, with Andeani converting a short corner for France in thirteenth minute to be followed by the equalizier from Donny Hay and the matchwinner by Andream.
In Saturday's match Scotland's scorers were Mcpherson, from a short corner in the first half, Leiper, sport corner in the first hair, Leiper, from a short corner, and Donny Hay in the second. France, who reduced the lead to 2-1.

CYCLING: Bernard Hinsult, who has won the Tour de France four times, is still uncertain whether he will be able to take part in this year's race, which begins on July 2. The race, which begins on July 2. The Frenchman is being troubled by a knee problem, the same injury which forced him out of the Tour of Luxembourg on Saturday. BOXING: Lucien Rodriguez will defend his European heavyweight title zgainst fellow Frenchman Sylvain Wathled in Biarritz on July

GOLF: Severiano Ballesteros, of Spain, scored a one-under par 70 yesterday to take a one-stroke lead over Frank Zoeller, of the United States, after three rounds of the \$450,000 Westchester Classic in Harrison, New York.

# Injury may put Squire out of big match

From Don Cameron, Masterton

A training accident yester-day is likely to keep Jeff Squire the British Lion senior loose forward, out of the second gainst the All Blacks on forward out of the second international agianst New Zealand on Saturday. Squire suffered torn muscles in his left shoulder at training, and while there was no dislocation or fractrue the injurey is very painful. Squire has withdrawn form tomorrow's match agianst Wairarapa-Bush (re-placed by John O'Driscoll) and is most unlikely to be fit to play

on Saturday.
The Lions will parade what will very likely be their second international backline against the modest ranks of Wairarapa-Bush. This congregation of talent has the suggestion of overkill, but the second test in overkill, but the second test in only five days away and the Lions still need to polish up their backplay, especially that of David Irwin and Michael Kiernan who will again be paired in midfield. They palyed like strangers against Southland on Saturday but tomorrow should be sustained by sharper teamwork from Ollie Campbell at stand-off, and with Hugo MacNeil lending a hand from full back.

The last time the Lions used

this combination was against Wellington, with spectacular success in the last quarter of the game. They will have John Carleton and Roger Baird on

become the spare parts, but the placing together of Squire John Beattie and Peter Winterbottom suggests the Lions are still hedging their back row bets. The Lions lost Dusty Hare and Ian Stephens through injuries against Southland but Hare is recovering quickly form his brusied back, and there is the prospect that Stephen's strained knee ligaments will have healed sufficiently.

ments will nave healed suffi-ciently

Southland. British Lions....

The British Lions made some substantial progress towards being ready for nest weekend's second international against the All Blacks with the authority of their 41-3 victory over Southland here on Saturday, by four goals, two tries, two penalty goals and a dropped goal to one penalty goal, writes Don Cameron from

Invercargil. Invercargal.

Their astonishing luck with the New Zealand weather, which presented them with a sparklingly sunny day and a form field, drew out a commanding performance from the Lions

The Lions pack, containing six first international players and perhaps another, Jim Calder, for the second match steadily extracted the life from the smaller but eager South-land pack and the points were

Sadly, the Lions did not turn their almost total command in the forwards into consistently fluent running in their backs. David Irwin and Michael Kiernan, the centres, are Irish team-mates, But on Saturday their marriage of talents was heading for the divorce court Because so much good possession was lost between

NETBALL

#### England in line for an easy start

From a Special Correspondent

England begin their sixth world netball tournament today, with what should be an easy group A victory over Canada in Singapore. The other British teams played their first matches on Saturday. Northern Ireland, also in group A, provided the only win for the home countries by overcoming Sri Lanka 43-23.

Australia, favourites in greoup B produced a skilful and highly polished performance that overwhelmed Scot-land \$1-16. Wales' group B campaign opened against Trinidad, but after a confident first quarter, they ran out of steam and finally went down 54-18.

GROUP A: New Zealand 85, Hong Kong 4: Jamaics 67, Canada 17; N breiand 45, Sri Lanks 23. QROUP B: Australia 51, Scotland 16; Tranded 54, Wales 18; Singapore 42, Malaysia 42. **RUGBY LEAGUE** 

#### Runaway try turned the tide

Auckland (AFP). - A runaway try by Eric Grothe on the wing sparked Australia to a 16-4 victory over New Zealand in the first Rugby League test at Carlaw Park here vesterday. With the scores four-all 10 minutes into the second half, the Kiwis had the more fancied tourists struggling, but Grothe broke three tackles before sprinting 75 metres to score.

Sprinting /3 metres to score,

#### The Times guide to career choice

# Joining a white-collar union

national press and radio and television all give advice on "Best Buys" and consumers' rights. The range is vast; from personal finance to pop-up toasters, from cars to com plasters yet one area is always omitted. It is never suggested which union one

hould join. Such advice can be inappropriate as often there is little choice, either practically or theoretically, although the closed shop - that great media bogey - is rarely in evidence in the professional, managerial or scientific sectors. These are the areas of greatest trade union growth, even though membership overall has declined as unemployment has risen.

For a young person getting a job for the first time, whether to join a union and if so which one, are decisions difficult to make. This is especially because little information is available and the subject is rarely broached either in schools or universities, In general terms, manual jobs are more heavily unionized than white collar ones; there are more union members as a percentage of the whole in large rather than smaller enterprises, and public sector is more unionized than the private, in both manual and white collar areas. Even so many unions do exist for white collar workers; unions based on status, on qualifications, or just general unions.

There is little point in joining a trade union if it cannot do anything for you unless there are overriding political reasons for doing so. Consequently, if a union is recognized by an employer for bargaining purposes, then that is the one to join. From the point of view of a new employee, especially a younger one, it is the bargaining on wages and conditions of service and the legal and disciplinary functions of a union that are the most important.

In large organizations salaries are set by the unions, whether one is a member or not. The choice is not entirely straightforward however. Problems can, and do arise when a person wishes to join a non-recognized union or when either more than one union, or no unions, are recognized

It is possible to be a member of more than one union at the same time although it can be somewhat expensive. There are rules administered by the TUC which preclude union swapping or the joining of inappropri-ate unions - that is those which do not have agreements with the employer when other unions do. White collar unions are by far the heaviest users of the TUC procedures designed to settle this kind of interunion dispute. By no means all unions are TUC affiliates. The British Medical and Dental associations (BMA and BDA), The

Further details and application forms obtainable from the Secretary, Queen Mary College, Mise End Road, London, El 4NS, to be yetgraed by 13 July.

UNIVERSITY OF OXFORD

most staff associations appears to be a merger with a more traditional union, although the bank staff and some insurance and building society staff associations have held themselves aloof for some considerable time.

Some of the choices are easily made. New entrants to the Civil Service will join their appropriate unions for their grade or their department, if they join a union at all. Senior people join the First Division Association (FDA), Inland Revenue staff join the Inland Revenue Staff Federation (IRSF) and scientific grades the Institution of Professional Civil Servants (IPCS).

Local government, the health service and public utilities administhe health trative staffs all have one union, the National and Local Government Officers' Association (Nalgo) as the only one with bargaining rights. Teachers have the choice of two TUC affiliates as do academics, although only the Association of University Teachers has national bargaining rights. Journalists, however, can

#### by Barry Sherman

sometimes choose between the National Union of Journalists or the Institute of Journalists, which is not connected to the TUC. Actors, musicians, and film and television people have virtually only one union to join in each discipline.

Professionals tend to have pro-

fessional associations, only some of which have pretensions to be, or act as, trade unions. The BMA and BDA are examples of unions; the Law Society, the Bar Association, and the campaigns to recruit professionals and specific or general administrators of the private sector into the trade union movement. These campaigns have been conducted across a wide spectrum of unions ranging from the it is wise to shop around.

The 1980s can claim to be the decade of the consumer. Specialist and of staff tmions or associations are general magazines, the local and independent of the TUC. The fate of Staffs (ASTMS) to the more unlikely, but recently more successful Electri-Electronic, Telecommunication and Plumbing Trade Union (EEP-TU). In such areas, the choice is the most bewildering, competition the fiercest

A person getting a job in finance can join the Banking, Insurance and Finance Union (BIFU), ASTMS, the Association of Professional, Executive, Clerical and Computer Staffs (APEX), or a staff association if it exists. However the choice of joining either ASTMS or APEX is not available in, say, Barclays Bank, while in building societies, merchant banks, the Stock Exchange or brokerages. union membership, other than staff associations is low, if it exists at all, Some of the manual workers' unions. notably the Transport and General Workers' Union, the General Municipal and Boilermakers' Union and the EEPTU have white-collar sections.

A variant on this theme is the technical section of the Engineering union (TASS), which is autonomous in its own right. In either general management or within specific skills like computing, several unions are competing for members. TASS, the Engineers and Managers' Association (EMA). ASTMS, APEX, TGWU/ACTTS, GMBTU/MATSA, EEPTU/ EESA, all have claims to be considered and all have allegiances and devotees.

As new types of jobs in new ompanies and new industries appear, so the traditional pattern of craft and trade unions is breaking down. In white-collar areas the level of sophistication within the trade unions is now so high and evenly spread that Society, the Bar Association, and the Engineering Institute are examples of "non-unions". There have been might be made on political stances, on personalities, or on the union's other connexions, especially within the same enterprise. At a time of high unemployment and with an anti-union ethic still prevalent in Britain,

#### A new way into accounting

 School leavers seeking a career in accountancy but lacking the qualifications to take professional examinations will be interested in a new entry route via the Association

Accountancy Technicians (AAT). The minimum requirements to become an AAT student are four O-levels or Grade 1 CSEs. As well as a basic grounding in accounting tech-niques, the technician qualification includes subjects such as Business Law, Data Processing and Economics which ensures students will not be restricted to pure accountancy work.

A fully qualified member (MAAT)

has the opportunity to progress to the professional examination various accountancy bodies. The Chartered Institute of Public Finance (CIPFA), the Association of Certified Accountants (ACCA), the Institute of Chartered Accountants in England and Wales (ICA) and the Institute of Cost and Management Accountants (ICMA) all accept the AAT qualification as equivalent to and exempting from their foundation course.

Further information is available from the Association of Accounting Technicians, 21 Jockey's Fields, London WC1R 4BN (01-405 4961/3).

**BRUNEL UNIVERSITY** 

#### Director of Continuing Education

Applications are invited for the newly-created post of Director and Professor of Continuing Education. He or she will be responsible for the development and expansion of the University's Continuing Education Programme and will have to build a department from

At present, the University's efforts in this field are organised by individual departments. The new director will take responsibility for the courses run by those departments and develop new courses, using as far as possible the services of existing academic staft. Entitusiasm and commitment are vital, but must be matched by experience as a bacher and researcher, together with previous involvement at a senior level in a university department of Continuing or Adult Education. It is likely that the new Director's academic background will be scientific or technological.

The salary will be within the professorial range, minimum £17,275 per annum, plus £1186 per annum London Allowance, with USS benefits.

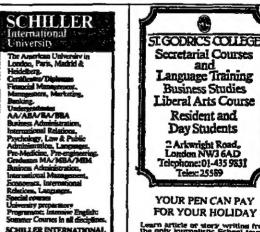

Further particulars from the Personnel Secretary, Brunel University, Uxbridge, Middlesex, UBS 3PH, or telephone Uxbridge 37188 extension 49. Closing date for applications is 8 July, 1983.

of four films starring the

Worthy Victorians were reported to have been morally outraged when Pinero's THE GAY LORD QUEX (BBC1 9.25pm) was first staged at the end of the last century. Today's viewers will certainly not be scandalized by this comic tale of romantic intrigue in Britain's eristocracy. Lord Quex, certainly not gay in the modern sense, is a late middle-aged roue who becomes engaged to Muriel, a girl half his age. Muriel's well meaning but interfering foster-sister, Sophie, takes it upon herself to try to stop the marriage by proving that Lord Quex is still a philanderer, even

World in Action placing a former addict in Harrogate, a town the had never visited and in which he knew nobody, and within hours he had bought £40 worth - enough for a day's supply. Amold Trebach, an American expert on heroin addiction though engaged. Anton Rodgers is a rather glum Quex with Lucy Gutterdge excellent as Sophie and

CHOICE performances plus Evelyn Laye's cameo as Quex's aunt more than make up for the rather stagey scenery that tends to detract from the pleasure of this production. the pleasure of this production.

World in Action's THE HEROIN
BARONS (ITV 8.30pm) brutally
Busirates the alarming increases in
heroin addition in Britain. Interviews with addicts, dealers, customs and police highlight the problem facing the authorities and the ease with which heroin can be obtained. This is underlined by

pleads that we do not resort to methods of control used in the United States where, Trebach claims, the authorities have made a ter out of a problem." David Wheeler has skillfully apted for radio Joyce Cary's EXCEPT THE LORD (Radio 4. 8.00pm), one of a trilogy of novels that have as the central character Chester Nimmo, a Liberal peer and former cabinet colleague of Lloyd George. Nimmo, as narrator, recal his harsh early life as the son of a penniless Devon farmworker and

lay-preacher. Cary's powers of description vividly paint the recollections of Nimmo's youth including a desperate battle to stem a fast-rising tide and the simple, blind, faith of villagers as they patiently wait for the second coming

REMBRANDT ETCHINGS-III July
15.

Central Committee members gathered in Moscow yesterday for a crucial plenum tomorrow, attention focused on Mr Yuri Andropov's deteriorating health and its potential political repercussions. Informed sources said Mr

Andropov was determined to make personnel and policy changes at the plenum to consolidate his hold on the Kremlin seven months after succeeding Leonid Brezhnev as party leader. Sources said the Politburo was not united however, and that Mr Andropov was being challenged.
The plenum will be followed

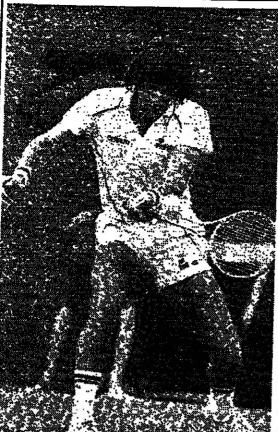

on Thursday by a session of the Supreme Soviet which is expected to deal with the question of the state presidency. Mr Brezhnev combined the post with that of party leader, but Mr Andropy has a state of the Andropov has not yet done so.

During meetings with President Koivisto of Finland last week, he appeared unwell, Mr Andropov, who will be 69 on Wednesday, has always looked gaunt, but has sometimes appeared unusually frail since receiving hospital treatment in March. He suffers from heart and kidney complaints. Sources said Mr Andropov would follow his predecessor's example and take a rest in the

Crimea in July, after the visit to Moscow by Herr Helmut Kohl, the West German Chancellor, His main comfort is that Mr Konstantin Chernenko, his main rival for the leadership last November, has also been unwell, and did not look his usual vigorous self at the dinner for President Koivisto.

Other key figures at the plenum include Mr Geidar Aliyev, the former Azerbaijan party leader who is now deputy Prime Minister and Mr Mikhail Gorbachov, the young and urbane Agriculture Secretary. Mr Gorbachov is being increasingly seen as a future leader, and sources said even Mr Aliyev was positively deferential at Moscow airport when Mr Gorbachov returned from a successful visit to Canada recently.

There appeared to be some over arms control as the Russians ruled out any chance of an agreement on medium range missiles at Geneva only a day after having said that an agreement "still can and must

#### **Connors** enjoys a double

Jimmy Connors doing the double over John McEnroe when he beat him for the second year running at Oueen's Club yesterday, winning the Stella Artois Tournament 6-3, 6-3. It wasn't an Everest of an encounter, more like a series of footbills. John Evans's photographs capture some of the tension and anxiety on the face of Connors as he faced up to

returns from McEnroe. With his hair dank and mop-like and his wedding ring dangling from a gold chain round his neck he seems all elbows and knees. He looks a worried man (left) anchored on the baseline and seeming not sure about the return; but be is more on his toes (centre) as he gets it back; and finally he is the old jaunty Connors, hair flying

like a shaken mop and confusion in Moscow yesterday airborne in confidence. This was the 21st meeting between these players and overali Connors, despite how anxious he looked at times, had the match under control

Troops of the homeland's offers to sell them to canning own army will begin moving factories to be used as pet food from village to village this week

#### Hope fades for lost safari men

By Our Foreign Staff The Zimbabwe Government has received fresh evidence that conditions without sighting it.

The British rower must decide whether he will attempt two Britons, who were kid-napped in Zimbabwe a year ago, may all have been killed. But Western diplomatic sources to cross the treacherous reef alone or accept a tow to safety. The question is a difficult one for the adventurer, who has endured more than 9,000 miles over the past 293 days. in Harare still insisted yesterday that there was no concrete evidence and relatives of the Britons are refusing to give up BRISBANE: A Navy

According to Reuters, new information from captured rebels in the troubled province of Matabeleland indicated that the visitors were murdered within two days of being captured on July 23 last year. porters it was believed that Mr Bird had been blown off course. He had last made radio contact with the pairol boat at

The tourists were seized on the road from Victoria Falls to Bulawayo, the capital of Mate-beleland. The two Britons were Mr James Greenwell, an 18-year-old student from London, and Mr Martyn Hodgson, aged 35, a civil engineer from Stourbridge in the West Mid-lands. The others were two Americans and two Australians.

Nobody will be allowed to keep more than four donkeys, and they can keep those only if they can prove that they are The hostages were taken from a lorry by up to 12 armed men during a safari overland tour. In exchange for their captives the kidnappers demanded the re-lease of leading officials of Mr Joshua Nkomo's Zapu party. THE TIMES INFORMATION SERVICE

# Pa nting for rain in an Indian summer

Letter from Delhi

be sparsely inhabited, but in India 700 teeming millions have to come to terms with temperatures that regularly and for long periods stay above 100°F.

Even by Indian standards this summer is proving to be a scorcher. Already 100 people have died of heat exhaustion, when the body's automatic cooling systems break down and the internal temperature soars with the weather until, like a fever, it kills.

The shade temperature in many crowded places is about 113°F. Lucknow in Uttar Pradesh is only one of the towns in that state reported 47°C.

are panting for rain as well.

Kerala by now, and which out of station." would instantly have reyet another failure of the from a perambulating rerain.

#### The papers

In the election aftermath, several Sunday newspapers call for electoral reform. The present system "must not endure", said The Sunday Times. All EEC governments will come under pressure to adopt a common proportional system for the 1989 European elections, the paper added, and the new Government should commission a study on the subject now.

The Observer suggested one, option might be the French system; single member constituencies with two ballots, which retain one MP for ach constituency.

The Mail on Sunday attacked the "bogy" that a Conservative landstide means an extremist Government led by an unrestrained Prime Minister. Quite the opposite, it said: It is far easier to keep back benchers in line with small majorities—balancing factions in the crowded Tory ranks could and would make rouble if Mrs Thatcher and her colleagues "strayed far from the general consensus".

The Washington Post said yesterday that British voters had rewarded. Mrs Thatcher for her firm and coherent view of her country's purposes. The outlook country's purposes". "The outlook for the Labour Party, now sunk deep in unhinged left-wingery, is not promising there is more hope in the Alliance."

Cabinet changes have proved neither sweeping not radical says the Daily Mail. "They are the natural, rather modest expressions of a great Thatcher victory."

CONCISE CROSSWORD PAGE 8

Mobs of starlings forage in the long grass, a mixture of dishevelled adults and young brown birds. When they fiy up, they give an alarm call like a short blast on a referee's whistle. In the trees, families of blue tits and great tits feed together, the young birds

In the gutters, yellow laburnum petals mingle with the last seeds blown off the plane trees. In waste places, the hawksbeards-like tall, many-headed dandelions-are abun-
